Brilliant Activities for Reading Comprehension Year 6 Charlotte Makhoul,2015-12-07 The importance of being able to read for meaning should never be underestimated The ability to decode text is not enough It is vital that children understand what they are reading More importantly it is fundamental that they enjoy what they are reading so that they grow up to become lifelong readers The passages in the Brilliant Activities for Reading Comprehension series are designed to do just that They provide children with a variety of engaging enjoyable texts that will grab their attention and

indeed their teacher's attention as well. The types of comprehension passages range from newspaper articles and dialogues to plays, stories, and poems. They gradually increase in difficulty as you progress through the book and through the series encouraging children to develop their ability to read for meaning and use a range of strategies to engage with the text. The passages are ideal for guided reading. Tasks range from simple factual recall and vocabulary work to more open-ended questions enabling the reader to provide a more personal response. The cross-curricular activities provide a wealth of ideas for extending the passages further and are ideal for fast finishers.

**Reading Interventions for the Improvement of the Reading Performances of Bilingual and Bi-Dialectal Children** Dr. Afra Johnson, 2015-10-29. The book explores the remedial pedagogy applied during intervention designed to improve the students' metacognitive processes of learning new English language knowledge. Today's globalization and technology on social behaviors demand that school-age students acquire reading skills by the use of audio-visual practices. The linguistic integrations during the intervention processes combined with direct instruction produced an individualized awareness of improvements in comprehension. Each student cognitively processed the audio input and visual text. My findings were related to the cultural practices of ESOL and ELL students to counteract the mismatch between home and school language frameworks. This type of technique encourages students to use the concepts of the English language related to what they hear, read, and speak within and outside of the school environment.
