is to document some important ways schools influence children's development and to describe various models and methods for studying schooling effects. Key features include Comprehensive Coverage: this is the first book to provide a comprehensive review of what is known about schools as a context for human development. Topical coverage ranges from theoretical foundations to investigative methodologies and from classroom level influences such as teacher-student relations to broader influences such as school organization and educational policies. Cross-Disciplinary: this volume brings together the divergent perspectives, methods, and findings of scholars from a variety of disciplines, among them educational psychology, developmental psychology, school psychology, social psychology, psychiatry, sociology, and educational policy. Chapter Structure: to ensure continuity, chapter authors describe 1) how schooling influences are conceptualized, 2) identify their theoretical and methodological approaches, 3) discuss the strengths and weaknesses of existing research, and 4) highlight implications for future research, practice, and policy. Methodologies: chapters included in the text feature various methodologies, including longitudinal studies, hierarchical linear models, experimental and quasi-experimental designs, and mixed methods.

Rethinking Readiness Rafael Heller, Rebecca E. Wolfe, Adria Steinberg, 2021-02-17. *Rethinking Readiness* offers a new set of competencies to replace the narrow learning goals of No Child Left Behind and in chapters written by some of the nation's most well-respected education scholars explores their implications for schools. Today's students must cultivate the full range of intellectual, interpersonal, and intrapersonal capacities that have been grouped together under the banner of deeper learning. *Rethinking Readiness* focuses on how educators and policy makers should move forward to provide the educational experiences that students need to become truly well-prepared for college, careers, and civic life, including changes in curriculum, teacher evaluation, and student assessment. As state leaders chart a new course for K-12 education in the Every Student Succeeds Act era, *Rethinking Readiness* offers a succinct and compelling vision for a new agenda for school reform so future generations can prosper in a rapidly changing world.

Unpacking the Competency-Based Classroom Jonathan G. Vander Els, Brian M. Stack, 2022-04-11. When implemented effectively, competency-based education (CBE) promotes high levels of learning for every student. Further, the practices and structures of a professional learning community (PLC) support this work. Explore a variety of perspectives and examples from educators who have shifted to CBE with great results. The book details how to do the work by reevaluating and revamping traditional policies, structures, and procedures, including assessment and instruction practices. Individualized learning: educators will discover how to make the transition to competency-based education to promote learning for all students. Learn the role PLC practices and structures play in establishing competency-based classrooms and schools. Study real-world experiences and insights from educators from various schools and districts that have transitioned to competency-based systems. Reflect with end-of-chapter questions to enhance their understanding of the material. Receive reproducible templates they can easily use and adapt to fit their needs.
