Tolstoy On Screen:

Tolstoy on Screen Lorna Fitzsimmons, Michael A. Denner, 2015 Scholarship on screen adaptation has proliferated in recent years but it has remained largely focused on English and Romance language authors Tolstoy on Screen aims to correct this imbalance with a comprehensive examination of film and television adaptations of Tolstoy's fiction Spanning the silent era to the present day these essays consider well known as well as neglected works in light of contemporary adaptation and media theory The book is organized to facilitate a comparative cross cultural understanding of the various practices employed in different eras and different countries to bring Tolstoy's writing to the screen International in scope and rigorous in analysis the essays cast new light on Tolstoy's work and media studies alike **Tolstoy in Context** Anna A.

Berman, 2022-12-22 Likened to a second Tsar in Russia and attaining prophet like status around the globe Tolstoy made an impact on literature and the arts religion philosophy and politics His novels and stories both responded to and helped to reshape the European and Russian literary traditions His non fiction incensed readers and drew a massive following making Tolstoy an important religious force as well as a stubborn polemicist in many fields Through his involvement with Gandhi and the Indian independence movement his aid in relocating the Doukhobors to Canada his correspondence with American abolitionists and his polemics with scientists in the periodical press Tolstoy engaged a vast array of national and international contexts of his time in his life and thought This volume introduces those contexts and situates Tolstoy the man and the writer in the rich and tumultuous period in which his intellectual and creative output came to fruition **Simply Tolstoy** Donna

Tussing Orwin, 2017-07-27 This is a little gem the best introduction to Tolstoy I have ever encountered and it is more than that The most accomplished scholar will find important new insights the sort that one immediately recognizes as both true and profound Orwin brings Tolstoy to life as a person and as a writer and she also shows beautifully how the two are linked The discussions of Tolstoy's views on psychology and the nature of art are especially illuminating Gary Saul Morson

Lawrence B Dumas Professor of the Arts and Humanities and Professor of Slavic Languages and Literatures Northwestern University Count Leo Tolstoy 1828 1910 was born at Yasnaya Polyana his ancestral estate located about 120 miles from Moscow While he would live and travel in other places over the years he always considered this family residence in the Russian heartland as his home His lifelong quest for truth and meaning began while he was a university student Subsequent experiences as an artillery officer in the Caucasian and Crimean Wars and time spent in St Petersburg and Europe broadened his perspective and profoundly influenced him In *Simply Tolstoy* Professor Donna Tussing Orwin traces the author's profound journey of discovery and explains how he mined his tumultuous inner life to create his great works including *War and Peace* *Anna Karenina* and *The Death of Ivan Ilych* She shows how these books both fiction and nonfiction are not autobiographical in the conventional sense but function as snapshots of Tolstoy's state of mind at specific points in his life The story she tells is inevitably intertwined with the story of Russia a country also in constant search of its identity Mixing biography literary

analysis and history Simply Tolstoy is a satisfying read for those already familiar with the author's work as well as an accessible and thoroughly engaging introduction to a literary giant who was also a tireless and uncompromising seeker of truth

Memory and Securitization in Contemporary Europe Vlad Strukov, Victor Apryshchenko, 2018-01-24 The volume is the first study to explore the intersection of memory and securitisation in the European context By analysing a variety of practices ranging from film to art and new media the book expands the existing theoretical framework of securitisation The authors consider memory as a precondition for contemporary integration projects such as the European Union and also showcase how memory is used to stage international conflicts Following this memory securitisation nexus the European Union and Europe more generally emerges as an on going cultural political and social project The book also examines developments outside the EU such as the conflict in Ukraine and the creation of the Eurasian Economic Union which the authors argues have a profound impact on Europe From a consideration of historical contexts such as national referenda the discussion proceeds to media and film analysis artistic practice and more transient phenomena such as climate change

Tolstoy's Dictaphone Sven Birkerts, 1996-08-01 When the great Russian writer Tolstoy was first offered the use of a brand new invention called the Dictaphone he refused it saying that it was sure to be too dreadfully exciting and would distract him from his literary endeavors For this provocative launch of the Graywolf Forum series Sven Birkerts invited a number of literary writers to tell him how they were reacting to the technological innovations of our day Do the dreadful excitements promised by a digital future cause us to forfeit our time honored cultural traditions for dubious gain Or will the electronic millennium usher in an unprecedented age of interconnectedness and opportunities for wider communication In the tradition of the Graywolf Annuals this first Graywolf Forum presents a wide range of responses from contemporary creative writers Contributors Sven Birkerts Harvey Blume Daniel Mark Epstein Jonathan Franzen Thomas Frick Alice Fulton Albert Goldbarth Carolyn Guyer Gerald Howard Wendy Lesser Ralph Lombreglia Carole Maso Askold Melnyczuk Robert Pinsky Wulf Rehder Lynne Sharon Schwartz Tom Sleigh Mark Slouka Paul West

Russia at Play Louise McReynolds, 2018-07-05 An athlete becomes a movie star a waiter rises to manage a chain of nightclubs a movie scenarist takes to writing restaurant reviews Intrepid women hunt bears drive in automobile races and fly first in balloons and then in airplanes Sensational crimes jump from city streets onto the screen almost before the pistols have had a chance to cool Paris in the Twenties Fitzgerald's New York Early Hollywood No tsarist Russia in the last decades before the Revolution In *Russia at Play* Louise McReynolds recreates a vibrant rapidly changing culture in rich detail Her account encompasses the legitimate stage vaudeville nightclubs restaurants sports tourism and the silent movie industry McReynolds reveals a pluralist and dynamic society and shows how the new icons of mass culture affected the subsequent gendering of identities The rapid industrialization and urbanization of the late tsarist period spawned dramatic social changes an urban middle class and a voracious consumer culture demanded new forms of entertainment The result was the rapid incursion of commercial values into the arts and the

athletic field and unprecedented degrees of social interaction in the new nightclubs vaudeville houses and cheap movie houses Traditional rules of social conduct shifted to greater self fulfillment and self expression values associated with the individualism and consumerism of liberal capitalism Leisure time activities McReynolds finds allowed Russians who partook of them to recreate themselves to develop a modern identity that allowed for different senses of the self depending on the circumstances The society that spawned these impulses would disappear in Russia for decades under the combined blows of revolution civil war and collectivization but questions of personal identity are again high on the agenda as Russia makes the transition from a collectivist society to one in which the dominant ethos remains undefined **Kino** Jay Leyda,1983-08-21 Documents the evolutionary development of the nation s cinema and its film artists focusing on the period between 1896 and the death of Eisenstein in 1948 **Bondarchuk's War and Peace** Denise J. Youngblood,2014-11-07 Sergei Bondarchuk s War and Peace one of the world s greatest film epics originated as a consequence of the Cold War Conceived as a response to King Vidor s War and Peace Bondarchuk s surpassed that film in every way giving the USSR one small victory in the cultural Cold War for hearts and minds This book taking up Bondarchuk s masterpiece as a Cold War film an epic a literary adaptation a historical drama and a rival to Vidor s Hollywood version recovers and expands a lost chapter in the cultural and political history of the twentieth century Like many great works of literature Tolstoy s epic tale proved a major challenge to filmmakers After several early efforts to capture the story s grandeur it was not until 1956 that King Vidor dared to bring War and Peace to the big screen American critics were lukewarm about the film but it was shown in the Soviet Union to popular acclaim This book tells the story of how the Soviet government military and culture ministry all eager to reclaim this Russian masterpiece from their Cold War enemies pulled together to make Bondarchuk s War and Peace possible Bondarchuk an actor who had directed only one film was an unlikely choice for director and yet he produced one of the great works of Soviet cinema a worthy homage to Tolstoy s masterpiece an achievement only sweetened when Russia s Cold War adversary recognized it with the Academy Award s Oscar for Best Foreign Language Film of 1968 Denise Youngblood examines the film as an epic and at seven hours long released in four parts at a cost of nearly 700 000 000 in today s dollars it was certainly that a literary adaptation a complex reflection on history and a significant artifact of the cultural Cold War between the US and the USSR From its various angles the book shows us Bondarchuk s extraordinary film in its many dimensions aesthetic political and historical even as it reveals what the film tells us about how Soviet patriotism and historical memory were constructed during the Cold War *Hearings* United States. Congress Senate,1956 **Scope of Soviet Activity in the U.S.** United States. Congress. Senate. Committee on the Judiciary. Subcommittee to Investigate the Administration of the Internal Security Act and Other Internal Security Laws,1956 *The Structure of Complex Images* Robert B. Ray,2020-05-09 After over a century of existence the cinema still has its mysteries Why for example is the job we call movie stardom unlike any other in the world How do films provide so much unconcealed information that we fail to

notice What makes it hard to define what counts as acting How do movies like *Casablanca* and *Breathless* store the film and world histories of their generations How can we reconcile auteurism's celebration of the movie director's authority with the camera's automatism Why have the last four decades of film criticism so often neglected such questions After beginning with an overview of film studies this book proposes a shift from predictable theoretical approaches to models that acknowledge the perplexities and mysteries of the movies Deriving methods from cinephilia Wittgenstein Richard Rorty Stanley Cavell Eleanor Duckworth V F Perkins and James Naremore Robert B Ray offers close readings that call attention to what we have missed in such classic films as *La Règle du Jeu* *It Happened One Night* *It's a Wonderful Life* *Vertigo* *Holiday* *The Philadelphia Story* *Casablanca* *Breathless* and *Tickets*

Screening Woolf Earl G. Ingersoll, 2016-12-06 As the subtitle indicates this book has three major concerns The first and most important concern is an examination of the film adaptations of Woolf's novels *To the Lighthouse* *Orlando* and *Mrs Dalloway* in the order the films were released This is the heart of the matter a fairly conventional effort to acknowledge film reviews as well as the criticism of academicians in film or literature as a starting point for a fresh view of these three film adaptations Since many film specialists prefer that no film ever be adapted from literary fiction and many literature specialists have similarly wished that their favorite novels had never been filmed the effort to mediate the two sides can be challenging Of the three films *To the Lighthouse* is the least successful tending toward the old Masterpiece Theater mode of attempting to be faithful to the source text to use the term of the film theorist Robert Stam but missing the essence of the novel Director Sally Potter's *Orlando* is cinematically the most venturesome and attractive although some Woolf readers condemn Potter's erasure of Woolf's intent to celebrate her affair with Vita Sackville West whose son Nigel Nicolson called Woolf's *Orlando* the longest and most charming love letter in literature *Mrs Dalloway* tends toward the Merchant Ivory style of treating literary masterworks indeed the film credits include a debt of gratitude to the producer-director partnership and is generally carried by the star power of Vanessa Redgrave although it is difficult to imagine her having a crush on another young woman even at eighteen The book's second concern is Woolf's interest in what she would call the cinema As a member of Bloomsbury she saw and participated in the discussion of the cinema especially avant-garde films which she considered to be more the future of cinema than film adaptations upon which she heaped great scorn for their ravenous if not rapacious consumption of vulnerable literary fiction such as Leo Tolstoy's *Anna Karenina* Woolf specialists such as Leslie Hankins proclaim her one of the earliest and most significant British film theorists for the brilliant essay *The Cinema 1925* as film was just beginning to establish itself as art and not merely popular entertainment The third concern is a complex effort to explore the David Hare Stephen Daldry film adaptation of Michael Cunningham's Pulitzer Prize-winning novel *The Hours* an homage to *Mrs Dalloway* in which Virginia Woolf has a starring role as portrayed by Oscar winner Nicole Kidman The film and Kidman's prosthetic nose produced a violent division among the Woolfians who either commended its bringing legions of new readers to *Mrs Dalloway* and potentially to Woolf *Mrs Dalloway* becoming the best

seller it could not have been in her lifetime or were outraged by the film's diminishment of probably the most important female British novelist of the 20th century Even Nobel Laureate Doris Lessing spoke out against the travesty of a novelist she considered a foremother of later 20th century writers **Scope of Soviet Activity in the United States** United States. Tolstoy's Major Fiction Edward Wasiolek, 1978 Edward Wasiolek after much valuable work on Dostoevsky has now written one of the best books on Tolstoy in recent decades This may be in part because of his preoccupation with Tolstoy's most challenging contemporary and the resulting sense of their unlikeness in a common pursuit But there are other unspeculative reasons Few studies of Tolstoy have been so carefully pondered and so firmly organized to convince and not so many show the flexibility and variety of its approach Wasiolek proposes an essentially simple and consistent reading but he advances it with subtlety and discretion Henry Gifford *Times Literary Supplement* *The Anglo-Soviet Journal*, 1966

Auralization Michael Vorländer, 2020-08-28 Auralization is the technique of creation and reproduction of sound on the basis of computer data With this tool it is possible to predict the character of sound signals which are generated at the source and modified by reinforcement propagation and transmission in systems such as rooms buildings vehicles or other technical devices This book is organized as a comprehensive collection of the basics of sound and vibration acoustic modelling simulation signal processing and audio reproduction With some mathematical prerequisites the readers will be able to follow the main strategy of auralization easily and work out their own implementations of auralization in various fields of application in architectural acoustics acoustic engineering sound design and virtual reality For readers interested in basic research the technique of auralization may be useful to create sound stimuli for specific investigations in linguistic medical neurological and psychological research and in the field of human machine interaction **The Epic World** Pamela Lothspeich, 2024-01-30 Reconceptualizing the epic genre and opening it up to a world of storytelling The Epic World makes a timely and bold intervention toward understanding the human propensity to aestheticize and normalize mass deployments of power and violence The collection broadly considers three kinds of epic literature conventional celebratory tales of conquest that glorify heroism especially male heroism anti epics or stories of conquest from the perspectives of the dispossessed the oppressed the despised and the murdered and heroic stories utilized for imperialist or nationalist purposes The Epic World illustrates global patterns of epic storytelling such as the durability of stories tied to religious traditions and or to peoples who have largely stayed put the tendency to reimagine and retell stories in new ways over centuries and the imbrication of epic storytelling and forms of colonialism and imperialism especially those perpetuated and glorified by Euro Americans over

the past 500 years resulting in unspeakable and immeasurable harms to humans other living beings and the planet Earth The Epic World is a go to volume for anyone interested in epic literature in a global framework Engaging with powerful stories and ways of knowing beyond those of the predominantly white Global North this field shifting volume exposes the false premises of Western civilization and Classics and brings new questions and perspectives to epic studies
