**The PhD at the End of the World** Robyn Barnacle, Denise Cuthbert, 2021-03-02 This book addresses a world wide audience with reference to a global problem: how the PhD can serve the planet. It examines the role of the PhD in and of itself and as representative of research, the university and evidence based knowledge in relation to global crisis and the future of humanity. As such it speaks to the scholar, the teacher, the policy maker and the administrator concerned with the role of higher education's highest award at a time of great global crisis. The approach is critical in that it offers diverse views on these issues and does not seek to privilege one single school of thought. The collected articles span theoretical reflections on key issues through to case study examples of how PhDs are being deployed and re thought to address global issues.

*Transdisciplinary Research and Practice for Sustainability Outcomes* Dena Fam, Jane Palmer, Chris Riedy, Cynthia Mitchell, 2016-11-10 Transdisciplinarity is a form of research and practice that synthesises knowledge from a range of academic disciplines and from the community. There is now global interest and a significant body of work on transdisciplinarity and its potential to address the apparently intractable problems of society. This creates the opportunity for a specific focus on its practical application to sustainability issues. *Transdisciplinary Research and Practice for Sustainability Outcomes* examines the role of transdisciplinarity in the transformations needed for a sustainable world. After an historical overview of transdisciplinarity Part I focuses on tools and frameworks to achieve sustainability outcomes in practice and Part II consolidates work by a number of scholars on supporting transdisciplinary researchers and practitioners. Part III is a series of case studies including several international examples that demonstrate the challenges and rewards of transdisciplinary work. The concluding chapter proposes a future research pathway for understanding the human factors that underpin successful transdisciplinary research. As Emeritus Professor Valerie Brown AO notes in her Preface this book moves transdisciplinary inquiry into the academic and social mainstream. It will be of great interest to researchers and practitioners in the fields of sustainability, qualitative research methods, environmental impact assessment and development studies.

**Contemporary Thinking on Transdisciplinary Knowledge** Paul Gibbs, Alison Beavis, 2020-03-03 How can we understand what a transdisciplinary TD approach might

actually comprise of given its complex and various uses This book asks the question of leading practitioners in the field of higher education and transdisciplinarity The emergence of transdisciplinarity has been a response to the often failed closed system discipline based approaches to solving complex social problems various reports and definitions may be found in

projects reported by the OECD UNESCO and EU These failures are often contingent upon disaggregated notions of epistemology and the compounding failures of ontological incongruities that are evident in these discipline based approaches Such approaches are not necessarily confined to large seemingly insurmountable social problems but apply equally well to issues in educational institutions as workplaces Transdisciplinary knowledge is in the liberation of new and imaginative understanding of the structured reality of open social systems It gives rise to generative mechanisms which are central to relationships of agency and structure
