Comparative Perspective Georgia A. Persons, 2018-04-24 Contradictory forces are at play at the close of the twentieth century There is a growing closeness of peoples fueled by old and new technologies of modern aviation digital based communications new patterns of trade and commerce and growing affluence of significant portions of the world s population Television permits individuals around the world to learn about the cultures and lifestyles of peoples of physically distant lands These developments give real meaning to the notion of a global village Peoples of the world are growing closer in new

and increasingly important ways Nonetheless there are disturbing signs of a growing awareness of ethnic differences in all parts of the world the United States included and a concomitant rise in ethnic based conflicts many of them extraordinarily violent in nature Fear resentment intolerance and mistreatment of the other abound in world news accounts Not only does this phenomenon pose an interesting juxtaposition to the concept of the emergent global village but its emergence in the post cold war era internationally and the post civil rights era in the United States raises significant and compelling questions Why are such conflicts occurring now How do analysts explain these developments The essays in Race and Ethnicity in Comparative Perspective lucidly explore some of the complexities of the persistence and re emergence of race and ethnicity as major lines of divisiveness around the world Contributors analyze manifestations of race based movements for political empowerment in Europe and Latin America as well as racial intolerance in these same settings Attention is also given to the conceptual complexities of multidimensional and shared cultural roots of the overlapping phenomena of ethnicity nationalism identity and ideology The book greatly informs discussions of race and ethnicity in the international context and provides an interesting perspective against which to view America's changing problem of race Race and Ethnicity in Comparative Perspective is a timely thought provoking volume that will be of immense value to ethnic studies specialists African American studies scholars political scientists historians and sociologists

**Critical Pluralism, Democratic Performance, and Community Power** Paul Schumaker, 2021-10-08 A central question in political science is who governs and how Typically political scientists attempt to answer this question by relying upon either empirical analysis which explains existing political practices or normative analysis which prescribes ideal political practices Political scientist Paul Schumaker rejects this distinction between empirical and normative theory Instead he wedges the two approaches to create the new analytical mode he calls critical pluralism With it he can measure variances in government from pluralist democratic ideals and still provide theoretical explanations of why the variances occurred Schumaker uses critical pluralism to describe explain and evaluate variations in three key measures of democratic performance responsible representation complex equality and principle policy congruence To test his framework and methodology he analyzes 29 community issues that arose in Lawrence Kansas between 1977 and 1987 The results of his study one of the most comprehensive databases ever in the study of community politics will be of interest to those who study community power The conceptual framework itself and methodology used in assessing democratic performance will have a lasting impact on the way community government is studied
