space behind Cisco and Juniper NetScreen IDC estimated the total Firewall VPN market at 6 billion in 2007 and Nokia owns 6.6% of this market. Nokia's primary customers for security appliances are mid-size to large enterprises who need site-to-site connectivity and mid-size to large enterprises who need remote access connectivity through enterprise-deployed mobile devices. Nokia appliances for this market are priced from 1,000 for the simplest devices (Nokia IP60) up to 60,000 for large enterprise and service provider class devices like the Nokia IP2450 released in Q4 2007. While the feature set of such a broad product range obviously varies greatly, all of the appliances run on the same operating system, Nokia IPSO. IPSO refers to Ipsilon Networks, a company specializing in IP switching, acquired by Nokia in 1997. The definition of the acronym has little to no meaning for customers. As a result of this common operating system across the product line, the Nokia Firewall VPN and IPSO Configuration Guide will be an essential reference to users of any of these products. Users manage the Nokia IPSO, which is a Linux variant specifically designed for these appliances, through a Web interface called Nokia Network Voyager or via a powerful Command Line Interface (CLI). Coverage within the book becomes increasingly complex relative to the product line. The Nokia Firewall VPN and IPSO Configuration Guide and companion Web site will provide seasoned network administrators and security professionals with the in-depth coverage and step-by-step walkthroughs they require to properly secure their network perimeters and ensure safe connectivity for remote users. The book contains special chapters devoted to mastering the complex Nokia IPSO command line as well as tips and tricks for taking advantage of the new ease-of-use features in the Nokia Network Voyager Web interface. In addition, the companion Web site offers downloadable video walkthroughs on various installation and troubleshooting tips from the authors. Only book on the market covering Nokia Firewall VPN appliances, which hold 6.6% of a 6 billion market. Companion website offers video walkthroughs on various installation and troubleshooting tips from the authors. Special chapters detail mastering the complex Nokia IPSO command line as well as tips and tricks for taking advantage of the new ease-of-use features in the Nokia Network Voyager Web interface.
