Development,2002 **The Living Earth** ,1969 Disney's Land Richard Snow,2020-12-01 A propulsive and entertaining The Wall Street Journal history chronicling the conception and creation of the iconic Disneyland theme park as told like never before by popular historian Richard Snow One day in the early 1950s Walt Disney stood looking over 240 acres of farmland in Anaheim California and imagined building a park where people could live among Mickey Mouse and Snow White in a world

still powered by steam and fire for a day or a week or if the visitor is slightly mad forever Despite his wealth and fame exactly no one wanted Disney to build such a park Not his brother Roy who ran the company's finances not the bankers and not his wife Lillian Amusement parks at that time such as Coney Island were a generally despised business sagging and sordid remnants of bygone days Disney was told that he would only be heading toward financial ruin But Walt persevered initially financing the park against his own life insurance policy and later with sponsorship from ABC and the sale of thousands and thousands of Davy Crockett coonskin caps Disney assembled a talented team of engineers architects artists animators landscapers and even a retired admiral to transform his ideas into a soaring yet soothing wonderland of a park The catch was that they had only a year and a day in which to build it On July 17 1955 Disneyland opened its gates and the first day was a disaster Disney was nearly suicidal with grief that he had failed on a grand scale But the curious masses kept coming and the rest is entertainment history Eight hundred million visitors have flocked to the park since then In Disney's Land Snow brings a historian's eye and a child's delight not to mention superb writing to the telling of this fascinating narrative Ken Burns that will entertain Disneyphiles and readers of popular American history Publishers Weekly [Making Leisure Work](#) Brian Lonsway, 2013-09-13 Contemporary architecture of theme based design is examined in this book leading to a new understanding of architecture's role in the increasingly diversified consumer environment It explores the Experience Economy to reveal how everyday environments strategically and opportunistically blur our leisure work and personal life experiences Considering scientific design research consumer psychology and Hollywood story telling techniques the book looks at how the design of theme parks casinos and shopping malls has influenced our more unexpectedly themed spaces from the city to the hospital Widely taking architecture as a social practice this text is of relevance to all cultural and sociological studies in the built and material environment
