Eugenic Nation Alexandra Minna Stern,2015-12-08 First edition Winner of the Arthur J Viselstear Prize American Public Health Association With an emphasis on the American West Eugenic Nation explores the long and unsettled history of eugenics in the United States This expanded second edition includes shocking details demonstrating that eugenics continues to inform institutional and reproductive injustice Alexandra Minna Stern draws on recently uncovered historical records to reveal patterns of racial bias in California s sterilization program and documents compelling individual experiences With the addition of radically new and relevant research this edition connects the eugenic past to the genomic present with attention to the ethical and social implications of emerging genetic technologies

The Boundaries of Desire Eric Berkowitz,2015-08-01 The act of reproduction and its variants never change much but our ideas about the meaning of sex are in constant flux Switch a decade cross a border or traverse class lines and the harmless pleasures of one group become the gravest crimes in another Combining meticulous research and lively storytelling The Boundaries of Desire traces the fast moving bloodsport of sex law over the past century and challenges our most cherished notions about family power gender and identity Starting when courts censored birth control information as pornography and let men rape their wives and continuing through the sexual revolution and into the present day when rape gay rights sex trafficking and sex on the internet saturate the news Berkowitz shows how the law has remained out of synch with the convulsive changes in sexual morality By focusing on the stories of real people Berkowitz adds a compelling human element to what might otherwise be faceless legal battles The law is made by people after all and nothing sparks intolerance on the left and right more than sex Ultimately Berkowitz shows the emptiness of sanctimonious condemnation and argues that sexual questions are too subtle and volatile for simple catch all solutions
