more so at the same time the proportions of people in such jobs though still in the minority are expanding The growing demand of wives for paid work outside the home means that in place of two jobs one for the husband and one for the wife there will often be four with both working inside as well as outside the home How long will people be able to bear the consequent strain In a final chapter the authors discuss what they think will happen unless people decide quite deliberately to reduce the pressure upon themselves and their children This book will be of interest to students of sociology health social care anthropology and public policy
