CRREL Report ,1990 Optical Interferograms - Reduction and Interpretation Arthur Henry Guenther,1978

Climatic Chamber Tests of a Surface Ice Accretion Measurement System Paul Tattelman,1979 Climatic chamber tests of an off the shelf ice detection system manufactured by Rosemount Engineering Company were conducted to evaluate its capability to determine ice amounts measured on cylinders One hour tests were run for a variety of windspeeds temperatures and icing conditions Some longer duration tests up to 17 hours were also performed Analysis of the data indicates that the Rosemount system is highly correlated with the mass of ice measured on the cylinders when the data are divided into freezing rain and rime icing events The Rosemount system is also highly correlated with ice thickness but without the pronounced dependence upon the type of icing In the light of positive test results a method is proposed for utilizing the Rosemount system for observing ice accretion at the earth s surface Author **Fracture Behavior of Ice in Charpy**

Impact Testing Kazuhiko Itagaki,1980 **Oil and Wilderness in Alaska** George J. Busenberg,2013-10-01 Colliding environmental and development interests have shaped national policy reforms supporting both oil development and environmental protection in Alaska Oil and Wilderness in Alaska examines three significant national policy reform efforts that came out of these conflicts the development of the Trans Alaska pipeline the establishment of a vast system of protected natural areas through the Alaska National Interest Lands Conservation Act and the reform of the environmental management of the marine oil trade in Alaska to reduce the risk of oil pollution after the Exxon Valdez disaster Illuminating the delicate balance and give and take between environmental and commercial interests as well as larger issues shaping policy reforms Busenberg applies a theoretical framework to examine the processes and consequences of these reforms at the state national and international levels The author examines the enduring institutional legacies and policy consequences of each reform period their consequences for environmental protection and the national and international repercussions of reform efforts The author concludes by describing the continuing policy conflicts concerning oil development and nature conservation in Alaska left unresolved by these reforms Rich case descriptions illustrate the author s points and make this book an essential resource for professors and students interested in policies concerning Alaska the Arctic oil development nature conservation marine oil spills the policy process and policy theory **Ice and Construction** L.
