Michigan Official Publication ,1967 *The Household* Robert C. Ellickson,2010-08-02 Some people dwell alone many in family based households and an adventuresome few in communes *The Household* is the first book to systematically lay bare the internal dynamics of these and other home arrangements Legal underpinnings social considerations and economic constraints all influence how household participants select their homemates and govern their interactions around the hearth Robert Ellickson applies transaction cost economics sociological theory and legal analysis to explore issues such as the sharing of household output the control of domestic misconduct and the ownership of dwelling units Drawing on a broad range of historical and statistical sources Ellickson contrasts family based households with the more complex arrangements in medieval English castles Israeli kibbutzim and contemporary cohousing communities He shows that most individuals when structuring their home relationships pursue a strategy of consorting with intimates This he asserts facilitates informal coordination and tends ultimately to enhance the quality of domestic interactions He challenges utopian critics who seek to

enlarge the scale of the household and legal advocates who urge household members to rely more on written contracts and lawsuits Ellickson argues that these commentators fail to appreciate the great advantages in the home setting of informally associating with a handful of trusted intimates The Household is a must read for sociologists economists lawyers and anyone interested in the fundamentals of domestic life *The Unofficial, Unbiased Guide to the 331 Most Interesting Colleges* 2005 Kaplan, Inc,2004-06-22 Engaging and informative The Unofficial Unbiased Guide to the 331 Most Interesting Colleges 2005 is a must read reference for every college bound student **Making Sense of Henry VIII! a Students Guide to**
