Sbs Tv Program Guide:

Guide to Islamist Movements Barry M. Rubin, The SBS Story Ien Ang, Gay Hawkins, Lamia Dabboussy, 2008 The Special Broadcasting Service SBS is Australia's multicultural and multilingual public broadcaster. Its radio and television services broadcast in more languages than any other network in the world. It is the voice of multicultural Australia. The SBS Story investigates the impact of SBS as a force in Australian media culture and society. Using SBS as a case study, the authors investigate how other democratic countries have embraced the fact of cultural difference. Ang, Hawkins and Dabboussy explore how public broadcasters manage the changing nature of migration and multiculturalism and ask: What is media's role and potential to address issues of difference and give voice to diverse opinions? They examine the way SBS has used the culture of difference as a resource for innovation and how these innovations have kept it at the forefront of changes in media practice. The book does not shy away from controversy, tackling issues such as the station's encroaching commercialization, insufficient government funding and the uproar prompted by SBS's reduction in non-English broadcasting. Media Information Australia, 1991 The Politics of Language in Australia Uldis Ozolins, 1993-05-28 This book traces language policy in Australia from World War II to the present, examining the changes in government policy over this time and changes in major public institutions due to the presence of these languages. The major focus is on changes in the education and broadcasting systems, with attention also to interpreting, translating, industrial relations and the role of languages in diplomacy and trade. Dr Ozolins places language in the context of multicultural politics and shows that government language policies that were once prompted by suspicion now accept and even encourage cultural and linguistic maintenance. In fact, Australia has introduced many innovations of international significance in language policy, particularly with the National Language Policy announced in 1987. This policy marked a decisive change in political assumptions toward
