Traumatismes Et Histoire Des Enjeux Aux Pratiques:

Femmes à l'épreuve de la colonisation et des indépendances Danielle Ohana, Nicole Lucas, 2023-04-24T00:00:00+02:00
Le récit de la colonisation française et des indépendances a longtemps fait essentiellement référence aux hommes. La moitié féminine de l'humanité semble tonnamment absente sauf dans ses dimensions exotiques ou sensuelles. Pourtant les femmes ont accompagné dans un silence accepté ou contraint les vicissitudes politiques, sociales, culturelles du monde colonial et postcolonial. Depuis une trentaine d'années anonymes ou connues, elles sortent des oubliettes de l'histoire. L'abécdaire thématique qui structure ce volume se veut le juste révélateur des rôles déterminants qu'elles ont joués de leurs destins intimes et particuliers dans un univers en pleine effervescence. Les multiples entrées connectées révèlent leur liberté, leur dynamisme. Les rendre visibles, les nommer, c'est leur redonner vie et dignité.

Françaises à l'ombre du pouvoir politique Nicole Lucas, 2024-08-01T00:00:00+02:00
Comment révéler et traduire la lente, chaotique mais irrésistible ascension des Françaises à l'ombre du pouvoir politique. Cet accès à la lumière se comprend travers le récit de leurs engagements individuels et collectifs qui leur ont fait prendre conscience de la place juste et essentielle qu'elles devaient saisir puis occuper aux côtés des hommes en assumant des responsabilités sociales et civiques. Elles ont longtemps subi des contraintes du monde pris de l'incompréhension qu'elles ont transcendé en se rebellant avec discrétion ou violence contre leur exclusion jusqu'à l'habitude. Par la parole publique, l'écriture, la participation à l'éducation, la création de réseaux, ces citoyennes ont tabli travers les vicissitudes politiques de petits fortins ou de grandes citadelles. Cet essai nourri de leurs vivants portraits rend un hommage mérité à toutes celles pionnières, premières conquérantes connues ou injustement ignorées qui ont choisi de partager avec les hommes des pouvoirs qui leur étaient interdits jusqu'en 1945 pour trouver et donner enfin un sens à leurs vies.

Traumatismes et Histoire Nicole Lucas, Vincent Marie, 2013

Il trauma di Caporetto AA.VV., 2018-11-16
La battaglia di Caporetto 24 ottobre 9 novembre 1917 ha rappresentato un trauma nella storia italiana del Novecento. Ancor oggi nel linguaggio comune la parola Caporetto sinonimo di disastro. In quella battaglia i soldati della 2a Armata vengono respinti dagli austriaci e dai tedeschi al di qua dell'Isonzo e del Tagliamento fino al Piave mentre i Comandi militari li accusano di diserzione e tradimento. Cento anni dopo questo volume affronta in un'ottica pluridisciplinare e interdisciplinare e alla luce della nozione di trauma gli aspetti storici, politici e militari della disfatta. Esso fa largo spazio anche alle testimonianze dei soldati, scrittori la cui esperienza di quei giorni acquista senso se inserita in una dimensione collettiva e storica. Le stratificazioni temporali relative tanto alla lettura storiografica militare e politica quanto agli scritti memoriali e letterari costituiscono un fattore importante per la riappropriazione di un evento che tocca la storia e l'identità italiane. Nel processo di rievocazione del trauma la rappresentazione dello choc subìto tiene conto sia dell'immediatezza del vissuto che della simbolizzazione retrospettiva. Questo volume intende allora studiare i meccanismi attraverso i quali il ricordo del trauma di Caporetto prende forma nel linguaggio autobiografico o finzionale inteso anche come espressione terapeutica e luogo della resilienza.

Second-Class

Citizenship Eric Mutabazi, Nathanaël Wallenhorst, 2025-05-02 A number of features of the contemporary period are preventing people from exercising their citizenship the acceleration and permanent change in the conditions shaping habitability of planet Earth the digital and techno scientific revolution the rise of religious and political radicalisation the explosion of social inequalities the hegemony of the economic drive to maximise individual interests etc For many individuals citizenship appears to be prevented at the first hurdle What is more though officially or legally it is not possible to speak of second class citizenship so what can be done when the actors themselves use such terminology There is something essential here which must be taken into account as a basis for thinking about the social its inequalities and its injustices The authors of this book propose the notion of second class citizenship as a way of thinking about the scale of contemporary social and political inequalities In view of this observation the contributors outline a movement based on the conviction that education is the repository of the power to prepare for the future How can we learn to build a shared world together and overcome the obstacles that prevent us from doing so How can we learn new habits of relationships marked by responsibility and hospitality The collective reflection in this book lends credence to the way in which players talk about their experience even experiencing differences in their ability to participate in the mechanisms of power This book presents empirical studies and conceptual tools for thinking about the impact of economic factors on the ways in which citizens participate in the decisions of power This book is particularly suited for educators as well as policy makers and researchers Social Anthropology in the Arab World Abdullah Alajmi, Daniele Cantini, Irene Maffi, Imed Melliti, 2025-08-01

There are ongoing efforts in anthropology to decolonise its history and give fairer space to marginalised traditions This book examines the history and institutionalisation of anthropology in the Maghreb the Mashreq and the Gulf in an open and collaborative manner and from various perspectives Its primary focus is two fold first to reorient the anthropological focus towards studies conducted in the region particularly on the conditions conducive to the institutionalisation of anthropological knowledge second to shed light on anthropological studies in languages other than English offering different theoretical and epistemological perspectives

L'Empire du traumatisme. Enquête sur la condition de victime Didier Fassin, Richard Rechtman, 2024-10-30T00:00:00+01:00 Depuis la fin du XX^e siècle le traumatisme s'est imposé comme un mode dominant d'interprétation du malheur et de reconnaissance des victimes qu'il s'agisse d'attentats ou d'accidents de violences physiques ou d'abus sexuels de massacres de populations ou de catastrophes environnementales Pourtant il avait longtemps servi à disqualifier les soldats commotionnés et les ouvriers blessés dont l'authenticité de la souffrance était mise en doute Si la psychiatrie contemporaine appuyée par des mobilisations sociales a mis un terme à cette suspicion en établissant une catégorie clinique légitime la notion de traumatisme s'est déployée dans l'ensemble du monde social s'inscrivant dans des rapports de pouvoir et des enjeux de justice qui peuvent occulter des inégalités et produire des hiérarchies d'humanité De la victimologie psychiatrique après l'explosion de l'usine AZF Toulouse la psychiatrie humanitaire en Palestine durant la seconde Intifada en passant par la psycho-traumatologie de l'exil auprès des demandeurs d'asile cet essai explore trois lieux trois formes d'intervention pour mettre au jour l'économie morale et les usages politiques du traumatisme Ce faisant il met en lumière la

The Politics of Aid to Burma Anne Decobert, 2015-11-19

For over sixty years conflict between state forces and armed ethnic groups was ongoing in parts of the borderlands of Burma Ethnic minority communities were subjected to systematic and widespread abuses by an increasingly complex patchwork of armed state and non state actors Populations in more remote and disputed border areas typically had little to no access to even basic healthcare and education services As part of its counter insurgency campaign the military state also historically restricted international humanitarian access to civilian populations in unstable border areas It was in this context that cross border aid to Burma had developed as an alternative mechanism for channelling assistance to populations denied aid through more conventional systems Yet by the late 2000s national and international changes had significant impacts on an aid debate which had important political and ethical implications Through an ethnographic study of a cross border aid organisation working on the Thailand Burma border this book focuses on the political and ethical dilemmas of humanitarian government It explores the ways in which aid systems come to be defined as legitimate or illegitimate humanitarian or un humanitarian in an international context that has witnessed the multiplication of often conflicting humanitarian systems and models It examines how an embodied history of violence can shape the worldviews and actions of local humanitarian actors as well as institutions created to mitigate human suffering It goes on to look at the complex and often invisible webs of local organisations international NGOs donors armed groups and other actors which can develop in a cross border and extra legal context a context where competing constructions of systems as legitimate or illegitimate are highlighted Exploring the history of humanitarianism from the local aid perspective of Burma this book will be of interest to students and scholars of Southeast Asian Studies Anthropology of Humanitarian Aid and Development Studies
