Cultural Fault Lines in Healthcare Michael C. Brannigan, 2012-02-16 Healthcare in the U S faces two interpenetrating certainties First with over 66 racial and ethnic groupings our American Mosaic of worldviews and values unavoidably generates clashes in hospitals and clinics Second our public increasingly mistrusts our healthcare system and delivery One certainty fuels the other Conflicts in the clinical encounter particularly with patients from other cultures often challenge dominant assumptions of morally appropriate principles and behavior In turn lack of understanding misinterpretation stereotyping and outright discrimination result in poor health outcomes compounding further mistrust To address these cultural fault lines healthcare institutions have initiated efforts to ensure cultural competence Yet these efforts become institutional window dressing without tackling deeper issues issues having to do with attitudes understanding and most importantly ways we communicate with patients These deeper issues reflect a fundamental original fault line the ever widening gap between serving our own interests while disregarding the concerns of more vulnerable patients those on the margins those Others who remain disenfranchised because they are Other This book examines this and how we must become the voice for these Others whose vulnerability and suffering are palpable The author argues that as a vital and necessary condition for cultural competency we must learn to cultivate the virtue of Presence of genuinely being there with our patients Cultural competency is less a matter of acquiring knowledge of other cultures Cultural competency demands as a prerequisite for all patients not just for those who seem different genuine embodied Presence Genuine interpersonal embodied presence is especially crucial in our screen centric and Facebook world where interaction is mediated through technologies rather than through authentic face to face engagement This is sadly apparent in healthcare where we have replaced interpersonal care with technological intervention Indeed we are all potential patients When we become ill we too will most likely assume roles of vulnerability We too may feel as invisible as those on the margins These are not armchair reflections Brannigan s incisive analysis comes from his scholarship in healthcare and intercultural ethics along with his longstanding clinical experience in numerous healthcare settings with patients their families and healthcare professionals

Chronic Illness Ilene Morof Lubkin, Pamala D. Larsen, 2013 The newest edition of best selling *Chronic Illness* continues to focus on the various aspects of chronic illness that influence both patients and their families Topics include the sociological psychological ethical organizational and financial factors as well as individual and system outcomes This book is designed to

teach students about the whole client or patient versus the physical status of the client with chronic illness The study questions at the end of each chapter and the case studies help the students apply the information to real life Evidence based practice references are included in almost every chapter **Nursing for Wellness in Older Adults** Carol A. Miller,2009 Now in its Fifth Edition this text provides a comprehensive and wellness oriented approach to the theory and practice of gerontologic nursing Organized around the author s unique functional consequences theory of gerontologic nursing the book explores normal age related changes and risk factors that often interfere with optimal health and functioning to effectively identify and teach health promotion interventions The author provides research based background information and a variety of practical assessment and intervention strategies for use in every clinical setting Highlights of this edition include expanded coverage of evidence based practice more first person stories new chapters and clinical tools such as assessment tools recommended by the Hartford Institute of Geriatric Nursing **Leininger's Culture Care Diversity and Universality** Marilyn R. McFarland,Hiba B. Wehbe-Alamah,2015 Preceded by Culture care diversity and universality a worldwide nursing theory edited by Madeleine M Leininger Marilyn R McFarland 2nd ed c2006 *Chronic Disease Management* Jim Nuovo,2010-05-05 Primary care physicians and allied health professionals must learn how to efficiently and effectively provide care for patients with chronic diseases That is why the focus of this book is on optimizing management and outcomes rather than on routine diagnosis The reader learns proven methods for treating the most common chronic conditions that they see in daily practice Chapters are structured to help physicians quickly adopt evidence based management techniques specific for each condition such as the implementation of medication regimens Of particular benefit are office visit templates for providers The templates show what patient data should be collected and measured during each office visit Other innovative approaches including registry development group visits and shared medical appointments are detailed as well Special emphasis is placed on the use of action plans and educational resources for promoting patient self management **Cultural Competence in Sports Medicine** Lorin Cartwright,Rene Revis Shingles,2011 Cultural Competence in Sports Medicine provides comprehensive information regarding the cultural attitudes beliefs and expectations that health care professionals may encounter in working with athletes and how to modify their professional behavior accordingly
