Storming Heaven Steve Wright, 2017      Storming Heaven Steve Wright, 2017 A history of Italian workerist theory taking in Antonio Negri Mario Tronti and Sergio Bologna      **Storming Heaven** Steve Wright, 2002-02-20 Storming Heaven is the first comprehensive survey of Italian autonomist theory from its origins in the anti stalinist and workerist left of the 1950s to its heyday twenty years later Autonomist marxism was a political tendency which privileged themes self organisation construction of identity grassroots politics subjects in struggle which in many ways can be seen as the precursor of today s debates around direct action protest Emphasising the dynamic nature of class struggle as the distinguishing feature of autonomist thought Wright explores how its understanding of class politics developed alongside emerging social movements Offering a critical and historical exploration of the tendency s emergence in postwar Italy Storming Heaven moves beyond the crisis of traditional analytical frameworks on the left and assesses the strengths and limitations of autonomist marxism as first developed by Antonio Negri Mario Tronti Sergio Bologna and others      Storming Heaven Steve Wright, 2002-02-20 Leading scholars discuss ideology and hotly contested post structuralist theory      **Autonomy** David Eden, 2016-04-08 Autonomy Capital Class and Politics explores and critiques one of the most dynamic terrains of political theory sometimes referred to as Autonomist Marxism or post Operaismo This theory shot to prominence with the publication of Empire by Hardt and Negri and has been associated with cutting edge developments in political and cultural practice yet there exists no work that critically examines it in its contemporary breadth Taking three divergent manifestations of Autonomist Marxism found in the works of Antonio Negri and Paulo Virno the Midnight Notes Collective and John Holloway David Eden examines how each approach questions the nature of class and contemporary capitalism and how they extrapolate politics Not only is such juxtaposition both fruitful and unprecedented but Eden then constructs critiques of each approach and draws out deeper common concerns Suggesting a novel rethinking of emancipatory praxis this book provides a much needed insight into the current tensions and clashes within society and politics      **Women and the Subversion of the Community** Mariarosa Dalla Costa, 2019-04-01 This collection brings together key texts and previously unavailable essays of the influential Italian feminist author and activist Mariarosa Dalla Costa In recent years there has been both a renewed interest in theories of social reproduction and an explosion of women s struggles and strikes across the world The collection offers both historical and contemporary Marxist feminist analysis of how the reproduction of labour and life functions under capitalism Dalla Costa s essays speeches and political interventions provide insight into the vibrant and combative women s movement that emerged in Italy and across the world in the early 1970s Since the publication of Women and the Subversion of the Community 1972 Dalla Costa has been a central figure in the development of autonomist thought in a wide range of anticapitalist and feminist social movements Her detailed research and provocative thinking deepens our understanding of the role of women s struggles for autonomy and control over their bodies and labour These essays provide critical and

relevant ideas for anticapitalists antiracists and feminists who are attempting to build counterpower in the age of austerity

**Work and Alienation in the Platform Economy** Sarrah Kassem, 2023-02-28 Once hidden behind the veils of entrepreneurship it is now clear that platforms are reshaping the world of work and Amazon has been a forerunner in setting the trend This book examines two key and contrasting Amazon platforms that differ in how they organize workers its e commerce platform and digital labor platform Mechanical Turk With access to the people who are working at the heart of these platforms it explores how different working conditions alienate workers and how despite these conditions workers organize within their political economic contexts to express their agency in traditional and alternative ways Written for social scientists studying and researching the platform economy this is a timely and important analysis of work and workers on the digital shop floor

**Soapbox Rebellion** Matthew S. May, 2013-10-30 Soapbox Rebellion a new critical history of the free speech fights of the Industrial Workers of the World IWW illustrates how the lively and colorful soapbox culture of the Wobblies generated novel forms of class struggle From 1909 to 1916 thousands of IWW members engaged in dozens of fights for freedom of speech throughout the American West The volatile spread and circulation of hobo agitation during these fights amounted to nothing less than a soapbox rebellion in which public speech became the principal site of the struggle of the few to exploit the many While the fights were not always successful they did produce a novel form of fluid union organization that offers historians labor activists and social movement scholars a window into an alternative approach to what it means to belong to a union Matthew May coins the phrase Hobo Orator Union to characterize these collectives Soapbox Rebellion highlights the methodological obstacles to recovering a workers history of public address closely analyzes the impact of hobo oratorical performances and discusses the implications of the Wobblies free speech fights for understanding grassroots resistance and class struggle today in an era of the decline of the institutional business union model and workplace contractualism

**Wobblies of the World** Peter Cole, David Struthers, Kenyon Zimmer, 2017-10-20 The Industrial Workers of the World is a union unlike any other Founded in 1905 in Chicago it rapidly gained members across the world thanks to its revolutionary internationalist outlook By using powerful organising methods including direct action and direct democracy it put power in the hands of workers This philosophy is labeled as revolutionary industrial unionism and the members called affectionately Wobblies This book is the first to look at the history of the IWW from an international perspective Bringing together a group of leading scholars it includes lively accounts from a number diverse countries including Australia Canada Mexico South Africa Sweden and Ireland which reveal a fascinating story of global anarchism syndicalism and socialism Drawing on many important figures of the movements such as Tom Barker Har Dayal Joe Hill James Larkin and William D Big Bill Haywood and exploring particular industries including shipping mining and agriculture this book describes how the IWW and its ideals travelled around the world

**Militant Acts** Marcelo Hoffman, 2019-01-01 Militant Acts presents a broad history of the concept and practice of investigations in radical political struggles from the nineteenth century to the present

Radicals launched investigations into the conditions and struggles of the oppressed and exploited to stimulate their political mobilization and organization. These investigations assumed a variety of methodological forms in a wide range of geographical and institutional contexts and they also drew support from the participation of intellectuals such as Marx, Lenin, Mao, Dunayevskaya, Foucault, and Badiou. Marcelo Hoffman analyzes newspapers, pamphlets, reports, and other source materials which reveal the diverse histories, underappreciated difficulties, and theoretical import of investigations in radical political struggles. In so doing, he challenges readers to rethink the supposed failure of these investigations and concludes that the value of investigations in radical political struggles ultimately resides in the possibility of producing a new political world.

*Experimental Politics and the Making of Worlds* Anja Kanngieser, 2016-04-15 Creative strategies have been central to global social movements. From the theatrics of the 1999 Seattle protests to the rebel clowns at the 2005 G8 summit in Gleneagles and the antics of the Yes Men, the crossovers between art and politics have increasingly become more visible and prolific. This book explores an innovative form of creative and communicative politics: the performative encounter as a strategy for facilitating new ways of being, relating, and making worlds. Unlike existing scholarship that frames such encounters in artistic or cultural terms, this book analyzes performative encounters through an organizational lens to accentuate their social-political potential. Engaging a wealth of material from autonomist philosophy, political science, performance studies, geography, and social movement texts, intertwining conceptual and ethnographic research, it uniquely maps out one narrative of the encounter, tracing a line through the twentieth century from the Berlin Dadaists to the Situationist International to several contemporary German collectives and campaigns, showing how performative encounters intervene in global and local issues such as the privatization of public space and resources, human mobility, and the corporatization of education.

**Power At Work** Marcel van der Linden, Nicole Mayer-Ahuja, 2023-07-04 Between working men and women, which may include free wage earners, chattel slaves, indentured labourers, sharecroppers, domestic servants, and many others, and those employing them, there has always been a constant, mostly silent but sometimes overt struggle concerning employers' discretionary power and over the interpretation of formal and informal rules. There is a constantly shifting frontier of control that is an ongoing struggle for control in the workplace, with managers and supervisors trying to increase their power over their subordinates and their subordinates in reaction trying to maintain and increase their relative autonomy. The detailed case studies in this volume span three centuries and cover different parts of the world. Still, they speak to each other in many ways, highlighting the fact that power at work, whether on the shopfloor or beyond, results from a wide range of complex interrelations. Between technological innovations and the ways in which they are actually implemented. Between the division of labour at the site of production or service provision and changing standards of social segmentation beyond the premises of the company, which can be reinforced or weakened by management strategies of utilizing labour power as well as workers' reaction to these strategies. And finally, between politics in production which shape the relations

between capital and labour on the shopfloor and state politics of production which cannot be understood without reference to broader developments in economy and society

**The Routledge Handbook of Social Change** Richard Ballard, Clive Barnett, 2022-09-30 The Routledge Handbook of Social Change provides an interdisciplinary primer to the intellectual approaches that hold the key to understanding the complexity of social change in the twenty first century We live in a world of intense social transformation economic uncertainty cultural innovations and political turmoil Established understandings of issues of well being development democratisation progress and sustainability are being rethought both in academic scholarship and through everyday practice organisation and mobilisation The contributors to this handbook provide state of the art introductions to current thinking on central conceptual and methodological approaches to the analysis of the transformations shaping economies politics and societies Topics covered include social movements NGOs the changing nature of the state environmental politics human rights anti globalism pandemic emergencies post Brexit politics the politics of resilience new technologies and the proliferation of progressive and reactionary forms of identity politics Drawing on disciplines including anthropology human geography political sociology and development studies this is a comprehensive and authoritative introduction to researching key issues raised by the challenge of making sense of the twenty first century futures

*Upping the Anti #1*, *The Subversive Seventies* Michael Hardt, 2023 In *The Subversive Seventies* Michael Hardt sets out to show that popular understandings of the political movements of the seventies often seen as fractious violent and largely unsuccessful are not just inaccurate but foreclose valuable lessons for the political struggles of today Looking at a wide range of movements around the globe during the 1970s from the United States to Guinea Bissau South Korea Chile Turkey and Italy Hardt argues that the movements of the 1970s identified and attempted to resolve the political problems that still face contemporary radical political thought and action

*The Ashgate Research Companion to Modern Theory, Modern Power, World Politics* Nevzat Soguk, Scott G Nelson, 2016-04-28 Deliberately eschewing disciplinary and temporal boundaries this volume makes a major contribution to the de traditionalization of political thinking within the discourses of international relations Collecting the works of twenty five theorists this Ashgate Research Companion engages some of the most pressing aspects of political thinking in world politics today The authors explore theoretical constitutions critiques and affirmations of uniquely modern forms of power past and present Among the themes and dynamics examined are textual appropriation and representation materiality and capital formation geopolitical dimensions of ecological crises connections between representations of violence and securitization subjectivity and genderization counter globalization politics constructivism biopolitics post colonial politics and theory as well as the political prospects of emerging civic and cosmopolitan orders in a time of national religious and secular polarization Radically different in their approaches the authors critically assess the discourses of IR as interpretive frames that are indebted to the historical formation of concepts and to particular negotiations of power that inform the main methodological practices usually granted primacy in the field

Students as well as seasoned scholars seeking to challenge accepted theoretical frameworks will find in these chapters fresh insights into contemporary world political problems and new resources for their critical interrogation

*The European Radical Left* Giorgos Charalambous, 2021-12-20 Is today's left really new? How has the European radical left evolved? Giorgos Charalambous answers these questions by looking at three moments of rapid political change: the late 1960s to late 1970s, the turn of the millennium, and post 2008. He challenges the conventional understanding of a new left, drawing out continuities with earlier movements and parties. Charalambous examines the Long 68, symbolised by the May uprisings in France, which saw the rise of new left forces and widespread criticism by younger radical activists of traditional communist and socialist parties. He puts this side by side with the turn of the millennium when the Global Justice Movement rose to prominence and changed the face of the international left, and also the period after the financial crash of 2008 and the rise of anti-austerity politics, which initiated the most recent wave of new left parties such as Podemos in Spain and Syriza in Greece. With a unique two-level perspective, Charalambous approaches the left through both social movements and party politics, looking at identities, rhetoric, and organisation, and bringing a fresh new approach to radical history as well as assessing challenges for both activists and scholars.

**The Warehouse** Alessandro Delfanti, 2021-10-20 Work hard, have fun, make history: proclaims the slogan on the walls of Amazon's warehouses. This cheerful message hides a reality of digital surveillance, aggressive anti-union tactics, and disciplinary layoffs. Reminiscent of the tumult of early industrial capitalism, the hundreds of thousands of workers who help Amazon fulfil consumers' desire are part of an experiment in changing the way we all work. In this book, Alessandro Delfanti takes readers inside Amazon's warehouses to show how technological advancements and managerial techniques subdue the workers rather than empower them, as seen in the sensors that track workers' every movement around the floor and algorithmic systems that re-route orders to circumvent worker sabotage. He looks at new technologies, including robotic arms trained by humans and augmented reality goggles, showing that their aim is to standardise, measure, and discipline human work rather than replace it. Despite its innovation, Amazon will always need living labour's flexibility and low cost. And as the warehouse is increasingly automated, worker discontent increases. Striking under the banner 'we are not robots', employees have shown that they are acutely aware of such contradictions. The only question remains: how long will it be until Amazon's empire collapses?

**Confronting Capitalism in the 21st Century** Marc Silver, 2019-04-23 This book analyzes key aspects of Marx's *Capital* with an eye towards its relevance for an understanding of issues confronting us in the 21st Century. The contributions to this volume suggest that while aspects of Marx's original analysis must be adjusted to take into account changes that have occurred since its initial publication in 1867, his overall perspective remains necessary for understanding the nature of crises in the 21st century. Part I emphasizes the central concepts Marx employed in *Capital*, including exploitation, capital accumulation, commodity fetishism, and his use of dialectics as a method for baring the underlying relations that define capitalism. Parts II and III extend that focus by

addressing the concept of value fictitious capital credit and financialization Parts IV and V offer analyses of several concrete manifestations of contemporary crises from national contexts Europe Latin America China and the United States The volume argues that we have to combat the imperatives of capitalism to move towards a more humane and egalitarian future

*Commoning with George Caffentzis and Silvia Federici* Camille Barbagallo, Nicholas Beuret, David Harvie, 2019-06-20 This collection explores key themes in the contemporary critique of political economy in honour of the work and practice of Silvia Federici and George Caffentzis two of the most significant contemporary theorists of capitalism and anti capitalism whose contributions span half a century of struggle crisis and debate Drawing together a collection of essays that assess Federici and Caffentzis s contributions offering critical and comradely reflections and commentary that build on their scholarship this volume acts as a guide to their work while also taking us beyond it The book is organised around five key themes revolutionary histories reproduction money and value commons and struggles Ultimately the book shines light on the continuing relevance of Caffentzis and Federici s work in the twenty first century for understanding anti capitalism primitive accumulation and the commons feminism reproductive labour and Marx s value theory
