

Welcome to the WaveLab help!

This on-line help contains descriptions of all menu items and dialogs in WaveLab, as well as the main procedures for editing, file handling, etc. There are several ways to use the help:

- Select "Help topics" from the Help menu in WaveLab.  
This opens the help browser, allowing you to read the help files much like an on-line manual. Use the Contents tab to the left to navigate to the area you're interested in.
- Click the Help button in a dialog.  
This opens a help window describing all parameters and features of the dialog.
- Press [F1] or click the Help icon in a window.  
This gives you general information about the window and its usage.
- Select the Help item on a menu.  
This opens a help window, listing the items on the menu. Click the item you want to know more about.

Finally, although this on-line help is very comprehensive, we would also recommend reading the printed manual, for more in-depth descriptions.
