Ledgerwood, Victoria White, 2006-08-30 In response to a clear need by low income people to gain access to the full range of financial services including savings a growing number of microfinance NGOs are seeking guidelines to transform from credit focused microfinance organizations to regulated deposit taking financial intermediaries In response to this trend this book presents a practical how to manual for MFIs to develop the capacity to become licensed and regulated to mobilize deposits

from the public Transforming Microfinance Institutions provides guidelines for regulators to license and regulate microfinance providers and for transforming MFIs to meet the demands of two major new stakeholders regulators and shareholders As such it focuses on developing the capacity of NGO MFIs to mobilize and intermediate voluntary savings Drawing from worldwide experience it outlines how to manage the transformation process and address major strategic and operational issues inherent in transformation including competitive positioning business planning accessing capital and shareholders and how to transform the MFI s human resources financial management MIS internal controls and branch operations Case studies then provide examples of developing a new regulatory tier for microfinance and how a Ugandan NGO transformed to become a licensed financial intermediary This book will be invaluable to regulators and microfinance NGOs contemplating institutional transformation and will be of tremendous use to donors and technical support agencies supporting MFIs in their transformation

Managing Transformation J. Satyanarayana, 2012-02-11 Change is the law of life This precept holds for individuals and organizations alike Radical change called transformation is not so frequent Organizational transformation entails fundamental changes that encompass the entire gamut of the organization A successful transformation exercise begins with formulating a set of Objectives at the beginning and ends up with realizing the desired Outcomes This book delves deep into the intricacies of the life cycle of organizational transformation and explains how it can be managed effectively adopting a systematic and step by step methodology In this well researched text the author J Satyanarayana with his vast and varied experience in the field of management and governance gives a brilliant exposition of managing transformation The book postulates the O2O Objectives to Outcomes framework as a seven step methodology The methodology in a sense is a meta framework for transformation It harmonizes and synthesizes altogether 40 sub frameworks which include some well known concepts such as Porter s Value Chain Framework Kaplan and Norton s Balanced Scorecard and Hammer s BPR framework The author illustrates the O2O framework through a Case Study on Passport Seva Project designed by him and being implemented all over India to transform the quality of passport related services provided to the citizens This text with its blend of theory and practice would prove extremely valuable to the students of management and commerce It should also be a valuable reference book to the administrators and management consultants

KEY FEATURES By expounding the O2O methodology the book addresses the managerial requirements of conceptualizing designing and implementing major transformation projects Focuses on the four principal dimensions of transformation namely Process People Technology and Business Model while explaining the major concepts Interspersed with plenty of examples to illustrate the concepts Includes chapter end review questions to drill the students in self study

A Nation Transformed by Information Alfred D. Chandler Jr., James W. Cortada, 2000-08-10 This book makes the startling case that North Americans were getting on the information highway as early as the 1700 s and have been using it as a critical building block of their social economic and political world ever since By the time of the founding of the United States there was a postal system and

roads for the distribution of mail copyright laws to protect intellectual property and newspapers books and broadsides to bring information to a populace that was building a nation on the basis of an informed electorate In the 19th century Americans developed the telegraph telephone and motion pictures inventions that further expanded the reach of information In the 20th century they added television computers and the Internet ultimately connecting themselves to a whole world of information From the beginning North Americans were willing to invest in the infrastructure to make such connectivity possible This book explores what the deployment of these technologies says about American society The editors assembled a group of contributors who are experts in their particular fields and worked with them to create a book that is fully integrated and cross referenced
