Toni Morrison Sula S:

A Study Guide for Toni Morrison's "Sula" Gale, Cengage Learning, 2016-07-12 A Study Guide for Toni Morrison's Sula excerpted from Gale's acclaimed Novels for Students. This concise study guide includes plot summary, character analysis, author biography, study questions, historical context, suggestions for further reading, and much more. For any literature project, trust Novels for Students for all of your research needs. **Sula** Toni Morrison, 2002 In clear, dark, resonant language, Nobel Prize winner Toni Morrison brilliantly evokes not only a bond between two lives but the harsh, loveless, ultimately mad world in which that bond is destroyed: the world of the Bottom and its people. Unabridged 5 CDs. *Sula* Harold Bloom, 1999 Presents critical essays on Toni Morrison's Sula and includes a chronology, a bibliography, and an introduction by critic Harold Bloom. Maternal Body and Voice in Toni Morrison, Bobbie Ann Mason, and Lee Smith Paula Gallant Eckard, 2002 Studies in Women Writers in English Rama Kundu, 2007 The New Series Studies in Women Writers in English is a grateful acknowledgment of the contribution and public recognition of the emerging voice of women in the arena of literature during the last few centuries and especially in the latter half of the twentieth century. Women writers across the globe have made their distinctive mark with their own perception of life: be it feminine or feminist or female. The critique of work by women writers introduced in the present volume, the sixth in the series, bears evidence to the growing critical attention towards authors writing outside the mainstream in America, Canada, and especially in India. Who can be seen sharing similar awareness and feelings regarding the woman's angst and aspirations. Since most of the authors discussed in these articles are prescribed in the English syllabus in the universities of India, both the teachers and the students will find them extremely useful. And the general readers who are interested in literature in English and/or women writers will also find them intellectually stimulating. **Margaret Atwood and the Female Bildungsroman** Ellen McWilliams, 2017-03-02 Examining Margaret Atwood's work in the context of the complex history of the Bildungsroman, Ellen McWilliams explores how the genre has been appropriated by women writers in the second half of the twentieth century. She demonstrates that Atwood's early work, her own coming-of-age fiction, including unpublished works as well as *The Edible Woman*, *Surfacing*, and *Lady Oracle*, both engages with and works against the paradigms of identity which are traditionally associated with the genre. Making extensive use of unpublished manuscripts in the Atwood Collection at the University of Toronto, McWilliams uncovers influences that shaped Atwood's fashioning of identity in her early novels, paying particular attention to Atwood's preoccupation with survival as a key symbol of Canadian literature, culture, and identity. She also considers the genre's afterlife on display in *Cat's Eye*, *The Robber Bride*, *Alias Grace*, *The Blind Assassin*, and *Moral Disorder*, in which the formulations of selfhood and identity in Atwood's early fiction are revisited and developed. Atwood emerges as a writer who self-consciously invokes and then undercuts the traditions of the Bildungsroman, a turn that may be read as a means of at once interrogating and perpetuating the form. McWilliams's book furthers our understanding of

subjectivity in Atwood's fiction and contributes to ongoing conversations about the role gender and cultural contexts play in reframing generic boundaries **Toni Morrison and the Bible** Shirley A. Stave, 2006 This collection of essays critically interrogates Toni Morrison's use of the Bible in her novels examining the ways in which the author plays on the original text to raise issues of spirituality as it affects race gender and class Ideal for courses on Morrison or on explorations of the intersection of religion and literature this collection treats its topic with sophistication considering religion in its broadest possible sense and examining syncretic theologies as well as mainstream religions in its attempt to locate Morrison's work in a spiritual theological nexus **Critical Companion to Toni Morrison** Carmen Gillespie, 2007 Toni Morrison winner of the Nobel Prize in Literature in 1993 is perhaps the most important living American author This work examines Morrison's life and writing featuring critical analyses of her work and themes as well as entries on related topics and relevant people places and influences **Understanding Toni Morrison's Beloved and Sula** Solomon Ogbede Iyasere, Marla W. Iyasere, 2000 Toni Morrison's Beloved is probably the most widely studied work of contemporary fiction both in the United States and abroad The novel appeals to readers across various disciplines as such it is now required reading in courses in English and American literature feminist and multicultural criticism and American history in universities and colleges around the world The novel's universal appeal with its unique structure and compelling story has made it the subject of numerous scholarly essays published in reference journals To make the best of these essays more accessible to university students this book offers a volume of selected essays with a critical introduction and annotated bibliography **The Concise Oxford Companion to African American Literature** William L. why are some nations more creative than others and why do some highly innovative societies such as ancient China or Britain in the industrial revolution pass into stagnation Beginning with a fascinating concise history of technological progress Mokyr sets the background for his analysis by tracing the major inventions and innovations that have transformed society since ancient Greece and Rome What emerges from this survey is often surprising the classical world for instance was largely barren of new technology the relatively backward society of medieval Europe bristled with inventions and the period between the Reformation and the Industrial Revolution was one of slow and unspectacular progress in technology despite the tumultuous developments associated with the Voyages of Discovery and the Scientific Revolution What were the causes of technological creativity Mokyr distinguishes between the relationship of inventors and their physical environment which determined their willingness to challenge nature and the social environment which determined the openness to new ideas He discusses a long list of such factors showing how they interact to help or hinder a nation s creativity and then illustrates them by a number of detailed comparative studies examining the differences between Europe and China between classical antiquity and medieval Europe and between Britain and the rest of Europe during the industrial revolution He examines such aspects as the role of the state the Chinese gave up a millennium wide lead in shipping to the Europeans for example when an Emperor banned large ocean going vessels the impact of science as well as religion politics and even nutrition He questions the importance of such commonly cited factors as the spill over benefits of war the abundance of natural resources life expectancy and labor costs Today an ever greater number of industrial economies are competing in the global market locked in a struggle that revolves around technological ingenuity The Lever of Riches with its keen analysis derived from a sweeping survey of creativity throughout history offers telling insights into the question of how Western economies can maintain and developing nations can unlock their creative potential

The Cambridge History of American Literature: Volume 7, Prose Writing, 1940-1990 Sacvan Bercovitch, Cyrus R. K. Patell, 1994 Volume VII of the Cambridge History of American Literature examines a broad range of American literature of the past half century revealing complex relations to changes in society Christopher Bigsby discusses American dramatists from Tennessee Williams to August Wilson showing how innovations in theatre anticipated a world of emerging countercultures and provided America with an alternative view of contemporary life Morris Dickstein describes the condition of rebellion in fiction from 1940 to 1970 linking writers as diverse as James Baldwin and John Updike John Burt examines writers of the American South describing the tensions between modernization and continued entanglements with the past Wendy Steiner examines the postmodern fictions since 1970 and shows how the questioning of artistic assumptions has broadened the canon of American literature Finally Cyrus Patell highlights the voices of Native American Asian American Chicano gay and lesbian writers often marginalized but here discussed within and against a broad set of national traditions

The Identifying Fictions of Toni Morrison J.

Duvall, 2000-12-14 Although all published biographical information on Toni Morrison agrees that her birth name was Chloe

Anthony Wofford John Duvall's book challenges this claim. Using new biographical information he explores the issue of names and naming in Morrison's fiction and repeatedly finds surprising traces of the Nobel Prize winning author's struggle to construct a useable identity as an African American woman novelist. Whatever the exact circumstances surrounding her decision to become Toni, one thing becomes clear: the question of identity was not a given for Morrison. Odisea nº 13

This book explores womanism with regards to its specific concerns with African American women's rights, identities and self-actualisation and points towards its more overarching concerns with human relations and sexual freedom as expressed in each of Walker's seven novels. Although Walker introduced the term womanism in 1983, this book traces the development of the concept across her canon of fictional works. By analysing the novels written in the 1970s, this book establishes how the term came to be coined and demonstrates how womanism went on to be further developed and complexly wrought throughout Walker's literary career. **Second Reading** Jonathan Yardley, 2011-06-28 The Pulitzer Prize winning book critic shares recollections and reviews from his career at the Washington Post. In this book, Jonathan Yardley considers lesser-known works from renowned authors and underappreciated talents and offers fresh takes on old favorites. Yardley's reviews of sixty titles include fiction by Gabriel García Márquez, John Cheever and Henry Fielding, the autobiography

of Louis Armstrong essays by Nora Ephron and Margaret Leech's history of Washington during the Civil War. Second Reading is also the memoir of a passionate and lifelong reader told through the books that have meant the most to him. Playing the part of both reviewer and bibliophile, Yardley takes on Steinbeck and Salinger, explores the southern fiction of Shirley Ann Grau and Eudora Welty, looks into a darker side of Roald Dahl, and praises the pulp fiction of William Bradford Huie and the crime novels of John D. MacDonald. Collected from a popular Washington Post column of the same name, Second Reading is an incisive and entertaining look at the career and times of an esteemed critic and the venerable books that shaped him. This delightful consideration reminds readers that thoughtful criticism and a lively sense of fun can exist side by side.

Discourse and the Other W. Lawrence Hogue, 1986-11-25. The central thesis of Lawrence Hogue's book is that criticism of Afro-American literature has left out of account the way in which ideological pressures dictate the canon. This fresh approach to the study of the social, ideological, and political dynamics of the Afro-American literary text in the twentieth century, based on the Foucauldian concept of literature as social institution, examines the universalization that power effects, how literary texts are appropriated to meet ideological concerns and needs, and the continued oppression of dissenting voices. Hogue presents an illuminating discussion of the publication and review history of major and neglected texts. He illustrates the acceptance of texts as exotica, as sociological documents, or as carriers of sufficient literary conventions to receive approbation. Although the sixties movement allowed the text to move to the periphery of the dominant ideology, providing some new myths about the Afro-American historical past, this marginal position was subsequently sabotaged, co-opted, or appropriated. Afros became a fad, presidents gave the soul handshake, the hip talking black was dressing one style and talking another. This study includes extended discussion of four works: Ernest J. Gaines's *The Autobiography of Miss Jane Pittman*, Alice Walker's *The Third Life of Grange Copeland*, Albert Murray's *Train Whistle Guitar*, and Toni Morrison's *Sula*. Hogue assesses the informing worldviews of each and the extent and nature of their acceptance by the dominant American cultural apparatus.

Among The Writers Studied Here Are Henry David Thoreau, Walt Whitman, Ernest Hemingway, Thomas Wolfe, Toni Morrison, Harold Robbins, Eugene O'Neill, and Edward Albee, who represent most of the important genres and trends in American literature today. Thoreau and Whitman have been included not because they are modern but because of their immense contribution to the evolution of the American thought and literature. The novels and plays specially focussed upon are *The Old Man and the Sea*, *Look Homeward, Angel*, *The Bluest Eye*, *Sula*, *Where Love Has Gone*, *Desire Under The Elms*, *A Streetcar Named Desire*, *A Delicate Balance*, and *Tiny Alice*.
