

Model 45C

BALDWIN ELECTRONIC ORGAN SPECIFICATIONS

The Baldwin Model 45C, recommended for Assembly in church work and home use, is designed for the particular class. It features two complete manuals, a memory, two tone pedals, and a comprehensive selection of stops.

A new feature of this model is the two amplification systems which are used right in the console. A two-channel system—utilizing a 30-watt amplifier for the pedal tones and a 30-watt amplifier for the manual, is used. The 30-watt system is driven by three amplifiers individually, providing extremely low quality of tone response. In addition, previous features made for the use of electronically amplified organs.

All four basic organ tones (bass, treble, middle, and tenor) are represented in the sound with one of two independent systems for attack, one pedal system and one manual system. These systems and the Baldwin are found in many instances of electronically larger organs.
