Catalano, 2023-09-09 This study presents *Moby Dick* as a novel with three distinct but interconnecting stories Ishmael s which he shares ten years after it has taken place Ahab s which is Ishmael s account of the memorable captain of a whaling ship and a third which centres on whales and whaling which has not received significant critical attention While each of these perspectives compete for prominence in the narrative Ahab and Ishmael s stories have often distracted from the vital significance of the whaling narrative as what outlasts Ahab s obsessive mission Catalano rights this wrong by coming to a strikingly original and thought provoking conclusion which becomes the heart of the book s argument the unity of Melville s book comes first from the way the numerous literary philosophical and religious reflections are rooted in those magnificent beings whales and in the men and ships that pursue them and second in the way these reflections illuminate our own lives Questions of Identity in Detective Fiction Anita Higgie, Linda Martz, 2009-03-26 With essays by an international group of scholars *Questions of Identity in Detective Fiction* delves into the ways in which this genre given its status as popular yet marginalized literature allows for the exploration of a wide range of meanings Contributors examine how the genre both mirrors and focuses the personal sexual ethnic spiritual how it interfaces with national literatures and histories and how the generic identity of detective fiction has evolved over time Chapters include discussions of novels and short stories from American Argentine British Canadian French German and Japanese national literatures ranging from the mid 19th century to the early 21st century **Ghost Fleet Awakened** Joseph W. **The Mystery Fancier (Vol. 10 No. 3) Summer 1988** Guy M. Townsend, Ellery Queen, 2010-09-01 The Mystery Fancier Volume 10 Number 3 Summer 1988 contains Ellery Queen Sports Fan by Joe R Christopher The Gold Medal Boys Further Gems from the Literature by William F Deeck An Australian Bibliomystery by Michael J Tolley Reel Murders by Walter Albert Mystery Mosts by Jeff Banks and The Backward Reviewer by William F Deeck Global Fragments ,2007-01-01 While the world seems to be getting ever smaller and globalization has become the ubiquitous buzz word regionalism and fragmentation also abound This might be due to the fact that far from being the alleged production of cultural homogeneity the global is constantly re defined and altered through the local This tension pervading much of contemporary culture has an obvious special relevance for the new varieties of English and the literature published in English world wide Postcolonial literatures exist at the interface of English as a hegemonic medium and its many national regional and local competitors that transform it in the new English literatures Thus any exploration of a globalization of cultures has to take into account the fact that culture is a complex field characterized by hybridization plurality and difference But while global or transnational cultures may allow for a new cosmopolitanism that produces ever changing fluid identities they do not give rise to an egalitarian global village an asymmetry between centre and periphery remains largely intact albeit along new parameters

The essays collected in this volume offer readings of literary theoretical and filmic texts from the postcolonial world. These texts are read as attempts to articulate the global with the local from a perspective of immersion in the actual diversity of life worlds focusing on such issues as consumption, identity, politics, and modes of affiliation. In this sense, they are global fragments, locally refracted figurations of an experience of world-wide interconnectedness.

*American Indians and National Parks* Robert H. Keller, Michael F. Turek, 1999-05-01 Many national parks and monuments tell unique stories of the struggle between the rights of native peoples and the wants of the dominant society. These stories involve our greatest parks: Yosemite, Yellowstone, Mesa Verde, Glacier, the Grand Canyon, Olympic, Everglades, as well as less celebrated parks elsewhere. In *American Indians and National Parks*, authors Robert Keller and Michael Turek relate these untold tales of conflict and collaboration. *American Indians and National Parks* details specific relationships between native peoples and national parks, including land claims, hunting rights, craft sales, cultural interpretation, sacred sites, disposition of cultural artifacts, entrance fees, dams, tourism promotion, water rights, and assistance to tribal parks. Beginning with a historical account of Yosemite and Yellowstone, *American Indians and National Parks* reveals how the creation of the two oldest parks affected native peoples and set a pattern for the century to follow. Keller and Turek examine the evolution of federal policies toward land preservation and explore provocative issues surrounding park-Indian relations. When has the National Park Service changed its policies and attitudes toward Indian tribes, and why? How have environmental organizations reacted when native demands, such as those of the Havasupai over land claims in the Grand Canyon, seem to threaten a national park? How has the Park Service dealt with native claims to hunting and fishing rights in Glacier, Olympic, and the Everglades? While investigating such questions, the authors traveled extensively in national parks and conducted over 200 interviews with Native Americans, environmentalists, park rangers, and politicians. They meticulously researched materials in archives and libraries, assembling a rich collection of case studies ranging from the 19th century to the present. In *American Indians and National Parks*, Keller and Turek tackle a significant and complicated subject for the first time, presenting a balanced and detailed account of the Native American national park drama. This book will prove to be an invaluable resource for policymakers, conservationists, historians, park visitors, and others who are concerned about preserving both cultural and natural resources.
