## **Popular Culture and Nationalism in Lebanon**

Christopher Stone, 2007-09-12 Based on an award winning thesis, this volume is a pioneering study of musical theatre and popular culture and its relation to the production of identity in Lebanon in the second half of the twentieth century. In the aftermath of the departure of the French from Lebanon and the civil violence of 1958, the Rahbani brothers, Asî and Mansour, staged a series of folkloric musical theatrical extravaganzas at the annual Ba'labakk festival which highlighted the talents of Asî's wife, the Lebanese diva Fairouz, arguably the most famous living Arab singer. The inclusion of these folkloric vignettes into the festival's otherwise European-dominated cultural agenda created a powerful nation-building combination of what Partha Chatterjee calls the appropriation of the popular and the classicization of tradition. The Rahbani project coincides with the confluence of increasing internal and external migration in Lebanon as well as with the rapid development of mass media.

technology of which the Ba labakk festival can be seen as an extension Employing theories of nationalism modernity globalism and locality this book shows that these factors combined to give the project a potent identity forming power Popular Culture and Nationalism in Lebanon is the first study of Fairouz and the Rahbani family in English and will appeal to students and researchers in the field of Middle East studies Popular culture and musical theatre **Spon's Civil Engineering and Highway Works Price** Davis Langdon,2013-10-14 Output in infrastructure is forecast to rise by 6.6% in 2013 7.6% in 2014 driven by Highways Agency's capital budget funding by rail and by electricity Spon's Civil Engineering and Highway Works Price Book 2014 gives costs for both general and civil engineering works and highway works and provides a full breakdown of labour plant and material elements with labour rates updated in line with the latest CIJC wage agreement Beyond prices it can be used as a comprehensive work manual for the UK's civil engineering surveying and construction business Use the access code inside the back cover of the book to get set up with internet access to this edition until the end of December 2014 We now provide SPON'S Online a versatile and powerful online data viewing package which replaces the estimating software and ebook of recent years This 28th edition incorporates a comprehensive review throughout Labour rates have increased at the beginning of the year and further increases are expected in 2014 make sure you register for quarterly updates to keep up to date with wage increases Pressure is being maintained on material costs with a slight fall in materials prices as some of the rail projects come on stream Structured to comply with CESMM3 and MMHW the book includes prices and rates covering the key items that make a general civil or highway construction project from gabions to gutters and painting to PVC pipework In a time when it is essential to gain competitive advantage in an increasingly congested market this price book provides instant access cost information and is a one stop reference **Spon's Civil Engineering and Highway Works Price** AECOM,2014-10-02 Infrastructure work is still declining although there are plans to release 1.3bn worth of road network schemes over the next few years Network rail has published plans to spend 38bn on upgrade works over the next five years Water firms are to bring forward 400m of work into this financial year Spon's Civil Engineering and Highway Works Price Book 2015 from AECOM gives costs for both general and civil engineering works and highway works and provides a full breakdown of labour plant and material elements with labour rates updated in line with the latest CIJC wage agreement Beyond prices it can be used as a comprehensive work manual for the UK's civil engineering surveying and construction business Use the access code inside the front cover of the book to get set up with internet access to this edition until the end of December 2015 We now provide SPON'S Online a versatile and powerful online data viewing package which replaces the estimating software and ebook of recent years This 29th edition incorporates a comprehensive review throughout Updated to come into line with the CESSM4 structure as well as MMHW And with an expanded range of rail elements **Design and Construction of Buildings and Foundations with Illustrative Examples** Y.
