Strangers By Toni Morrison:

Black Women, Identity, and Cultural Theory Kevin Everod Quashie, 2004 Ultimately moves beyond these to propose a new cultural aesthetic that aims to center black women and their philosophies Book jacket **Toni Morrison's Beloved** William L. Andrews, Nellie Y. McKay, 1999 With the continued expansion of the literary canon multicultural works of modern literary fiction and autobiography have assumed an increasing importance for students and scholars of American literature This exciting new series assembles key documents and criticism concerning these works that have so recently become central components of the American literature curriculum Each casebook will reprint documents relating to the work s historical context and reception present the best in critical essays and when possible feature an interview of the author The series will provide for the first time an accessible forum in which readers can come to a fuller understanding of these contemporary masterpieces and the unique aspects of American ethnic racial or cultural experience that they so ably portray This casebook to Morrison s classic novel presents seven essays that represent the best in contemporary criticism of the book In addition the book includes a poem and an abolitionist s tract published after a slave named Margaret Garner killed her child to save her from slavery the very incident Morrison fictionalizes in *Beloved* **Critical Companion to Toni Morrison** Carmen Gillespie, 2007 Toni Morrison winner of the Nobel Prize in Literature in 1993 is perhaps the most important living American author This work examines Morrison s life and writing featuring critical analyses of her work and themes as well as entries on related topics and relevant people places and influences *Strangers in the Land* Eric J Sundquist, 2009-06-30 The importance of blacks for Jews and Jews for blacks in conceiving of themselves as Americans when both remained outsiders to the privileges of full citizenship is a matter of voluminous but perplexing record A monumental work of literary criticism and cultural history *Strangers in the Land* draws upon politics sociology law religion and popular culture to illuminate a vital highly conflicted interethnic partnership over the course of a century **All Those Strangers** Douglas Field, 2015 Adored by many appalling to some baffling still to others few authors defy any single critical narrative to the confounding extent that James Baldwin manages Was he a black or queer writer Was he a religious or secular writer Was he a spokesman for the civil rights movement or a champion of the individual His critics as disparate as his readership endlessly wrestle with paradoxes not just in his work but also in the life of a man who described himself as all those strangers called Jimmy Baldwin and who declared that all theories are suspect Viewing Baldwin through a cultural historical lens alongside a more traditional literary critical approach *All Those Strangers* examines how his fiction and nonfiction shaped and responded to key political and cultural developments in the United States from the 1940s to the 1980s Showing how external forces molded Baldwin s personal political and psychological development Douglas Field breaks through the established critical difficulties caused by Baldwin s geographical ideological and artistic multiplicity by analyzing his life and work against the radically transformative politics of his time The book explores under researched areas in Baldwin s life and work including his relationship to the Left

his FBI files and the significance of Africa in his writing while also contributing to wider discussions about postwar US culture Field deftly navigates key twentieth century themes the Cold War African American literary history conflicts between spirituality and organized religion and transnationalism to bring a number of isolated subjects into dialogue with each other By exploring the paradoxes in Baldwin s development as a writer rather than trying to fix his life and work into a single framework All Those Strangers contradicts the accepted critical paradigm that Baldwin s life and work are too ambiguous to make sense of By studying him as an individual and an artist in flux Field reveals the manifold ways in which Baldwin s work develops and coheres

Toni Morrison: An Ethical Poetics Yvette Christianse,2013 Toni Morrison An Ethical Poetics situates Toni Morrison as a writer who writes about writing as much as about racialized engendered and sexualized African American and therefore American experience In foregrounding the ethics of fiction writing the book resists any triumphalist reading of Morrison s achievement in order to allow the meditative unsettled and unsettling questions that arise throughout her long labor at the nexus of language and politics where her fiction interrogates representation itself Moving between close reading and critical theory Toni Morrison An Ethical Poetics reveals the ways in which Morrison s primary engagement with language has been a search for how and what language is made to communicate and for how and what speaks in and from generation to generation There is no easy escape from such legacy no escape into a pure language free of the burdens of racialized agendas Rather there is the example of Morrison s commitment to writerly which is to say readerly wakefulness At a time when sustained study devoted to single authors has become rare this book will be an invaluable resource for readers scholars and teachers of Morrison s work

European Studies and Europe: Twenty Years of Euroculture Janny de Jong, Marek Neuman, Senka Neuman Stanivuković, Margriet van der Waal, 2020 In 1998 the Master's programme Euroculture started with the aim to offer amid the many existing programmes that focused on European institutional developments a European studies curriculum that puts the interplay of culture society and politics in Europe at the heart of the curriculum Among other topics the programme focused on how Europe and European integration could be contextualised and what these concepts meant to European citizens In June 2018 Euroculture celebrated its twentieth anniversary with a conference to discuss not only the changes within the MA Euroculture itself but also to reflect upon the changes in the field of European studies over the last two decades writ large This volume brings together the main findings of this conference Since its start Euroculture has engaged with European studies by providing a space for cooperation between more mainstream oriented research on the one hand and a variety of sociological historiographical post structuralist and post colonial perspectives on Europe on the other This has enabled

Euroculture to contextualise the emergence and development of European institutions historically and in relation to broader socio political and cultural processes Its methodology that treats theoretical and analytical work classroom teaching and engaged practice as integral parts of critical inquiry has significantly contributed to its ability to continuously enhance scholarly discussions The volume is divided into two parts which are intrinsically linked The first part contains reflections on the field of European studies and on concepts analytical perspectives and methodologies that have emerged through interdisciplinary dialogues in Euroculture European studies The second part contains contributions that reflect upon the Euroculture programme itself discussing both changes and continuities in the curriculum and didactic methods outlining possible venues for further developing the educational and research programme that is firmly embedded in a network of partners that have been closely cooperating over a span of no less than two decades **Toni Morrison** Alladi Uma,1996

Contributed articles **Quiet As It's Kept** J. Brooks Bouson,2000-01-01 Focuses on the role of shame and trauma as it looks at issues of race class color and caste in the novels of Toni Morrison **Toni Morrison** Adrienne Lanier Seward,Justine Tally,2014-08-12 Toni Morrison Memory and Meaning boasts essays by well known international scholars focusing on the author s literary production and including her very latest works the theatrical production Desdemona and her tenth and latest novel Home These original contributions are among the first scholarly analyses of these latest additions to her oeuvre and make the volume a valuable addition to potential readers and teachers eager to understand the position of Desdemona and Home within the wider scope of Morrison s career Indeed in Home we find a reworking of many of the tropes and themes that run throughout Morrison s fiction prompting the editors to organize the essays as they relate to themes prevalent in Home In many ways Morrison has actually initiated paradigm shifts that permeate the essays They consistently reflect in approach and interpretation the revolutionary change in the study of American literature represented by Morrison s focus on the interior lives of enslaved Africans This collection assumes black subjectivity rather than argues for it in order to reread and revise the horror of slavery and its consequences into our time The analyses presented in this volume also attest to the broad range of interdisciplinary specializations and interests in novels that have now become classics in world literature The essays are divided into five sections each entitled with a direct quotation from Home and framed by two poems Rita Dove s The Buckeye and Sonia Sanchez s Aaayeee Babo Aaayeee Babo Aaayeee Babo **Toni Morrison's 'Beloved'** Justine Tally,2008-11-18 Toni Morrison s Beloved Origins explores the multifarious ways in which memory works to conserve a legacy of the ancient past The vestiges of both Classical Greek and Ancient Egyptian belief systems call to a concern with myths of regeneration **The Novels of Toni Morrison** K. Sumana,1998 *Rewriting Black Identities* Rebecca Ferguson,2007 Topics include Complexity and Continuity Transition Exclusion and Illusion The Use of an Eye Fragmentation and Reconstruction Shifting Foundations Living History and more **Eudora Welty, Whiteness, and Race** Harriet Pollack,2013-01-01 Faced with Eudora Welty s preference for the oblique in literary performances some have assumed that

Welty was not concerned with issues of race or even that she was perhaps ambivalent toward racism. This collection counters those assumptions as it examines Welty's handling of race, the color line, and Jim Crow segregation and sheds new light on her views about the patterns, insensitivities, blindness, and atrocities of whiteness. Contributors to this volume show that Welty addressed whiteness and race in her earliest stories, her photography, and her first novel, *Delta Wedding*. In subsequent work, including *The Golden Apples*, *The Optimist's Daughter*, and her memoir *One Writer's Beginnings*, she made the color line and white privilege visible, revealing the gaping distances between lives lived in shared space but separated by social hierarchy and segregation. Even when black characters hover in the margins of her fiction, they point readers toward complex lives, and the black body is itself full of meaning in her work. Several essays suggest that Welty represented race like gender and power as a performance scripted by whiteness. Her black characters, in particular, recognize whiteface and blackface as performances, especially comical when white characters are unaware of their role. Play Eudora Welty, *Whiteness and Race*, also makes clear that Welty recognized white material advantage and black economic deprivation as part of a cycle of race and poverty in America and that she connected this history to lives on either side of the color line, to relationships across it, and to an uneasy hierarchy of white classes within the presumed monolith of whiteness.

Eroticism, Spirituality, and Resistance in Black Women's Writings Donna Aza Weir-Soley, 2017-06-13. Provocative articulates the importance of embodied erotic spirituality to black female subjectivity and empowerment. *Tulsa Studies in Women's Literature* sets out to reclaim the right of black women to their sexual and erotic expression, untainted by the stereotypes and disparagements that have historically confined them. *African American Review* captures one of the most challenging concerns of scholars who engage black women's literature, culture, and theory: the ongoing quest to locate a form of black female sexual agency that neither withers in the chilly lake of sexual repression nor explodes in the heat of hypersexual stereotypes. *MELUS Journal of the Society for the Study of the Multi-Ethnic Literature of the United States* successfully undertakes an analysis of how black women writers have used overlapping narrative depictions of sexuality and spirituality to recast the denigrated black female body and rewrite an empowered and fully actualized black female subject. Candice M. Jenkins, author of *Private Lives: Proper Relations, Regulating Black Intimacy*. Weir-Soley speaks with an authority that comes from real knowledge of investment in and attention to the details of the African cosmologies and textual complexities she unearths. Carine Mardorossian, SUNY Buffalo. The most original and significant contributions are the often brilliant readings of Morrison, Adisa, and Danticat. The work is riveting both methodologically and critically. Leslie Sanders, York University. Western European mythology and history tend to view spirituality and sexuality as opposite extremes. But sex can be more than a function of the body, and religion more than a function of the mind, as exemplified in the works and characters of such writers as Zora Neale Hurston, Toni Morrison, Opal Palmer Adisa, and

Edwidge Danticat Donna Weir Soley builds on the work of previous scholars who have identified the ways that black women's narratives often contain a form of spirituality rooted in African cosmology which consistently grounds their characters' self empowerment and quest for autonomy. What she adds to the discussion is an emphasis on the importance of sexuality in the development of black female subjectivity beginning with Hurston's *Their Eyes Were Watching God* and continuing into contemporary black women's writings. Writing in a clear, lucid and straightforward style, Weir Soley supports her thesis with close readings of various texts including Hurston's *Their Eyes Were Watching God* and Morrison's *Beloved*. She reveals how these writers highlight the interplay between the spiritual and the sexual through religious symbols found in Voodoo, Santería, Candomblé, Kumina, and Hoodoo. Her arguments are particularly persuasive in proposing an alternative model for black female subjectivity.
