## **Old Mutual Songs For 2014:**

The Old Songs are Always New Genevieve Campbell, 2023-07-01 It's really great. It's like they're all here. I hear all of these voices and I sing with them. You know Yikliya Eustace Tipiloura senior songman and Elder. Perhaps the most defining feature of Tiwi song is the importance placed on the creative innovation of the individual singer/composer. Tiwi songs are fundamentally new, unique, and occasion specific and yet sit within a continuum of an oral artistic tradition. Performed in ceremony at public events for art and for fun, songs form the core of the Tiwi knowledge system and historical archive. Held by song custodians and taught through sung and danced ritual, generations of embodied practice are still being created and accumulated as people continue to sing. In 2009 Genevieve Campbell and eleven Tiwi colleagues travelled to Canberra to reclaim over 1300 recordings of Tiwi songs made between 1912 and 1981 that are held in the archives at the Australian Institute of Aboriginal and Torres Strait Islander Studies (AIATSIS). The Old Songs are Always New explores the return home of these recordings to the Tiwi Islands and describes the musical and vocal characteristics, performance context, and cultural function of the twelve Tiwi song types, giving an overview of the linguistic and poetic devices used by Tiwi composers. For the past 16 years, Campbell has been working closely with Tiwi song custodians, studying contemporary Tiwi song culture in the context of the maintenance of traditions and the development of new music forms. Their musical collaboration has resulted in public performances, community projects, and recordings featuring current senior singers and the voices of the repatriated recordings. For this publication, Elders have enabled the transcription of many song texts and melodies for the first time, shedding light on how generations of Tiwi singers have connected the past with the present in a continuum of knowledge transmission and arts practice.

*Culture, Music Education, and the Chinese Dream*

*in Mainland China* Wai-Chung Ho, 2018-01-04 This book focuses on the rapidly changing sociology of music as manifested in Chinese society and Chinese education. It examines how social changes and cultural politics affect how music is currently being used in connection with the Chinese dream. While there is a growing trend toward incorporating the Chinese dream into school education and higher education, there has been no scholarly discussion to date. The combination of cultural politics transformed authority relations, and officially approved songs can provide us with an understanding of the official content on the Chinese dream that is conveyed in today's Chinese society and how these factors have influenced the renewal of values-based education and practices in school music education in China.

*Sound Relations* Jessica Bissett Perea, 2021 *Sound Relations* delves into histories of Inuit musical life in Alaska to register the significance of sound as integral to self-determination and sovereignty. Offering radical and relational ways of listening to Inuit performances across a range of genres from hip hop to Christian hymnody and traditional drumsongs to funk and R B, author Jessica Bissett Perea registers how a density, not difference, of Indigenous ways of musicking from a vast archive of presence sounds out entanglements between structures of Indigeneity and colonialism. This work dismantles stereotypical understandings of Eskimos, Indians, and Natives by addressing the following questions: What exactly is Native about Native music? What does it mean to sound or not sound Native? Who decides? And how can in-depth analyses of Native music that center Indigeneity reframe larger debates of race, power, and representation in twenty-first century American music historiography? Instead of proposing singular truths or facts, this book invites readers to consider the existence of multiple simultaneous truths, a density of truths, all of which are culturally constructed, performed, and in some cases politicized and policed. Native ways of doing music history engage processes of sound worlding that envision otherwise beyond nation-state notions of containment and glorifications of Alaska as solely an extraction site for U.S. settler capitalism and instead amplifies possibilities for more just and equitable futures.

*Musical Topics and Musical Performance* Julian Hellaby, 2023-01-31 The principal purpose of topics in musicology has been to identify meaning-bearing units within a musical composition that would have been understood by contemporary audiences and therefore also by later receivers, albeit in a different context and with a need for historically aware listening. Since Leonard Ratner (1980) introduced the idea of topics, his relatively simple ideas have been expanded and developed by a number of distinguished authors. Topic theory has now become a well-established branch of musicology, often embracing semiotics, but its relationship to performance has received less attention. *Musical Topics and Musical Performance* thus focuses on the interface of theory and practice and investigates how an appreciation of topical presence in a work may prompt interpretative thoughts for a potential performer as well as how performers have responded to such a presence in practice. The chapters focus on music from the nineteenth, twentieth, and twenty-first centuries, with case studies drawn from composers as diverse as Beethoven, Scriabin, and Peter E. T. v. s. Using both scores and recordings, the book presents a variety of original and innovative perspectives on the subject from a range of distinguished authors and addresses a neglected area of

musicology and musical performance      You Can't Go to War without Song Omotayo Jolaosho, 2022-07-26 You Can't Go to War without Song explores the role of public performance in political activism in contemporary South Africa Weaving together detailed ethnographic fieldwork and an astute theoretical framework Omotayo Jolaosho examines the cohesive power of protest songs and dances within the Anti Privatisation Forum APF one of many social movements that emerged in the wake of South Africa's democratic transition after 1994 Jolaosho demonstrates the ways APF members adapted anti-apartheid songs and dance to create new expressive forms that informed and commented on their struggles for access to water electricity housing education and health facilities the costs of which had been made prohibitive by privatization You Can't Go to War without Song offers profiles of individual activists to amplify its central point social movements like the APF are best understood as the coming together of individuals and it is the songs and dances of the movement that bind these individuals together and create opportunity for community organization Chapters on women and youth complicate such understandings of community however showing how activists live and experiences are shaped by gender and generation

Allen, 2018-10-01 Songwriters performers and producers Erik Appelwick Eric Fawcett John Hermanson and Darren Jackson were important players in an early 2000s musical collective This collective included genres such as folk power pop R B electro funk and indie rock Well known bands Storyhill Spymob Alva Star Kid Dakota Vicious Vicious Tapes n Tapes Olympic Hopefuls and others were part of this movement These four men worked for their rock n roll dreams producing well crafted albums and exciting live performances along the way Their shared biography draws from dozens of new interviews and hundreds of articles to

document their intersecting musical journeys from playing air guitar to KISS records to rocking gyms in high school cover bands to touring the world with some of pop music's biggest names. Equal parts celebration and cautionary tale, this book discusses both the rewards and difficulties of life as an independent musician. **Song Beyond the Nation** Philip Ross Bullock, Laura Tunbridge, 2021-05-20. This book challenges that assumption by exploring the ways in which song crosses national borders. Whether by incorporating foreign canons of poetry alongside native ones or conveying literature across linguistic borders through acts of performance, song functions as a means of translation. **Before We Teach Music** Lori A. Custodero, 2024. In music education, can self-reflection on our pasts help inform better teaching? How can our actions help shape the future of music pedagogy? *Before We Teach Music* offers stories about childhood memories of music making that generate readers' own recollections and discovery. Drawing from student autobiographies, literature, and a case study of an opera written for babies, author Lori A. Custodero suggests there is much to be learned about our students before we teach them. **The Routledge Handbook of Popular Music and Politics of the Balkans** Catherine Baker, 2024-07-10. The Routledge Handbook of Popular Music and Politics of the Balkans is a comprehensive overview of major topics established debates and new directions in the study of popular music and politics in this region. The vibrant growth of this subject area since the 1990s has been intertwined with the region's political and socio-economic transformations, including the collapse of state socialism in much of the region, the break-up of Yugoslavia, the advent of neoliberal capitalism, the rise of Romani activism, the complex politics of Europeanization before and after the global financial crisis, and the region's relationship to the European Union border regime. The handbook illustrates the wide range of disciplines and methods that contribute to this field's interdisciplinary dialogue and highlights emerging approaches such as the study of Black diasporas in the region, popular music's links with LGBTQ communities, and the impact of digital technologies on musical cultures. This volume will benefit specialist researchers, tutors creating or refreshing courses on popular music in the region, and students interested in these topics, especially those who are at the point of developing their own independent research projects. [The Quest for Symbolic Communication in Non-Human Animals](#) Ulrike Griebel, D. Kimbrough Oller, Irene M. Pepperberg, 2024-06-13. Human language is unique among animals. We assume that complex cognitive capacities in general, and language in particular, evolved gradually and thus are manifest in different kinds and/or degrees in other animals demonstrating social communication. This assumption is supported by the fact that we can train social species from very different groups of animals, e.g., great apes, dolphins, dogs, parrots, to understand and, in several cases, even use abstract symbols for communication with humans and conspecifics. Even simple grammatical rules for sequences of 2-3 symbols can be trained to be understood by several species, e.g., great apes, dogs, dolphins. Even though human language training in these species takes considerable time and effort, it convinces us that cognitive foundations for language are present in other species, and given the relevant selection pressures, symbolic communication could evolve in other species.
