Classified David E.

Bernstein, 2022-07-19 The racial categories that the schools use are completely bonkers an arbitrary mess mostly left over from the work of federal bureaucrats in the 1970s that can't withstand the slightest scrutiny The administrators who rely on these categories are beholden to senseless and unscientific distinctions they aren't even competent or rational racialists Justice Samuel Alito raised this issue in the arguments pretty clearly relying on the work of George Mason University professor David Bernstein who eviscerated the categories in an amicus brief and has written a book on their origin and implications Classified The Untold Story of Racial Classification in America National Review Americans are understandably squeamish about official racial and ethnic classifications Nevertheless they are ubiquitous in American life Applying for a job mortgage university admission citizenship government contracts and much more involves checking a box stating whether one is Black White Asian Hispanic or Native American While reviewing the surprising history of American racial classifications Classified raises questions about the classifications coherence logic and fairness for example Should Pakistani Chinese and Filipino Americans be in the same category despite their obvious differences in culture appearance religion and more Why does the government not allow Americans to classify themselves as bi or multi racial How did the government decide that a dark complexioned burka wearing Muslim Yemeni should be classified as generically white but a blond haired blue eyed immigrant from Spain should be classified as Hispanic and treated as a member of a minority group Why does the government require biomedical researchers to classify study participants by the official racial categories when the classifications have no scientific basis In an increasingly diverse society with high rates of intergroup marriage the American system of racial classification is getting even more arbitrary and absurd With rising ethno nationalism threatening democracy around the world it's also dangerous Classified argues that the time has come to consider abolishing official racial classification and replace it with the separation of race and state
