Private Ambition And Political Alliances:

The Politics of Piety Megan C. Armstrong, 2004 The Politics of Piety situates the Franciscan order at the heart of the religious and political conflicts of the late sixteenth century to show how a medieval charismatic religious tradition became an engine of political change The friars used their redoubtable skills as preachers intellectual training at the University of Paris and personal and professional connections with other Catholic reformers and patrons to successfully galvanize popular opposition to the spread of Protestantism throughout the sixteenth century By 1588 the friars used these same strategies on behalf of the Catholic League to prevent the succession of the Protestant heir presumptive Henry of Navarre to the French throne This book contributes to our understanding of religion as a formative political impulse throughout the sixteenth century by linking the long term political activism of the friars to the emergence of the French monarchy of the seventeenth century Megan C Armstrong is assistant professor of early modern Europe in the History Department of the University of Utah

Louis XIV's Assault on Privilege Gary B. McCollim, 2012 Louis XIV's Assault on Privilege examines Nicolas Desmaretz one of the most important finance ministers of the Bourbon monarchy McCollim brings to life the man who was arguably the central figure in the final transformative years of Louis XIV's reign Controller General Desmaretz was the nephew of famed finance minister Jean Baptiste Colbert and had extensive experience in the administration prior to 1683 when he suffered disgrace His expertise was so renowned in his day that other chief financial officials sought his advice in secret Desmaretz has been called the ablest man ever to head French finances and the war financing problems he faced from 1708-14 the greatest challenge faced by the Bourbon monarchy until the French Revolution

Gender and Political Culture in Early Modern Europe, 1400-1800 James Daybell, Svante Norrhem, 2016-07-01 Gender and Political Culture in Early Modern Europe investigates the gendered nature of political culture across early modern Europe by exploring the relationship between gender power and political authority and influence This collection offers a rethinking of what constituted politics and a reconsideration of how men and women operated as part of political culture It demonstrates how underlying structures could enable or constrain political action and how political power and influence could be exercised through social and cultural practices The book is divided into four parts diplomacy gifts and the politics of exchange socio economic structures gendered politics at court and voting and political representations each of which looks at a series of interrelated themes exploring the ways in which political culture is inflected by questions of gender In addition to examples drawn from across Europe including Austria the Dutch Republic the Italian States and Scandinavia the volume also takes a transnational comparative approach crossing national borders while the concluding chapter by Merry Wiesner Hanks offers a global perspective on the field and encourages comparative analysis both chronologically and geographically As the first collection to draw together early modern gender and political culture this book is the perfect starting point for students exploring this fascinating topic

Expansion and Crisis in Louis XIV's France Darryl Dee, 2009 New insights on the growth of the

territorial state in early modern Europe the nature of the French absolute monarchy and the political legacy of the Sun King Driven by a desire for glory and renown Louis XIV presided over France's last great burst of territorial expansion in Europe During the first three decades of his rule his armies conquered numerous territories along France's borders After 1688 however the tide of conquest turned as the kingdom was plunged into crisis For the remainder of his reign the king and his people endured wars against grand alliances of European powers ecological disasters economic depression state bankruptcy and demographic stagnation Expansion and Crisis in Louis XIV's France examines these central yet understudied aspects of the age of the Sun King through the experience of Franche Comté a possession of the Spanish empire with a long history of autonomy conquered by Louis XIV in 1674 Dee's detailed research reconstructs the ensuing dialogue sometimes harmonious sometimes discordant between the king and the elites who ruled this province The integration of Franche Comté into France proved to be a protracted process involving confrontation negotiation and compromise The resulting regime was then severely tested by the challenges of Louis XIV's late reign its survival demonstrated how the king had brought a distinctly early modern state to the height of its development This study offers significant new insights on the growth of the territorial state in early modern Europe the nature of the French absolute monarchy and the political legacy of the Sun King Darryl Dee is Assistant Professor of History Wilfrid Laurier University Waterloo Canada

Jenatsch's Axe Randolph Conrad Head, 2008 During the turbulent events of Europe's Thirty Years War both ruthlessness and adaptability were crucial ingredients for success In this engaging volume Randolph C Head traces the career of an extraordinarily adaptable and ruthless figure George Jenatsch 1596-1639 Born a Protestant pastor's son Jenatsch's career took him from the clergy to the military to the nobility A passionate Calvinist in his youth he converted to Catholicism and prudence as his power grew A native speaker of the Romansh language he crossed the boundaries of language and local loyalty in his service to France Venice and his own people Violence marked every turning point of his life After fleeing the Holy Massacre of Protestants in the Valtellina in 1620 Jenatsch helped assassinate the powerful Pompeius von Planta in 1621 using an axe He killed his commanding officer in a duel in 1629 and his own life ended in a tavern in 1639 when he was murdered with an axe by a man dressed as a bear After his death myth took over Rumors spread that Jenatsch was killed by the same axe that he had wielded on von Planta and from there the story only got better culminating in Conrad Ferdinand Meyer's celebrated 1876 novel Jürg Jenatsch This study meticulously traces the social boundaries that characterized seventeenth century Europe region religion social state and kinship by analyzing a distinctive life that crossed them all Professor Randolph C Head teaches European History at the University of California Riverside and is the author of Early Modern Democracy in the Grisons

The King's Bench Zoë A. Schneider, 2008 An examination of kings' courts and lords' courts in Normandy that opens a new chapter in the debate over absolutism sovereignty and the nature of the state in early modern France Hidden deep in the countryside of France lay early modern Europe's largest bureaucracy twenty to thirty thousand royal bailiwick and seigneurial courts that

served more than eighty five percent of the king s subjects The crown courts and lords courts were far more than arenas of litigation in the modern sense They had become the nexus of local governance by the middle of the seventeenth century a rich breeding ground for men who controlled the villages towns and bailiwicks of France Yet even as the centralizing state was reaching its zenith under Louis XIV the king s largest permanent bureaucracy became increasingly alienated and cut adrift from the crown many decades before the French Revolution In *The King s Bench* Zo Schneider vividly brings to life the teeming world of the local courts with their magistrates and jailers townspeople and peasants Together they contested that vital border where the private world of families and property collided with the public commonwealth Schneider chronicles the transformation of local governance after the mid seventeenth century as judges and their courts became the face of public order in the countryside With this richly detailed local study of Normandy in the seventeenth and early eighteenth centuries Zo Schneider opens a new chapter in the debate over absolutism sovereignty and the nature of the state in early modern France Zo A Schneider has taught at Georgetown University and with the Smithsonian Institution in Washington D C

Between Crown & Commerce Junko Takeda, 2022-02-03 This carefully argued and well written study examines French royal statecraft in the globalizing economy of the early modern Mediterranean Choice This is the story of how the French Crown and local institutions accommodated one another as they sought to forge acceptable political and commercial relationships Junko Takeda tells this tale through the particular experience of Marseille a port the monarchy saw as key to commercial expansion in the Mediterranean At first Marseille s commercial and political elites were strongly opposed to the Crown s encroaching influence Rather than dismiss their concerns the monarchy cleverly co opted their civic traditions practices and institutions to convince the city s elite of their important role in Levantine commerce Chief among such traditions were local ideas of citizenship and civic virtue As the city s stature throughout the Mediterranean grew however so too did the dangers of commercial expansion as exemplified by the arrival of the bubonic plague During the crisis Marseille s citizens reevaluated merchant virtue while the French monarchy found opportunities to extend its power *Between Crown and Commerce* deftly combines a political and intellectual history of state building mercantilism and republicanism with a cultural history of medical crisis In doing so the book highlights the conjoined history of broad transnational processes and local political change

A Social and Cultural History of Early Modern France William Beik, 2009-05-14 A magisterial history of French society between the end of the middle ages and the Revolution by one of the world s leading authorities on early modern France Using colorful examples and incorporating the latest scholarship William Beik conveys the distinctiveness of early modern society and identifies the cultural practices that defined the lives of people at all levels of society Painting a vivid picture of the realities of everyday life he reveals how society functioned and how the different classes interacted In addition to chapters on nobles peasants city people and the court the book sheds new light on the Catholic church the army popular protest the culture of violence gendered relations and sociability This is a major new work

that restores the ancien régime as a key epoch in its own right and not simply as the prelude to the coming Revolution

Apostles of Empire Bronwen McShea, 2022 *Apostles of Empire* contributes to ongoing research on the Jesuits New France and Atlantic World encounters as well as on early modern French society print culture Catholicism and imperialism

The Third Reign of Louis XIV, c.1682-1715 Julia Prest, Guy Rowlands, 2016-12-08 The personal rule of Louis XIV following on from a long period of royal minority and apprenticeship lasted 54 years from 1661 to 1715 But the second half of this personal rule has until recently received significantly less scholarly attention than the 1660s and 1670s This has obscured some of the very real changes and developments that occurred between the early 1680s and the mid 1690s by which time a new generation of younger royals had come to prominence France was engulfed in international war on a greater scale than ever before and the king was visibly no longer as vigorous or healthy as he had once been The essays in this volume take a close look at the way a new set of political social cultural and economic dispensations emerged from the mid 1680s to create a different France in the final decades of Louis XIV's reign even though the basic ideological social and economic underpinnings of the country remained very largely the same The contributions examine such varied matters as the structure and practices of government naval power the financial operations of the state trade and commerce social pressures overseas expansion religious dissent music literature and the fine arts

Cultural Revolutions Leora Auslander, 2009 Auslander's emphasis on the power of things as a motor of historical change permits her to present a refreshingly new set of arguments about well known historical events Denise Z Davidson author of *France After Revolution Urban Life Gender and the New Social Order* This lucidly written book brilliantly merges material culture firmly into political history and enriches both Leora Auslander's original interpretation of changing gender relations in the age of the democratic revolutions offers fresh ways to understand the emotional and political work that has shaped national identity and persists into our own time A remarkable accomplishment Linda K Kerber author of *No Constitutional Right to Be Ladies Women and the Obligations of Citizenship*

picture of a civilization that continues to intrigue and inspire Corruption, Party, and Government in Britain, 1702-1713 Aaron Graham, 2015 Corruption Party and Government in Britain 1702 1713 offers an innovative and original reinterpretation of state formation in eighteenth century Britain reconceptualising it as a political and fundamentally partisan process Focussing on the supply of funds to the army during the War of the Spanish Succession 1702 13 it demonstrates that public officials faced multiple incompatible demands but that political partisanship helped to prioritise them and to hammer out settlements that embodied a version of the national interest These decisions were then transmitted to agents in overseas through a mixture of personal incentives and partisan loyalties which built trust and turned these informal networks into instruments of public policy However the process of building trust and supplying funds laid officials and agents open to accusations of embezzlement fraud and financial misappropriation In particular although successive financial officials ran entrepreneurial private financial ventures that enabled the army overseas to avoid dangerous financial shortfalls they found it necessary to cover the costs and risks by receiving illegal gratifications from the regiments Reconstructing these transactions in detail Corruption Party and Government in Britain 1702 1713 demonstrates that these corrupt payments advanced the public service and thus that corruption was as much a dispute over ends as means Ultimately this volume demonstrates that state formation in eighteenth century Britain was a contested process of interest aggregation in which common partisan aims helped to negotiate compromises between various irreconcilable public priorities and private interests within the frameworks provided by formal institutions and then collaboratively imposed through overlapping and intersecting networks of formal and informal agents A Place in Common Karen L. Marrero, Andrew K Sturtevant, 2025-03-01 At the turn of the eighteenth century Indigenous nations designated Detroit as a common bowl and a crucial nexus where they shared resources made compromises and coexisted As the century unfolded Detroit continued as a polyglot community in the face of expanding Euro American settlement The region became a highly charged space where the rituals of political negotiation grew in importance alongside a constant threat of violence British political and economic systems continued to operate long after the end of the American Revolution creating a shared cultural border at the end of the eighteenth century that would endure even as the American Empire reestablished rule on the north side of the river Both Anishinaabe and Wyandot people set aside land for future occupation of their people re creating another transnational space in the region A hundred years later issues of race economic development political partisanship and overlapping national claims continued to resonate as the city commemorated and mythologized its origins This book considers how larger watershed occasions impacted the Detroit region and how in turn the unique particularities of local custom impacted regional and national trade and politics and the very nature of how the city continues to view its past **Embezzlement and High Treason in Louis XIV's France** Vincent J. Pitts, 2015-12 Louis XIV's vendetta against his disgraced finance minister exposed dark truths about the state's finances From 1661 to 1664 France was mesmerized by the arrest and trial of Nicolas Fouquet the country's

superintendent of finance Prosecuted on trumped up charges of embezzlement mismanagement of funds and high treason Fouquet managed to exonerate himself from all of the major charges over the course of three long years in the process embarrassing and infuriating Louis XIV The young king overturned the court s decision and sentenced Fouquet to lifelong imprisonment in a remote fortress in the Alps A dramatic critique of absolute monarchy in pre revolutionary France

Embezzlement and High Treason in Louis XIV s France tells the gripping tale of an overly ambitious man who rose rapidly in the state hierarchy then overreached Vincent J Pitts uses the trial as a lens through which to explore the inner workings of the court of Louis XIV who rightly feared that Fouquet would expose the tawdry financial dealings of the king s late mentor and prime minister Cardinal Mazarin *Noble Strategies in an Early Modern Small State* Charles T. Lipp,2011 Examining the societies of the hundreds of small states that made up most of Europe before the 19th century this text takes as its focus the Duchy of Lorraine **States Politics in India** Sadhna Sharma,1995 **Coalition Politics** N. Jose Chander,2004 This book provides an in depth study of coalition government experiments in India with particular reference to the coalition politics at the Centre as well as in the states of Kerala and West Bengal *Reformation and the German Territorial State* William Bradford Smith,2008
