The book argues that since the 1990s changes in the

national political arena fiscal and administrative decentralization as well as broader socio economic developments have led to a decoupling of once closely integrated national and local party systems in Japan Such decoupling has led to a breakdown of symbiotic relations between the centre and regions In its place are increasing strains between national and local governments leading to greater intra party conflict inter governmental conflicts and more chief executives with agendas and resources increasingly autonomous of the national ruling party Although being a book primarily focused on the Japanese case the study seeks to contribute to a broader understanding of how local partisans shape national policy making The book theorizes and investigates how the degree of state centralization vertical integration for party organizations and partisan congruence in different levels of government affect inter governmental relations Japan's experience is compared with Germany Canada and the UK to explore sources of multi level policy conflict Chapter 1 of this book is freely available as a downloadable Open Access PDF at http www taylorfrancis com under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license Global Environmentalism and Local Politics Maria Guadalupe Moog Rodrigues, 2004-01-01 Examines the internal politics of transnational environmental advocacy networks What is the role played by local organizations in transnational environmental advocacy networks Global Environmentalism and Local Politics revisits this question by looking at transnational environmental activism in Brazil Ecuador and India Rodrigues investigates the internal politics of these networks focusing on their internal balance of power choice of strategies and distribution of resources among members at the international national and local levels Contrary to existing assumptions local organizations rather than international or national non governmental organizations are the key players in these networks while at the same time mere participation in transnational advocacy efforts does not necessarily lead to the empowerment of local organizations Participation may for example impose unanticipated political and technical burdens and despite their overarching common goal of environmental preservation network members may have different understandings of what environmentally sustainable development is and how it can be best achieved The Politics of Welfare State Transformation in Germany Christof Schiller, 2016-04-20 How can we best analyse contemporary welfare state change And how can we explain and understand the politics of it This book contributes to these questions both empirically and theoretically by concentrating on one of the least likely cases for welfare state transformation in Europe It analyzes in detail how and why institutional change has taken Germany's welfare state from a conservative towards a new work first regime Christof Schiller introduces a novel analytical framework to make sense of the politics of welfare state transformation by providing the missing link the capacity of the core executive over time Examining the policy making process in labour market policy in the period between 1980 and 2010 he identifies three different policy making episodes and analyses their interaction with developments and changes in such policy areas as pension policy family policy labour law tax policy and social assistance The book advances existing efforts aimed at conceptualizing and measuring welfare state change by proposing a clear cut
