The American West A Very Short Introduction Very Short Introductions:

The American West: A Very Short Introduction Stephen Aron, 2014-12-09 Part geographical location part time period and part state of mind the American West is a concept often invoked but rarely defined Though popular culture has carved out a short and specific time and place for the region author and longtime Californian Stephen Aron tracks the West from the building of the Cahokia Mounds around 900 AD to the post World War II migration to California His Very Short Introduction stretches the chronology enlarges the geography and varies the casting providing a history of the American West that is longer larger and more complicated than popular culture has previously suggested It is a history of how portions of North America became Wests how parts of these became American and how ultimately American Wests became the American West Aron begins by describing the expansion of Indian North America in the centuries before and during its early encounters with Europeans He then explores the origins of American westward expansion from the Seven Years War to the 1830s focusing on the western frontier at the time the territory between the Appalachian Mountains and the Mississippi River He traces the narrative temporally and geographically through the discovery of gold in California in the mid nineteenth century and the subsequent rush to the Pacific Slope He shows how the passage of the Newlands Reclamation Act in 1902 brought an unprecedented level of federal control to the region linking the West more closely to the rest of the United States and how World War II brought a new rush of population particularly to California further raising the federal government's profile in the region and heightening the connections between the West and the wider world Authoritative lucid and ranging widely over issues of environment people and identity this is the American West stripped of its myths The complex convergence of peoples politics and cultures that has decisively shaped the history of the American West serves as the key interpretive thread through this Very Short Introduction ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

The Vikings: A Very Short Introduction Julian D. Richards, 2005-09-08 The Viking reputation is of bloodthirsty seafaring warriors repeatedly plundering the British Isles and the North Atlantic throughout the early Middle Ages Yet Vikings were also traders settlers and farmers with a complex artistic and linguistic culture whose expansion overseas led them to cross the Atlantic for the first time in European history Highlighting the latest archaeological evidence Julian Richards reveals the whole Viking world their history society and culture and their expansion overseas for trade colonization and plunder We also look at the Viking identity through their artistic expression rune stones their ships and their religion The Viking story is also brought up to date by examining their legacy from the medieval Icelandic sagas to 19th Century nationalism Wagner and the Nazis ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get

ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Shakespeare's Comedies: A Very Short Introduction Bart van Es, 2016-03-24 From *The Two Gentlemen of Verona* in the early 1590s to *The Two Noble Kinsmen* at the end of his career around 1614 Shakespeare wrote at least eighteen plays that can be called comedies a far higher number than that for any other genre in which he wrote So what is a Shakespearean comedy We associate these plays with such themes as mistaken identities happy marriages and exuberant cross dressing but how representative are these of the oeuvre as a whole In this *Very Short Introduction* Bart van Es explores the full range of the playwright's comic writing from the neat classical plotting of early works like *The Comedy of Errors* to the corrupt world of the so called problem plays written in the middle years of Shakespeare's life Examining Shakespeare's influences and sources van Es compares his plays to those of his rivals and looks at the history of the plays in performance from the biographies of Shakespeare's original actors to the plays' endless reinvention in modern stage productions and in films Identifying the key qualities that make Shakespearean comedy distinctive van Es traces the changing nature of Shakespeare's comic writing over the course of a career that spanned nearly a quarter century of theatrical change

ABOUT THE SERIES The *Very Short Introductions* series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Planets: A Very Short Introduction David A. Rothenberg, 2010-11-25 This *Very Short Introduction* discusses the nature of planets and gas giants and their rings and moons It also looks beyond Pluto in the Kuiper Belt at the knowledge we have about planets around other stars With many striking photos to illustrate the details it demonstrates the unique world of every planet

Modern China: A Very Short Introduction Rana Mitter, 2016-02-25 China today is never out of the news from international finance to human rights controversies global coverage of its rising international presence and the Chinese economic miracle It seems to be a country of contradictions a peasant society with some of the world's most futuristic cities heir to an ancient civilization that is still trying to find a modern identity This *Very Short Introduction* offers the reader an entry to understanding the world's most populous nation giving an integrated picture of modern Chinese society culture economy politics and art In this new edition Rana Mitter addresses China's current global position accounting for the country's growth in global significance over the past decade

ABOUT THE SERIES The *Very Short Introductions* series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Ancient Greece: A Very Short Introduction Paul Cartledge, 2011-10-27 A highly stimulating *Very Short Introduction* to the history of Ancient Greek civilization from the first documented use of the Greek language in about 1400 BCE through the glories of the Classical and

Hellenistic periods to the foundation of the Byzantine empire in about CE 330 **International Law: A Very Short Introduction** Vaughan Lowe, 2015-11-26 Interest in international law has increased greatly over the past decade largely because of its central place in discussions such as the Iraq War and Guantanamo the World Trade Organisation the anti capitalist movement the Kyoto Convention on climate change and the apparent failure of the international system to deal with the situations in Palestine and Darfur and the plights of refugees and illegal immigrants around the world This Very Short Introduction explains what international law is what its role in international society is and how it operates Vaughan Lowe examines what international law can and cannot do and what it is and what it isn't doing to make the world a better place Focussing on the problems the world faces Lowe uses terrorism environmental change poverty and international violence to demonstrate the theories and practice of international law and how the principles can be used for international co operation **American Naval History: A Very Short Introduction** Craig L. Symonds, 2018-02-12 This fast paced narrative charts the history of the US Navy from its birth during the American Revolution through to its current superpower status The story highlights iconic moments of great drama pivotal to the nation's fortunes John Paul Jones attacks on the British during the Revolution the Barbary Wars and the arduous conquest of Iwo Jima American Naval History A Very Short Introduction illuminates the changes technological institutional and functional of the U S Navy from its days as a small frigate navy through the age of steam and steel to the modern era of electronics and missiles Renowned naval historian Craig L Symonds captures the evolving culture of the navy and debates between policymakers about what role the institution should play in world affairs Internal and external challenges dramatically altered the size and character of the navy with long periods of quiet inertia alternating with periods of crisis that spurred rapid expansion The history of the navy reflects the history of the nation as a whole and its many changes derive in large part from the changing role of the United States itself ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Intellectual Property: A Very Short Introduction Siva Vaidhyanathan, 2017-02-09 We all create intellectual property We all use intellectual property Intellectual property is the most pervasive yet least understood way we regulate expression Despite its importance to so many aspects of the global economy and daily life intellectual property policy remains a confusing and arcane subject This engaging book clarifies both the basic terms and the major conflicts surrounding these fascinating areas of law offering a layman's introduction to copyright patents trademarks and other forms of knowledge falling under the purview of intellectual property rights Using vivid examples noted media expert Siva Vaidhyanathan illustrates the powers and limits of intellectual property distilling with grace and wit the complex tangle of laws policies and values governing the dissemination of ideas expressions inventions creativity and data collection in the modern world

Vaidhyathan explains that intellectual property exists as it does because powerful interests want it to exist. The strongest economies in the world have a keen interest in embedding rigid methods of control and enforcement over emerging economies to preserve the huge economic interests linked to their copyright industries: film, music, software, and publishing. For this reason, the fight over the global standardization of intellectual property has become one of the most important sites of tension in North-South global relations. Through compelling case studies including those of Starbucks, Coca-Cola, Sony, Amazon, and Google Books, Vaidhyathan shows that the modern intellectual property systems reflect three centuries of changes in politics, economics, technologies, and social values. Although it emerged from a desire to foster creativity while simultaneously protecting it, intellectual property today has fundamentally shifted to a political dimension.

American Cultural History: A Very Short Introduction Eric Avila, 2018-07-17. The iconic images of Uncle Sam and Marilyn Monroe or the fireside chats of Franklin D. Roosevelt and the oratory of Martin Luther King Jr. these are the words, images, and sounds that populate American cultural history. From the Boston Tea Party to the Dodgers, from the blues to Andy Warhol, dime novels to Disneyland, the history of American culture tells us how previous generations of Americans have imagined themselves, their nation, and their relationship to the world and its peoples. This Very Short Introduction recounts the history of American culture and its creation by diverse social and ethnic groups. In doing so, it emphasizes the historic role of culture in relation to broader social, political, and economic developments. Across the lines of race, class, gender, and sexuality, as well as language, region, and religion, diverse Americans have forged a national culture with a global reach, inventing stories that have shaped a national identity and an American way of life.

ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

The U.S. Constitution: A Very Short Introduction David J. Bodenhamer, 2018-03-15. Though the U.S. Constitution was ratified in 1788, its impact on our lives is as recent as today's news. Claims and counterclaims about the constitutionality of governmental actions are a habit of American politics. This document, which its framers designed to limit power, often has made political conflict inevitable. It also has accommodated and legitimized the political and social changes of a vibrant, powerful democratic nation. A product of history's first modern revolution, the Constitution embraced a new formula for government: it restrained power on behalf of liberty, but it also granted power to promote and protect liberty. The U.S. Constitution: A Very Short Introduction explores the major themes that have shaped American constitutional history: federalism, the balance of powers, property, representation, equality, rights, and security. Informed by the latest scholarship, this book places constitutional history within the context of American political and social history. As our nation's circumstances have changed, so has our Constitution. Today we face serious challenges to the nation's constitutional legacy: endless wars, a sharply divided electorate, economic inequality, and immigration, along with a

host of other issues have placed demands on government and on society that test our constitutional values Understanding how the Constitution has evolved will help us adapt its principles to the challenges of our age

ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

The Atmosphere: A Very Short Introduction Paul I. Palmer, 2017-03-16 The atmosphere is the thin diffuse fluid that envelops the Earth's surface Despite its apparent fragility the existence of this fluid is vital for human and other life on Earth In this Very Short Introduction Paul Palmer describes the physical and chemical characteristics of different layers in the atmosphere and shows how the interactions where the atmosphere is in contact with land ocean and ice affect its observed physical and chemical properties He also looks at how movement in the atmosphere driven by heat from the sun transports heat from lower latitudes to higher latitudes and is a fundamental feature of the general circulation in the atmosphere Finally Palmer presents an overview of the types of measurements used to understand different parts of the atmosphere and identifies the future challenges for atmospheric scientists

The American Revolution: A Very Short Introduction Robert J. Allison, 2015-07-03 Here is a brisk accessible and vivid introduction to arguably the most important event in the history of the United States the American Revolution Between 1760 and 1800 the American people cast off British rule to create a new nation and a radically new form of government based on the idea that people have the right to govern themselves In this lively account Robert Allison provides a cohesive synthesis of the military diplomatic political social and intellectual aspects of the Revolution paying special attention to the Revolution's causes and consequences The book recreates the tumultuous events of the 1760s and 1770s that led to revolution such as the Boston Massacre and the Boston Tea Party as well as the role the Sons of Liberty played in turning resistance into full scale revolt Allison explains how and why Americans changed their ideas of government and society so profoundly in these years and how the War for Independence was fought and won He highlights the major battles and commanders on both sides with a particular focus on George Washington and the extraordinary strategies he developed to defeat Britain's superior forces as well as the impact of French military support on the American cause In the final chapter Allison explores the aftermath of the American Revolution how the newly independent states created governments based on the principles for which they had fought and how those principles challenged their own institutions such as slavery in the new republic He considers as well the Revolution's legacy the many ways its essential ideals influenced other struggles against oppressive power or colonial systems in France Latin America and Asia Sharply written and highly

readable The American Revolution A Very Short Introduction offers a concise introduction to this seminal event in American history About the Series Oxford's Very Short Introductions series offers concise and original introductions to a wide range of subjects from Islam to Sociology Politics to Classics Literary Theory to History and Archaeology to the Bible Not simply a textbook of definitions each volume in this series provides trenchant and provocative yet always balanced and complete discussions of the central issues in a given discipline or field Every Very Short Introduction gives a readable evolution of the subject in question demonstrating how the subject has developed and how it has influenced society Eventually the series will encompass every major academic discipline offering all students an accessible and abundant reference library Whatever the area of study that one deems important or appealing whatever the topic that fascinates the general reader the Very Short Introductions series has a handy and affordable guide that will likely prove indispensable

The French Revolution: A Very Short Introduction William Doyle, 2019-12-05 The French Revolution is a time of history made familiar from Dickens Baroness Orczy and Tolstoy as well as the legends of let them eat cake and tricolours Beginning in 1789 this period of extreme political and social unrest saw the end of the French monarchy the death of an extraordinary number of people beneath the guillotine's blade during the Terror and the rise of Napoleon as well as far reaching consequences still with us today such as the enduring ideology of human rights and decimalization In this Very Short Introduction William Doyle introduces the French old regime and considers how and why it collapsed Retelling the unfolding events of the revolution he analyses why the revolutionaries quarrelled with the king the church and the rest of Europe why this produced Terror and finally how it accomplished rule by a general Doyle also discusses how and why the revolution destroyed the age old cultural institutional and social structures in France and beyond In this new edition Doyle includes new sections highlighting the main developments in the field since the first edition before exploring the legacy of the revolution in the form of rationality in public affairs and responsible government

ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Philosophy of Biology: A Very Short Introduction Samir Okasha, 2019-11-28 Over the last forty years the philosophy of biology has emerged as an important sub discipline of the philosophy of science Covering some of science's most divisive topics such as philosophical issues in genetics it also encompasses areas where modern biology has increasingly impinged on traditional philosophical questions such as free will essentialism and nature vs nurture In this Very Short Introduction Samir Okasha outlines the core issues with which contemporary philosophy of biology is engaged Offering a whistle stop tour of the history of biology he explores key ideas and paradigm shifts throughout the centuries including areas such as the theory of evolution by natural selection the concepts of function and design biological individuality and the debate over adaptationism Throughout Okasha makes clear the relevance of biology for understanding

human beings human society and our place in the natural world and the importance of engaging with these issues ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Rocks: A Very Short Introduction Jan Zalasiewicz, 2016-12-01 Rocks more than anything else underpin our lives They make up the solid structure of the Earth and of other rocky planets and are present at the cores of gas giant planets We live on the rocky surface of the planet grow our food on weathered debris derived from rocks and we obtain nearly all of the raw materials with which we found our civilization from rocks From the Earth's crust to building bricks rocks contain our sense of planetary history and are a guide to our future In this Very Short Introduction Jan Zalsiewicz looks at the nature and variety of rocks and the processes by which they are formed Starting from the origin of rocks and their key role in the formation of the Earth he considers what we know about the deep rocks of the mantle and core and what rocks can tell us about the evolution of the Earth and looks at those found in outer space and on other planets ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Telescopes: A Very Short Introduction Geoff Cottrell, 2016-12-01 From the first telescopes have made dramatic revelations about the Universe and our place in it Galileo's observations of the Moon's cratered surface and discovery of Jupiter's four big satellites profoundly altered the perception of the heavens overturning a two thousand year cosmology that held the Earth to be the centre of the Universe Over the past century the rapid development of computer technology and sophisticated materials allowed enormous strides in the construction of telescopes Modern telescopes range from large Earth based optical telescopes and radio arrays linking up across continents to space based telescopes capturing the Universe in infrared ultraviolet X rays and gamma rays In combination they have enabled us to look deep into the Universe and far back in time capturing phenomena from galactic collisions to the formation of stars and planetary systems and mapping the faint glow remaining from the Big Bang In this Very Short Introduction Dr Geoff Cottrell describes the basic physics of telescopes the challenges of overcoming turbulence and distortion from the Earth's atmosphere and the special techniques used to capture X rays and gamma rays in space telescopes He explains the crucial developments in detectors and spectrographs that have enabled the high resolution achieved by modern telescopes and the hopes for the new generation of telescopes currently being built across the world ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Freemasonry: A Very Short Introduction Andreas Önnarfors, 2017-08-17 Freemasonry is one of the oldest and most widespread voluntary organisations in the world Over the course of three centuries men and women have organized themselves socially and voluntarily under its name With a strong sense of liberation moral enlightenment cosmopolitan openness and forward looking philanthropy freemasonry has attracted some of the sharpest minds in history and has created a strong platform for nascent civil societies across the globe With the secrecy of internally communicated knowledge the clandestine character of organization and the enactment of rituals and the elaborate use of symbols freemasonry has also opened up feelings of distrust as well as allegations of secretiveness and conspiracy This Very Short Introduction introduces the inner activities of freemasonry and the rituals symbols and practices Looking at the development of the organizational structure of masonry from the local to the global level Andreas Önnarfors considers perceptions of freemasonry from the outside world and navigates through the prevalent fictions and conspiracy theories He also discusses how freemasonry has from its outset struggled with issues of exclusion based upon gender race and religion despite promoting tolerant openness and inclusion Finally Önnarfors shines a light on the rarely discussed but highly compelling history of female agency in masonic and para masonic orders ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Navigation: A Very Short Introduction Jim Bennett, 2017-02-10 From the Bronze Age mariners of the Mediterranean to contemporary sailors using satellite based technologies the history of navigation at sea the art of finding a position and setting a course is fascinating The scientific and technological developments that have enabled accurate measurements of position were central to exploration trade and the opening up of new continents and the resulting journeys taken under their influence have had a profound influence on world history In this Very Short Introduction Jim Bennett looks at the history of navigation starting with the distinctive cultures of navigation that are defined geographically the Mediterranean Sea and the Pacific Indian and Atlantic Oceans He shows how the adoption of mathematical methods the use of instruments the writing of textbooks and the publication of charts all combined to create a more standardised practice Methods such as longitude finding by chronometer and lunar distance were complemented by the routine business of recording courses and reckoning position by account Bennett also introduces the incredible array of instruments relied on by sailors from astrolabes sextants and chronometers to our more modern radio receivers electronic equipment and charts and highlights the crucial role played by the individual qualities of endeavour and resourcefulness from mathematicians scientists and seamen in finding their way at sea The story of navigation combines the societal the technical and the human and it was vital for shaping the modern world ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the

perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable *Postcolonialism: A Very Short Introduction* Robert J. C. Young, 2020-10-22 Postcolonialism explores the political social and cultural effects of decolonization continuing the anti colonial deconstruction of western dominance This Very Short Introduction discusses both the history and key debates of postcolonialism and considers its importance as a means of changing the way we think about the world Robert J C Young examines the key strategies that postcolonial thought has developed to engage with the impact of sometimes centuries of western political and cultural domination Situating the discussion in a wide cultural and geographical context he draws on examples such as the status of indigenous peoples of those dispossessed from their land Algerian rai music and global social and ecological movements In this new edition he also includes updated material on race slavery and postcolonial gender politics Above all Young argues that postcolonialism offers a political philosophy of activism that contests the current situation of global inequality which in a new way continues the anti colonial struggles of the past and enables us to decolonize our own lives in the present ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

As recognized, adventure as without difficulty as experience virtually lesson, amusement, as competently as settlement can be gotten by just checking out a book **The American West A Very Short Introduction Very Short Introductions** as a consequence it is not directly done, you could agree to even more on the subject of this life, approximately the world.

We pay for you this proper as capably as simple showing off to acquire those all. We meet the expense of The American West A Very Short Introduction Very Short Introductions and numerous ebook collections from fictions to scientific research in any way. in the midst of them is this The American West A Very Short Introduction Very Short Introductions that can be your partner.
