the sake of safety As schools emptied remote learning rapidly expanded through online services and video chatrooms

for K 12 virtual learning The initial section provides foundational pedagogical ideas for constructing engaging virtual  
learning environments that leverage the unique strengths and opportunities while avoiding the weaknesses and threats of the  
online world The following chapters present instructional strategies for multiple grade levels and content areas best  
practices that work clearly describing why they work and the teachers pedagogical reasoning that supports online  
implementations The chapters provide ways to think about teaching in virtual environments that can be used to guide  
instructional strategy choices and recognizes the fundamental differences between face to face and virtual environments as  
an essential design component Covering such topics as K 12 classrooms pedagogical reasoning and virtual learning this text
