Barton-Bellessa,2012-05 In response to recognition in the late 1960s and early 1970s that traditional incarceration was not working alternatives to standard prison settings were sought and developed One of those alternatives community based corrections had been conceived in the 1950s as a system that might prove more progressive humane and effective particularly with people who had committed less serious criminal offenses and for whom incarceration with constant

exposure to serious offenders and career criminals might prove more damaging than rehabilitative The alternative of community corrections has evolved to become a substantial part of the criminal justice and correctional system spurred in recent years not so much by a progressive humane philosophy as by dramatically increasing prison populations court orders to fix overextended prison settings and an economic search for cost savings Encyclopedia of Community Corrections explores all aspects of community corrections from its philosophical foundation to its current inception Features a thematic reader s guide in the front matter groups entries by broad topical or thematic areas to make it easy for users to find related entries at a glance a chronology in the back matter helps students put individual events into broader historical context a glossary provides students with concise definitions to key terms in the field a resource guide to classic books journals and web sites along with the further readings accompanying each entry guides students to further resources in their research journeys and appendix offers statistics from the Bureau of Justice Gabbard's Treatments of Psychiatric Disorders Glen O.
