Wangari Maathai The Woman Who Planted Millions Of Trees:

Wangari Maathai Franck Prevot, 2017-06-06 Wangari Maathai received the Nobel Peace Prize in 2004 for her efforts to lead women in a nonviolent struggle to bring peace and democracy to Africa through its reforestation. Her organization planted over thirty million trees in thirty years. This book *Wangari Maathai* Franck Prévot, 2015-01-06 Trees are living symbols of peace and hope. Wangari Maathai Nobel Peace laureate Wangari Maathai changed the way the world thinks about nature, ecology, freedom, and democracy, inspiring radical efforts that continue to this day. This simply told story begins with Green Belt Movement founder Wangari Maathai's childhood at the foot of Mount Kenya where, as the oldest child in her family, her responsibility was to stay home and help her mother. When the chance to go to school presented itself, she seized it with both hands. She traveled to the US to study where she saw that even in the land of the free, black people were not welcome. Returning home, Wangari was determined to help her people and her country. She recognized that deforestation and urbanization was at the root of her country's troubles. Her courage and confidence carried her through adversity to found a movement for peace, reconciliation, and healing. Aurélie Fronty's beautiful illustrations show readers the color and diversity of Wangari's Africa: the green trees and the flowering trees full of birds, monkeys, and other animals; the roots that dig deep into the earth; and the people who work and live on the land.

Wangari Maathai Lisa A. Crayton, 2021-03-04 Wangari Maathai was a fierce protector of the environment and a courageous advocate for women's rights, especially in her native country of Kenya. Her journey from a girl of rural Africa to university professor, founder of the Green Belt Movement, and Nobel Peace Prize Laureate shows readers how little actions can bring about big changes.

Ecologies of Community in Performance Karen Savage, Dominic Symonds, 2025-10-02 In their previous book *Economies of Collaboration in Performance*, Savage and Symonds explored the economy as a metaphor for understanding collaborative practices in the arts. This book *Ecologies of Community in Performance* continues to explore arts practices focusing on communities and turning to the language of ecology to understand the complexities and working dynamics of arts communities. The book provides a thoughtful analysis of how communities work as ecologies, offering case studies of community processes by way of illustrating the main discussion. In doing so, it reveals how the triangulation of ecology, community, and performance allows for a deeper understanding of dynamic relations in the arts, enabling scholars, practitioners, and policy makers to better conceptualise ecological thinking in relation to 21st century arts practices.

Old Words for a New World Walter Brueggemann, 2025-02-04 Walter Brueggemann has been so effective for so long precisely because he has consistently called upon the church to see beyond the taken-for-granted realities it confronts by imagining God's alternative reality to recognize that the bars of its entrapment were social constructs and could just as easily be deconstructed so we

could be once again enchanted by God's good news To challenge the taken for granted reality of the church and to imagine an alternative reality Brueggemann consistently takes us back to the biblical text He moves between a description of the reality that appears in front of the church and the alternative that God is preparing for God's people that begins now and moves into God's eschatological future In so doing Brueggemann seeks to unleash the power of God's words to create a new world here and now

Enough Blood Shed Mary-Wynne Ashford, 2006-05-01 Enough Blood Shed confronts the reality of a world awash in weapons and the belief that war is inevitable with people powerless to change the system It provides an alternative perspective based on solutions known to be successful because they have been used already The first part of the book describes the culture of violence that has led the world to this precipice of hopelessness and then points to signs of hope that a different future is possible It outlines the steps being made to build a culture of peace including the phenomenal power of civil society the second superpower or the conscience of society Part Two then focuses on the solutions that are possible for all sectors of society For individuals including women children and youth For schools educators activist groups and religious organizations For the media professionals business and labor For cities nations and the global community Focusing on the power of ordinary people to make a difference and packed with effective nonviolent success stories often in a setting of hate and provocation the book provides guidance inspiration hope and empowerment that peace is not only possible but can be fun along the way
