Architecture and Authority in Japan William H. Coaldrake, 2002-03-11 First published in 1996 Architecture is one of the most inspired manifestations of Japanese civilization a pillar of both traditional society and the modern state The rugged walls of Himeji Castle the pristine perfection of the Ise Shrine and the soaring skyscrapers of modern Tokyo are all examples of consummate artistic inspiration harnessed to building technology in the service of religion or the state These buildings offer a unique opportunity to identify the ideas and institutions of authority both religious and secular embodied in built form William Coaldrake argues that there is a symbiotic relationship between architecture and authority throughout Japanese history Examination of Nara and Heian palaces Kamakura temples and Momoyama castles reveals the changing countenance of aristocratic and warrior power The study also shows how some buildings helped to mould power relations by creating a physical presence to intimidate and subordinate those under imperial and shogunal rule such as the Palace of Nijo Castle More recently Western architectural styles have been used to restructure the way Japan presents itself to the outside world Relating buildings to the political ambitions and religious beliefs of the age this book makes a significant contribution to Japanese studies By examining architecture as an expression of authority William Coaldrake highlights many defining moments in Japanese history opening up new avenues for study on both traditional and contemporary Japan **Autocar** ,2004 **Motor Cycling and Motoring** ,1985 *Archetypes in Japanese Film* Gregory Barrett, 1989 This study examines the significance of the archetypal heroes and heroines of Japanese cinema and traces both their prior development in literature drama and folklore and their subsequent variations in popular culture *Books in Print* ,1977 **Civilization and Empire** Shogo Suzuki, 2009-02-02 This book critically examines the influence of International Society on East Asia and how its attempts to introduce civilization to barbarous polities contributed to conflict between China and Japan Challenging existing works that have presented the expansion of European International Society as a progressive linear process this book contends that imperialism along with an ideology premised on civilising barbarous peoples played a central role in its historic development Considering how these elements of International Society affected China and Japan's entry into it Shogo Suzuki

contends that such states envisaged a Janus faced International Society which simultaneously aimed for cooperative relations among its civilized members and for the introduction of civilization towards non European polities often by coercive means By examining the complex process by which China and Japan engaged with this dualism this book highlights a darker side of China and Japan s socialization into International Society which previous studies have failed to acknowledge Drawing on Chinese and Japanese primary sources seldom utilized in International Relations this book makes a compelling case for revising our understandings of International Society and its expansion This book will be of strong interest to students and researcher of international relations international history European studies and Asian Studies Popular Mechanics ,1988-08 Popular Mechanics inspires instructs and influences readers to help them master the modern world Whether it s practical DIY home improvement tips gadgets and digital technology information on the newest cars or the latest breakthroughs in science PM is the ultimate guide to our high tech lifestyle *Themes in the History of Japanese Garden Art* Wybe Kuitert,2002-01-01 Revised and updated Themes in the History of Japanese Garden Art presents new interpretations of the evolution of Japanese garden art Its depth and much needed emphasis on a practical context for garden creation will appeal to art and literary historians as well as scholars students and appreciators of garden and landscape art Asian and Western BOOK JACKET Autocar & Motor ,1994 **Japan English Publications in Print** ,1993 **The Autocar** ,1984 **The National Union Catalog** Library of Congress,1953 Constitutes the quinquennial cumulation of the National union catalog Motion pictures and filmstrips **National Union Catalog** ,1953 **Films and Other Materials for Projection** Library of Congress,1953 **The Publishers' Trade List Annual** ,1985
