**Supernatural** Colin Wilson Author, 2013-01-01 A major work. An extraordinary tour de force. New Scientist. Colin Wilson came to realize through his own cathartic experiences that all of us are in fact manifold personalities that we each consist of a ladder or hierarchy of selves and that the upper members may be called upon at will. He explains how these discoveries led him to the view that our integral multiple personalities are the explanation for a wide diversity of paranormal phenomena from dowsing and demonic possession to precognition and spoon bending. Man's being is like a vast mansion yet he seems to live in a single room in the basement. **Mysteries of Sex** Mary P. Ryan, 2009-01-06 In a sweeping synthesis of American history Mary Ryan demonstrates how the meaning of male and female has evolved, changed and varied over a span of 500 years and across major social and ethnic boundaries. She traces how at select moments in history perceptions of sex difference were translated into complex and mutable patterns for differentiating women and men. How those distinctions were drawn and redrawn affected the course of American history more generally. Ryan recounts the construction of a modern gender regime that sharply divided male from female and created modes of exclusion and inequity. The divide between male and female blurred in the twentieth century as women entered the public domain, massed in the labor force and

revolutionized private life This transformation in gender history serves as a backdrop for seven chronological chapters each of which presents a different problem in American history as a quandary of sex Ryan s bold analysis raises the possibility that perhaps if understood in their variety and mutability the differences of sex might lose the sting of inequality **The**
