Kauffmann,2019-06-30 In this book Leisa A Kauffmann takes an interdisciplinary approach to understanding the writings of one of Mexico s early chroniclers Fernando de Alva Ixtlilxochitl a bilingual seventeenth century historian from Central Mexico His writing especially his portrayal of the great pre Hispanic poet king Nezahualcoyotl influenced other canonical histories of Mexico and is still influential today Many scholars who

discuss Alva Ixtlilxochitl's writing focus on his personal and literary investment in the European classical tradition but Kauffmann argues that his work needs to be read through the lens of Nahua cultural concepts and literary historical precepts. She suggests that he is best understood in light of his ancestral ties to Tetzaco's rulers and as a historian who worked within both Native and European traditions. By paying attention to his representation of rulership, Kauffmann demonstrates how the literary and symbolic worlds of the Nahua exist in allegorical but still discernible subtexts within the larger Spanish context of his writing.

Gods of Thunder Timothy R. Pauketat, 2023. A sweeping account of Medieval North America when Indigenous peoples confronted climate change. Few Americans today are aware of one of the most consequential periods in ancient North American history: the Medieval Warm Period of seven to twelve centuries ago (AD 800–1300 CE). On every page of this book, readers will be led down the same paths walked by Indigenous people a millennium ago, some trod by Spanish conquistadors just a few centuries later. The book will follow the footsteps of priests, pilgrims, traders, and farmers who took great journeys, made remarkable pilgrimages, and migrated long distances to new lands. Along the way, readers will discover a new history of a continent that, like today, was being shaped by climate change or controlled by ancient gods of wind and water. Through such elemental powers, the history of Medieval America was a physical narrative, a long-term natural and cultural experience in which Native people were entwined long before Christopher Columbus arrived or Hernán Cortés conquered the Aztecs. The book's dozen chapters cover a lot of ground, focusing on some remarkable parallels between pre-contact American civilizations separated by a thousand miles or more. Key archaeological sites are featured in every chapter, all of which link in an evidentiary trail a great religious movement that swept Mesoamerica, the Southwest, and the Mississippi valley, sometimes because of worsening living conditions and sometimes by improved agricultural yields thanks to global warming a thousand years ago.

Child Martyrs and Militant Evangelization in New Spain Stephanie Schmidt, 2025-04-08. Examines the many iterations of a story of child martyrdom in colonial Mexico. A cornerstone of the evangelization of early New Spain was the conversion of Nahua boys, especially the children of elites. They were to be emissaries between Nahua society and foreign missionaries, hastening the transmission of the gospel. Under the tutelage of Franciscan friars, the boys also learned to act with militant zeal. They sermonized and smashed sacred objects. Some went so far as to kill a Nahua religious leader. For three boys from Tlaxcala, the reprisals were just as deadly. In *Child Martyrs and Militant Evangelization in New Spain*, Stephanie Schmidt sheds light on a rare manuscript about Nahua child converts who were killed for acts of zealotry during the late 1520s. This is the Nahuatl version of an account by an early missionary friar, Toribio de Benavente Motolinía. To this day, Catholics venerate the slain boys as Christian martyrs who suffered for their piety. Yet Franciscan accounts of the boys' sacrifice were influenced by ulterior motives as the friars sought to deflect attention.

from their missteps in New Spain Illuminating Nahua perspectives on this story and period Schmidt leaves no doubt as to who drove this violence as she dramatically expands the knowledgebase available to students of colonial Latin America

The Fifteenth Month John F. Schwaller, 2019-05-02 The Mexica Aztecs used a solar calendar made up of eighteen months with each month dedicated to a specific god in their pantheon and celebrated with a different set of rituals Panquetzaliztli the fifteenth month dedicated to the national god Huitzilopochtli Hummingbird on the Left was significant for its proximity to the winter solstice and for the fact that it marked the beginning of the season of warfare In *The Fifteenth Month* John F Schwaller offers a detailed look at how the celebrations of Panquetzaliztli changed over time and what these changes reveal about the history of the Aztecs Drawing on a variety of sources Schwaller deduces that prior to the rise of the Mexica in 1427 an earlier version of the month was dedicated to the god Tezcatlipoca Smoking Mirror a war and trickster god The Mexica shifted the dedication to their god developed a series of ceremonies including long distance running and human sacrifice that would associate him with the sun and changed the emphasis of the celebration from warfare alone to a combination of trade and warfare since merchants played a significant role in Mexica statecraft Further investigation shows how the resulting festival commemorated several important moments in Mexica history how it came to include ceremonies associated with the winter solstice and how it reflected a calendar reform implemented shortly before the arrival of the Spanish Focused on one of the most important months in the Mexica year Schwaller s work marks a new methodology in which traditional sources for Mexica culture rather than being interrogated for their specific content are read for their insights into the historical development of the people Just as Christmas re creates the historic act of the birth of Jesus for Christians so *The Fifteenth Month* suggests Panquetzaliztli was a symbolic re creation of events from Mexica myths and history
