*Development Effectiveness Review 2012 Report* Asian Development Bank,2013-04-01 The 2012 Development Effectiveness Review DEfR is the sixth annual corporate performance report of the Asian Development Bank ADB The review found that the development effectiveness review process introduced in 2008 has successfully propagated a results culture across ADB This has led to improved performance in most areas of the results framework measuring ADB s operational and organizational effectiveness As a result ADB has been able to meet an increasing proportion of its targets It has also expanded ADB s contributions to development outcomes in the region Compared with 2008 the report s findings include ADB operations are more focused on Strategy 2020 priorities including gender mainstreaming the quality at entry QAE of country partnership strategies and sovereign operations is consistently high and the QAE of nonsovereign operations has improved significantly project start up is more efficient cofinancing has increased considerably ADB coordinates more closely with other development partners and shares knowledge more effectively ADB has more staff to support operations and almost half of them work in resident missions to increase responsiveness to clients resident missions are more empowered ADB staff are more engaged and motivated and the gender balance at ADB has improved significantly The DEfR also highlighted areas requiring further improvement Actions to strengthen project readiness and implementation supervision need reinforcing to

raise project success and outcome achievement rates two of the areas where performance improved but targets were not reached **Myanmar** International Monetary Fund. Asia and Pacific Dept,2017-02-02 This 2016 Article IV Consultation highlights that Myanmar's economy grew broadly as expected in FY2015/16 at a healthy pace of 7.3 percent despite massive floods during July-September 2015. Activity softened during the first half of FY2016/17 but is expected to recover in the second half on account of the resumption of construction in Yangon after a temporary halt for regulatory compliance purposes. The growth of agricultural production was softer than expected. The external environment has been weak owing to slowing demand from major trading partners and significant natural gas and other commodity price declines in 2015 and 2016. Macroeconomic imbalances persist with continuing inflation pressure, an increased fiscal deficit and a widening external current account deficit **Postal Service Budget Review for 1979** United States. *Timor-Leste Transport Operations* Asian Development Bank,2018-11-01 This publication examines the development assistance of the Asian Development Bank since Timor-Leste gained independence in 2002. Milestones in nation building and activities of development partners from around Asia and the Pacific are chronicled. Timor-Leste's prospects hinge on prudent and effective use of the savings from petroleum production to finance investments in the physical capital, human capital and institutions needed to develop a sustainable economy **Pakistan** International Monetary Fund. Middle East and Central Asia Dept.,2013-09-12 This paper highlights Pakistan's 2013 Article IV Consultation and Request for an Extended Arrangement Under the Extended Fund Facility. Discussions in the IMF report focus on macroeconomic policies to address vulnerabilities and reforms to promote robust inclusive growth. The authorities' ambitious economic program aims to reverse the current mix of large fiscal deficits and accommodative monetary policy and low reserve coverage which provides few buffers to absorb shocks. The authorities have requested a 36-month extended arrangement under the Extended Fund Facility (EFF) for SDR 4.393 billion **Evolution of International Aviation** Dawna L. Rhoades,2016-04-15 The purpose of this book is twofold. First, it lays out the forces that shaped the international aviation industry and that changed all the rules in the drive for liberalization. Second, it looks at the many interesting and difficult choices ahead that the airline industry in general and the international aviation industry in particular face. These choices include many dichotomies: pulling back from the trend toward liberalization or embracing the liberalization trend; merging in search of profitability or fragmenting the industry in search of economies. These possible futures are explored, including the pros and cons of each future from a national consumer, employer and employee perspective. As with the previous two editions, *Evolution of International Aviation* reviews the historical development of the international aviation system. From this foundation, it then provides an updated and expanded account of the current state of the aviation and aerospace industry, including profitability, consolidation and merger activity. New to this edition, the book broadens the coverage of the industry segments: airlines, air cargo and manufacturing to include

the emerging commercial space sector It also emphasizes the relationship between aviation and the political process exploring the sustainability of this mode of transportation in a world of climate change high oil prices and political instability Because this book is intended for both the interested amateur and the more serious student references are provided in the text and at the end of each chapter to allow for further in depth study The third edition also adds to each chapter a set of learning objectives and a concluding series of questions for discussion

Landslides and Engineered Slopes. Experience, Theory and Practice Stefano Aversa,Leonardo Cascini,Luciano Picarelli,Claudio Scavia,2018-04-17 Landslides

and Engineered Slopes Experience Theory and Practice contains the invited lectures and all papers presented at the 12th International Symposium on Landslides Naples Italy 12-19 June 2016. The book aims to emphasize the relationship between landslides and other natural hazards. Hence three of the main sessions focus on Volcanic induced landslides, Earthquake induced landslides and Weather induced landslides respectively, while the fourth main session deals with Human induced landslides. Some papers presented in a special session devoted to Subaerial and submarine landslide processes and hazard and in a Young Session complete the book. Landslides and Engineered Slopes Experience Theory and Practice underlines the importance of the classic approach of modern science which moves from experience to theory as the basic instrument to study landslides. Experience is the key to understand the natural phenomena, focusing on all the factors that play a major role. Theory is the instrument to manage the data provided by experience following a mathematical approach; this allows not only to clarify the nature and the deep causes of phenomena but mostly to predict future and if required manage similar events. Practical benefits from the results of theory to protect people and man-made works. Landslides and Engineered Slopes Experience Theory and Practice is useful to scientists and practitioners working in the areas of rock and soil mechanics, geotechnical engineering, engineering geology and geology.
