The emphasis is on the affective dimensions of literature geared toward children's aesthetic responses to the stories and poems that they read. Author profiles, a multicultural focus, topical book lists, and a chapter on technology are elements that help students. Each chapter has an essay written by a scholar, a classroom teacher, or other expert, e.g., a middle school student or book editor who has special knowledge, a particular perspective, or point of view on the chapter topic. Three-four color inserts illustrate the children's books discussed in the text.

Differentiation in the Elementary Grades Kristina J. Doubet, Jessica A. Hockett, 2017-10-16. In this comprehensive resource for elementary school teachers, Kristina J. Doubet and Jessica A. Hockett explore how to use differentiated instruction to help students be more successful learners regardless of background, native language, learning preference, or motivation. They explain how to create a healthy classroom community in which students' unique qualities and needs are as important as the ones they have in common. Translate curriculum into manageable and meaningful learning goals that are fit to be differentiated. Use pre-assessment and formative assessment to uncover students' learning needs, tailor tasks accordingly, and ensure that students are getting it. Provide interactive learning experiences that encourage students to engage with both the content and one another. Present students with avenues to take in process and produce knowledge that appeal to their varied interests and learning preferences. Navigate potential roadblocks to differentiation. Each chapter provides a plethora of practical tools, templates, and strategies for a variety of subject areas developed by and for real teachers. Whether you're new to differentiated instruction or looking to expand your repertoire of DI strategies, *Differentiation in the Elementary Grades* will show you classroom-tested ways to better engage students and help them succeed every day.
