

Movie Review:

Ant Man

Despite a large number of extraordinary things happening in the Marvel Universe, it has a feature that makes it very similar to the real universe where nobody denies the laws of physics. Both of them are constantly expanding. One more super hero has come from the pages of the comic book onto the screens of cinemas. It is ***Ant Man***. As the protagonist of the film says, "I know. It was not my idea!" This superhero film is written by Edward Wright, Joe Cornish and directed by Peyton Reed. The leading role is played by Paul Rudd, but Michael Douglas seems to be the only super star that appears in this movie.

The plot of such films (and ***Ant Man*** is not an exception) can be usually perfectly summarized by a phrase "We tried to save the world and we did it!" Dr. Hank Pym (Douglas) developed a technology that allows the man to diminish his body to make it the size of an ant and proportionally increase its powers. The costumes made with the help of this technology turn people into exceptional soldiers that can be very dangerous. Pym understands that this technology can be used to take control of the world and exerts every effort to protect it. However, his former assistant Cross is going to use shrinking costumes like any Great Evil Guy from Marvel films. To counteract him, Pym asks Scott Lang (Rudd) who has just been released from prison to steal the Ant Man suit and teaches him how to combat Cross and return peace to the world.

Practical Approaches to Teaching Film Rachel S. Ritterbusch, 2020-07-24 Rachel Ritterbusch's *Practical Approaches to Teaching Film* is a collection of essays focusing on the use of film in settings ranging from an introductory film class to an upper division Women's Studies course. Drawing on their experience in the classroom, contributors to this anthology show how movies can be used to promote critical thinking, create an awareness of the male gaze, challenge dominant ideology, and unmask the constructedness of film. This volume treats a wide variety of film texts from box office hits like *The Da Vinci Code* to underappreciated art films such as Susan Streiffeld's *Female Perversions* from *Ple Moko* and other French classics to more contemporary francophone works like *Chaos* and *Rosetta* from self-reflexive films that interrogate the act of filmmaking itself to those that draw attention to the phallogocentric nature of cinematic apparatus. Common to all these essays is the belief that if used judiciously, film can be a valuable pedagogical tool. Aimed both at those currently teaching film and those wishing to do so, this volume provides practical support in the form of sample syllabi, assignments, and a glossary of film terms.
