Immersion Education Pádraig Ó Duibhir, 2018-05-01 The body of research in this volume offers a detailed account of the success of young immersion learners of Irish in becoming competent speakers of the minority language. Taking account of in-class and out-of-class factors, it examines the variety of Irish spoken by the pupils, the extent to which the Irish spoken deviates from native speaker norms, the degree to which pupils are aware of and attempt to acquire a native-like variety, and the extent to which issues of identity and motivation are involved. The results highlight the limitations
