Who Will Throw the Ball? Ida H. Love Ph.D., 2015-11-06 School leadership is the difference maker in achieving high expectations for all students by involving all staff parents community and business partnerships Everyone employed in the school has an important role in promoting high student achievement The principal is the leader and is ultimately responsible for everything but does not need to do or know everything Organization early learning professional learning implementation follow up and feedback are critical components in building an effective school The principal needs a strong leadership team and a very smart dependable and knowledgeable secretary administrative assistant to give leadership to the front office Any principal without anyone other than the best in this position has a setup for failure because the major part of the job is in the classroom for the leader and not the office Early learning is the foundation for all future learning and beginning in pre k and kindergarten educators can set the tone for student success All children can learn to read by the end of kindergarten by utilizing the services of paraprofessionals who have received professional learning skills to reinforce instruction previously taught by the teacher Why do we have some students in middle and high schools who cant read The answer is obvious the foundation was not set in the early years Try building a house without a foundation and you will find yourself spending twice the amount of time and money doing what should have been done in the first place Many times when students have not been adequately prepared to enter secondary schools they no longer have the will and motivation to learn and this is tragic because dropout is usually the only option Students need social emotional and other developmental skills in the early years but it is time to emphasize instructional skills also starting with writing reading listening to daily storytelling and daily high frequency words We cant afford to continue moving students from grade to grade and they cannot read

Assessing English Language Learners in the Content Areas Florin Mihai, 2010-06-11 Assessing English Language Learners in the Content Areas A Research into Practice Guide for Educators seeks to provide guidance to classroom teachers staff developers and test item designers who want to improve ELL assessment outcomes particularly in the areas of math science and social studies The first two chapters of the book establish the background for the discussion of content area assessment for ELLs examining several important characteristics of this rapidly growing student population as well as critical legislation affecting ELLs and providing a description of various forms of assessment including how ELL assessment is different from the assessment of English proficient students Important assessment principles that educators should use in their evaluation of tests or other forms of measurement are provided Other chapters review ELL test
