**The Erotic Margin** Irvin C. Schick, 2020-05-05 Gender and sexuality have long held an important place in western attitudes towards the people and regions of the world from the titillating accounts of harem life in the Middle East to terrifying captivity narratives of North America The Erotic Margin is a first attempt to pull together the large disparate and often contradictory literature and view it as a corpus Schick argues that such images served to construct spatial difference and thereby helped Europe represent its own place in the world during an age of rapid geographical expansion Informed by the recent literature on human geography as well as feminist and postcolonial theory The Erotic Margin focuses on erotica and sexual anthropology as well as travel literature in which from the eighteenth century on both traveler and destination were portrayed in unmistakably gendered and sexualized terms Reviewing examples ranging from the New World to India the Near East to black Africa and the South sea islands to the Barbary Coast the book reflects on why foreign women were variously portrayed as alluring or threatening foreign men as effeminate weaklings or dangerous rapists and foreign lands as sexual idylls or hearts of darkness

new port city of Yokohama where he remained for the next fourteen years. There, as a merchant trading with foreigners in the aftermath of Japan's 1853 opening to the West, he witnessed the collapse of the Tokugawa shogunate, the civil war that followed, and the Meiji Restoration's reforms. *The Merchant's Tale* looks through Ch'emon's eyes at the upheavals of this period. In a narrative history rich in colorful detail, Simon Partner uses the story of an ordinary merchant farmer and its Yokohama setting as a vantage point onto sweeping social transformation and its unwitting agents. Ch'emon, like most newcomers to Yokohama, came in search of economic opportunity. His story sheds light on vital issues in Japan's modern history, including the legacies of the Meiji Restoration, the East Asian treaty port system, and the importance of everyday life: food, clothing, medicine, and hygiene for national identity. Centered on an individual, *The Merchant's Tale* is also the story of a place. Created under pressure from aggressive foreign powers, Yokohama was the scene of gunboat diplomacy, a connection to global markets, the birthplace of new lifestyles, and the beachhead of Japan's modernization. Partner's history of a vibrant meeting place humanizes the story of Japan's revolutionary 1860s and their profound consequences for Japanese society and culture.

**Music, Travel, and Imperial Encounter in 19th-Century France** Ruth Rosenberg, 2014-09-19. This book considers the activities and writings of early song collectors and proto ethnomusicologists, memoirists, and other musical travelers in 19th-century France. Each of the book's discrete but interrelated chapters is devoted to a different geographic and discursive site of empire, examining French representations of musical encounters in North America, the Middle East, as well as in contested areas within the borders of metropolitan France. Rosenberg highlights intersections between an emergent *ethnographie musicale* in France and narratives of musical encounter found in French travel literature, connecting both phenomena to France's imperial aspirations and nationalist anxieties in the period from the Revolution to the late nineteenth century. It is therefore an excellent research tool for scholars in the fields of ethnomusicology, musicology, cultural studies, literary history, and postcolonial studies.

**Traditions of East Asian Travel** Joshua A. Fogel, 2005-12-01. Although the topic of travel and travel writing by Chinese and Japanese writers has recently begun to attract more interest among scholars in the West, it remains largely virgin terrain with vast tracts awaiting scholarly examination. This book offers insights into how East Asians traveled in the early modern and modern periods, what they looked for, what they felt comfortable finding, and the ways in which they wrote up their impressions of these experiences.
