the decades following the American Civil War and leading up to the First World War a definitive shift in power took place between Spain and the United States This original book explores American artists' perceptions of Spain during this period of turmoil and demonstrates how their responses to Spanish art helped to answer emerging complex questions about American national identity M Elizabeth Boone focuses on works by Thomas Eakins Mary Cassatt William Merritt Chase John Singer Sargent Robert Henri and other American artists who traveled to Spain to study the achievements of such great masters as Murillo Velázquez and Goya The resulting American paintings some well known and others now largely forgotten provide intriguing insights not only into the 19th century American struggle to define itself as an imperial power but also into the relations between the United States and the Spanish speaking world today **Ancient Synagogue Seating Capacities**

Chad S. Spigel, 2012 Revised and expanded thesis Ph D Duke University Durham NC 2008 Rereading the Mishnah Judith Hauptman, 2005 Judith Hauptman argues that the Tosefta a collection dating from approximately the same time period as the Mishnah and authored by the same rabbis is not later than the Mishnah as its name suggests but earlier The Redactor of the Mishnah drew upon an old Mishnah and its associated supplement the Tosefta when composing his work He reshaped reorganized and abbreviated these materials in order to make them accord with his own legislative outlook It is possible to compare the earlier and the later texts and to determine case by case the agenda of the Redactor According to the author's theory it is also possible to trace the evolution of Jewish law practice and ideas When the Mishnah is seen as later than the Tosefta it becomes clear that the Redactor inserted numerous mnemonic devices into his work to assist in transmission The synoptic gospels may have undergone a similar kind of editing **The Practice of Adaptive Leadership** Ronald A.

Meaning of Gay Todd J. Ormsbee,2012-07-10 Homosexual men in San Francisco had started the 1960s interacting mostly in private informal groups meeting in bars and house parties But by 1972 the city had a gay community and gay pride all celebrated with a parade Through numerous organizations and publications gay men created a counter publicity to fight against their domination and subordination and had begun to try to build a community that would foster deeper more meaningful relationships with each other The emergent counter publicity and community in turn created the social spaces necessary for gay men to create an expanding range of possible meanings for their gayness meanings that aligned more closely with their experiences and which better helped them meet their needs and desires The gayness they created could expand and contract depending on the needs and circumstances of the individual or group Rather than the typical story of the evolution from conservative to radical social movement The Meaning of Gay sees the development of gay politics as the shift from the need to establish a public facing gayness in the early 1960s to the community building efforts that began in the mid 1960s through the efforts to create a gayness based in authenticity brotherhood and revolution in the early 1970s Each of these developments flowed from gay men s responses to the swiftly changing San Francisco and American environment The dramatic explosion of possibilities for gayness that emerged during the 1960s may serve as a touchstone for those concerned with the problems of gay male life in the twenty first century This book traces these developments as they was recorded in the gay periodicals of the era and analyzes them from the perspective of John Dewey s theory of mind desire public valuation and democratic community Festival Culture in the World of the Spanish Habsburgs Fernando Checa Cremades,Laura Fernández-González,2016-03-03

In recent years there has been an increasing interest in Early Modern Festivals These spectacles articulated the self image of ruling elites and played out the tensions of the diverse social strata Responding to the growing academic interest in festivals this volume focuses on the early modern Iberian world in particular the spectacles staged by and for the Spanish Habsburgs The study of early modern Iberian festival culture in Europe and the wider world is surprisingly limited compared to the published works devoted to other kingdoms at the time There is a clear need for scholarly publications to examine festivals as a vehicle for the presence of Spanish culture beyond territorial boundaries The present books responds to this shortcoming Festivals and ceremonials played a major role in the Spanish world through them local identities as well as a common Spanish culture made their presence manifest within and beyond the peninsula through ephemeral displays music and print Local communities often conflated their symbols of identity with

religious images and representations of the Spanish monarchy The festivals fiestas in Spanish materialized the presence of the Spanish diaspora in other European realms Royal funerals and proclamations served to establish kingly presence in distant and not so distant lands The socio political religious and cultural nuances that were an intrinsic part of the territories of the empire were magnified and celebrated in the Spanish festivals in Europe Iberia and overseas vicerealties Following a foreword and an introduction the remaining 12 chapters are divided up into four sections The first explores Habsburg Visual culture at court and its relationship with the creation of a language of triumph and the use of tapestries in festivals The second part examines triumphal entries in Madrid Lisbon Cremona Milan Pavia and the New World the third deals with the relationship between religion and the empire through the examination of royal funerals hagiography and calendric celebrations The fourth part of the book explores cultural artistic and musical exchange in Naples and Rome Taken together these essays contribute further to our growing appreciation of the importance of early modern festival culture in general and their significance in the world of the Spanish Habsburgs in particular

Hong Kong Public Housing Miles

Glendinning,2024-11-28 Hong Kong Public Housing provides the first comprehensive history of one of the most dramatic episodes in the global history of the modern built environment the vast public housing programme sponsored by successive Hong Kong governments from the 1950s in a quest to build up the territory into a lasting people s home And unlike many of its counterparts elsewhere this is a programme still ongoing today a case of history in progress as Hong Kong now boasts one of the world s longest lasting public housing programmes During that time it has been not just a mirror of the cultural and economic values of Hong Kong society but also a reflection of more nebulous fast changing perceptions of identity and a testament to the community building achievements of Hongkongers over these years This authoritative study combines architectural history with the broader social political and cultural aspects of housing production particularly the geo political issues of sovereignty and decolonisation that uniquely and fundamentally structured the trajectory of Hong Kong public housing and territory development Exploring the relationship between built form ideology and administrative governance it shows how massive state intervention interacted at times uneasily with Hong Kong s dominant laissez faire ethos to help maintain the legitimacy of successive administrations during an era of auto decolonisation and support an interstitial society

suspended between two sovereignties Following more recent political changes Hong Kong s public housing heritage has also become a focus of nostalgic community pride a monumental achievement of home building which this book documents and celebrates for posterity Overhearing Film Dialogue Sarah Kozloff,2000-03-30 Since the birth of cinema film has been lauded as a visual rather than a verbal medium this sentiment was epitomized by John Ford s assertion in 1964 that When a motion picture is at its best it is long on action and short on dialogue Little serious work has been done on the subject of film dialogue yet what characters say and how they say it has been crucial to our experience and understanding of every film since the coming of sound Through informative discussions of dozens of classic and contemporary films from Bringing Up Baby to Terms of Endearment from Stagecoach to Reservoir Dogs this lively book provides the first full length study of the use of dialogue in American film Sarah Kozloff shows why dialogue has been neglected in the analysis of narrative film and uncovers the essential contributions dialogue makes to a film s development and impact She uses narrative theory and drama theory to analyze the functions that dialogue typically serves in a film The second part of the book is a comprehensive discussion of the role and nature of dialogue in four film genres westerns screwball comedies gangster films and melodramas Focusing on topics such as class and ethnic dialects censorship and the effect of dramatic irony Kozloff provides an illuminating new perspective on film genres General Linguistics Edward Sapir,Pierre Swiggers,2008 The works of Edward Sapir 1884 1939 continue to provide inspiration to all interested in the study of human language Since most of his published works are relatively inaccessible and valuable unpublished material has been found the preparation of a complete edition of all his published and unpublished works was long overdue The wide range of Sapir s scholarship as well as the amount of work necessary to put the unpublished manuscripts into publishable form pose unique challenges for the editors Many scholars from a variety of fields as well as American Indian language specialists are providing significant assistance in the making of this multi volume series Variations of a Building Brett Mommersteeg,2023-11-17 Variations of a Building tells the story of the making of a building Based on a multi sited ethnography of the building project for Aviva Studios formerly Factory in Manchester U K a theatre cultural space designed by the architectural firm OMA it explores the challenges of sharing in the act of creation by following the everyday practices of designers Beyond the world of the architects this book foregrounds a variety of other practices and realities at stake in the building and offers a rare account of a building project from the point of view of the broader design and project team More than the making of a building it argues that it is also an experiment with and reshaping of a common world showing what design practices and building projects can teach us about sharing in acts of creation and knowing This book will be of interest to researchers and students of architecture design urban studies Actor Network Theory and Science and Technology Studies *The Advocate* ,2001-02-13 The Advocate is a lesbian gay bisexual transgender LGBT monthly newsmagazine Established in 1967 it is the oldest continuing LGBT publication in the United States *The Lust of Seeing* Frank Graziano,1997 The Lust of Seeing is the most

comprehensive work on Hernandez to date elucidating aspects of Hernandez's life and writing that have remained untreated or undertreated by previous criticism. The book's theoretical and comparative discussions also make *The Lust of Seeing* relevant reading well beyond Hernandez studies particularly for readers interested in psychoanalysis, myth and ritual, fantastic literature, women's studies, film studies and textual theory.
