The Seventh Thunder Larry Brooks, 2014-12-02 When committed agnostic Gabriel Stone's wife dies in an unlikely airline disaster he pours himself into the writing of a story that has haunted him since his youth a novel his devout wife had warned him never to finish Inspired by a visit to the island of Patmos he is fascinated with the visions beheld there by St John The Divine while in political exile for his beliefs Those visions included terrifying events delivered by what John described as seven thunders which he was instructed to withhold to seal up and write them not Revelation 10:4 As Stone becomes entrenched in his speculative interpretation of what those visions might have been an embedded code within the Book of Revelation itself reveals startling connections to covert operations that are about to tear the world's political landscape to shreds perhaps signaling the beginning of the prophesied end of times As Stone's novel nears publication he finds himself the pawn in a war between superpowers and supernatural forces each hoping to control the book each driven by hidden agendas beyond Stone's comprehension Facing choices that are at once spiritual and life dependent with global stakes pivoting on his ability to accept the unbelievable and stop the unthinkable *The Seventh Thunder* is a secular thriller that stops at nothing short of our very souls hanging in the balance while ringing frighteningly relevant to today's headlines Winner of the 2010 Next Generation Indie Book Award for best novel in the SUSPENSE THRILLER category

The Seven Basic Plots Christopher Booker, 2005-11-11 This remarkable and monumental book at last provides a comprehensive answer

to the age old riddle of whether there are only a small number of basic stories in the world Using a wealth of examples from ancient myths and folk tales via the plays and novels of great literature to the popular movies and TV soap operas of today it shows that there are seven archetypal themes which recur throughout every kind of storytelling But this is only the prelude to an investigation into how and why we are programmed to imagine stories in these ways and how they relate to the inmost patterns of human psychology Drawing on a vast array of examples from Proust to detective stories from the Marquis de Sade to E T Christopher Booker then leads us through the extraordinary changes in the nature of storytelling over the past 200 years and why so many stories have lost the plot by losing touch with their underlying archetypal purpose Booker analyses why evolution has given us the need to tell stories and illustrates how storytelling has provided a uniquely revealing mirror to mankind s psychological development over the past 5000 years This seminal book opens up in an entirely new way our understanding of the real purpose storytelling plays in our lives and will be a talking point for years to come
