**The American Vision of Robert Penn Warren** William Bedford Clark, 2021-12-14 In 1976 the bicentennial year Robert Penn Warren told Bill Moyers that he was in love with America but his love for the nation was more often than not troubled and angry Warren once remarked that any intelligent person is inclined to criticize his country more strongly than he will criticize anything else And he should It s a way of criticizing himself too Trying to live more intelligently and more fully In *The American Vision of Robert Penn Warren* a noted Warren scholar traces the evolution of our first poet laureate s distinctive stance toward the American experiment in democracy showing how Warren sought to balance off the claims of self and society in the New World This book surveys the full six decades of Warren s career combining close reading with a historian s eye for social and political context While pointedly avoiding the reductive pitfalls of the new historicism Clark documents the informing role the Great Depression played in shaping Warren s attitudes toward art and politics and he demonstrates the necessity of regarding Warren s major achievements in fiction and verse as forms of public speech Read in this light Warren s vision offers a set of possibilities for renegotiating America s covenant with its Founders on new and pragmatic terms Based solidly on the best previous commentary on Warren and his work Clark s study represents a new approach to its subject and incorporates insights and information garnered from the Warren Papers at Yale A wide ranging account of the interplay between an author s imagination and contemporary history this book should prove of interest to all students of American culture especially those concerned with the interrelationships of literature politics and ideology Written in a lively and direct style it will appeal to specialists and general readers alike

**America's Philosophical Vision** John E. Smith, 1992-06-15 In these previously uncollected essays Smith argues that American philosophers like Peirce, James, Royce, and Dewey have forged a unique philosophical tradition, one that is rich and complex enough to represent a genuine alternative to the analytic, phenomenological, and hermeneutical traditions which have originated in Britain or Europe. In my judgment, John Smith has no equal today in combining two scholarly qualities: the analysis of philosophical texts with penetration and rigor, and the discernment of what it is in these texts that matters. These qualities are in evidence throughout the essays in *America's Philosophical Vision*. Whether he is evaluating Rorty's view of Dewey, the pragmatic theory of experience and truth, theories of freedom, creativity, and the self, Royce's conception of community, or synoptic philosophic visions, Smith always succeeds in uniting a comprehensive understanding of philosophic writings with a sure grasp of their import for human culture and aspiration. It is a great benefit to students of American thought that these papers have now been collected into one volume. James Gouinlock, Emory University.

**Apocalyptic Postmodern Vision in the Select Novels of John Updike** Dr. Zhao Yang, Ms. Long Na, 2023-01-06 John Updike's vision of life and American society is apocalyptic as he wrote novels to depict the present dilemmas of the Americans and the future challenges of the country and the global world. He was also confronted with the riddle of life and existence like Dostoevsky, and with a view to find the answers to the mysteries of life and truth, he turned to Kierkegaard and Karl Barth, who had evolved the dialectical method to explore reality and truth. Barth's dialectical method was derived from Kierkegaard, who believed that truth is not found in the operation of Hegel's method of thesis and anti-thesis, but rather in the dialectical tension between truth and untruth. Kierkegaard wrote: "Every truth is truth only to a certain degree; when it goes beyond the counterpoint, it becomes untruth." Kierkegaard, *Word of God and Word of Man*, 206. John Updike stated that the purpose of his writing novels and stories is to examine everything for God's fingerprints. In the 1960s, when he started writing, his name was associated with other writers such as John Barth, Robert Coover, and Thomas Pynchon, busy in experimenting new themes and strategies. Updike ignored the main stream of contemporary fiction and distanced himself from the contemporary writers. His mission was to write a new kind of fiction to create a new kind of world to depict the new future of mankind the way Karl Marx had done.
