Transfiguration Stephen Cheeke, 2016 *Transfiguration* explores the work of John Ruskin Robert Browning Dante Gabriel Rossetti and Walter Pater treating in particular the ways in which they engaged with the Christian content of their subject and in Pater's case how the art of Christianity was contrasted with classical sculpture Stephen Cheeke examines two related phenomena idolatry a false substitution a sexual betrayal and the poetics of transfiguration to elevate or glorify subject matter not thought of as conventionally poetic to praise Central to the book is the question of the translation of religion into art and aesthetics a process which supposedly undergirds the advent of the museum age and makes possible the idea of a religion of art as a phenomenon of late century Aestheticism Such a phenomenon is prepared for however through the engagement with Christian painting and classical sculpture in the work of these four writers All four thought carefully about the ways in which a particular mimetic impulse of making live in artworks could be connected to religious experience This meant exploring the nature of the link between seeing and believing visualising in order to conceive to verify but also in the sense of being acted upon by the visible All four wrote about the great power of artworks to transfigure the objects of their attention In each case there emerges the possibility of a secret sexual knowledge hiding within or lying on the other side of the sensuous knowledge of aesthesis All four wondered whether this was inherently hostile to Christianity or whether it may finally be an accommodation within it **Voice of Masonry and Tidings from the Craft**, 1866 Patristic Perspectives

on Luke's Transfiguration Peter Anthony, 2022-04-21 Peter Anthony explores how visionary elements in Luke's Gospel had a particular influence on early interpretation of the Transfiguration by examining the rich hermeneutical traditions that emerged particularly in the Latin West as the Transfiguration was first depicted visually in art Anthony begins by comparing the visual and visionary culture of antiquity with that of the present and their differing interpretations of the Transfiguration He then examines the Transfiguration texts in the synoptic gospels and their interpretation in modern scholarship and the reception of the Transfiguration in 2 Peter the Apocalypse of Peter and the Acts of Peter Tertullian and Origen Proceeding to look at interpretations found in the Greek East and the Latin West Anthony finally discusses the earliest visual depictions of the Transfiguration from the sixth century onward drawn from a wealth of different art forms Anthony concludes that early commentators and artists understanding of how we see and visualise and therefore how the Transfiguration was apprehended is closer to that of the writers of the New Testament than many modern interpreters is The Transfiguration of the Commonplace Arthur C. In doing so, it illuminates the need to redefine the role of the human body as one of the protagonists for raising awareness of space-time issues through processing, experimentation, and application of histories and theories of embodied awareness of space. Critically revisiting these spatio-temporal dialogues, this book suggests a method of linking theory, history, and practice past, present, and future. The authors reinstate the significance of history and theory in creative thinking and test their applicability in a number of different areas: theoretical and buildable architectural projects, mapping and geography, representation and performative arts. This volume will appeal to students and scholars from architecture, art, cultural studies, landscape studies, media studies, and other disciplines in the humanities and social sciences.
