Garrett,1985 *The Treasure Hunter's Manual* #7 Karl Von Mueller,Charles Dean Miller,1979-01-01 *The Modern Treasure Finder's Manual* George Sullivan,1975 **The Successful Treasure Hunter's Secret Manual** David Villanueva,2017-01-07 DON T MISS THIS FANTASTIC OPPORTUNITY TO FIND A FORTUNE DAVID VILLANUEVA SHOWS HOW ANYONE CAN USE MODERN CAMERAS TO QUICKLY AND EASILY LOCATE BURIED AND HIDDEN TREASURE FROM A DISTANCE There is nothing new about the discovery that buried metals give off an aura that can be captured by certain cameras Louis J Matacia promoted a certain Polaroid camera for years as a major tool for finding treasure which was great I found treasure myself using just such a tool The problem now is that the camera is obsolete although still readily available on the previously enjoyed market and competition from digital cameras forced Polaroid to stop making the film in 2005 So was that the end of using auras to locate buried treasure Not at all I set about trying to find a solution and came up with two The first that I am going to tell you about is that owing to some enterprising former managers Polaroid film is available again The second solution that I will be describing in great detail is wait for it YOU CAN CAPTURE TREASURE AURAS WITH DIGITAL CAMERAS Not collector s items like the Polaroid mind you but more recent models that you can buy almost anywhere tomorrow And the digital camera works brilliantly Auras can be obtained on gold down to a quarter of an ounce or less that s a single coin or nugget The camera can even discriminate between different metals all from a distance and can be used anytime during daylight hours By definition instruments that can reveal hidden treasure from a distance are long range locators But I won t be talking about expensive commercial long range locators that in use can be like searching a coal bunker in the middle of the night trying to find a black cat that isn t there This is long range location at its best showing you precisely where treasure is hidden You really can see the color of the money providing it is metallic or contained in metal and what s more you can get started for much less than the cost of a commercial long range locator less than 100 at present you may even already have most everything you need Treasure auras are simply the appliance of science so you don t need any special gift to use these cameras there is none of this hairy fairy stuff about ordinary instruments producing extraordinary results in the hands of someone with psychic awareness Hands on is not even needed hands off is actually better And clearly you have absolute discretion with this approach you can take a camera almost anywhere and no one will have any idea that you are not just taking snapshots Of course you are not going to be able to buy a camera off the shelf and start taking photographs of treasure auras if cameras naturally photographed auras most folks would take them back to the store complaining about the photo quality So you are going to need to do a few modifications But don t worry it is not rocket science everything you need

either plugs in screws in or sticks on and all will be clearly explained So for your modest investment in this manual and possibly some reasonable expenditure on equipment you will have the finest opportunity to find millions in buried and hidden wealth This is a new revised and expanded edition for 2017 although most of the essential information is unchanged from the original 2009 edition **Gold Panner's Manual** Garnet Basque,1991 Gold Of all the words in the English language surely this must be the most magic of all Garnet Basque has compiled a fascinating factual and comprehensive history of gold complete with details of how to search for and find nuggets and placer lodes perhaps even the fabled motherlode A concise well written guide that has sold more than 140 000 copies this book is well illustrated with photographs and drawings demonstrating the art of panning and gold mining equipment *The Complete Guide to Treasure Hunting* Norman Carlisle, David Michelsohn ,1973 *The Complete Academic Search Manual* Lauren A.
