MARKING GUIDELINES

ACCOUNTING

(PAPER 1)

12 pages

MARKING PRINCIPLES:

1. Unless otherwise stated in the marking guidelines, penalties for foreign items are applied only if the candidate is not losing marks elsewhere in the question for that item (no penalty for misplaced item). No double penalty applied.
2. Penalties for placement or poor presentation (e.g. details) are applied only if the candidate is earning marks on the figures for that item.
3. Unless otherwise stated, give full marks for correct answer. If answer is incorrect, mark workings.
4. If a pre-adjustment figure is shown as a final figure, allocate the part-mark for the working for that figure (not the method mark for the answer). Note: if figures are stipulated in memo for components of workings, these do not carry the method mark for final answer as well.
5. Unless otherwise indicated, the positive or negative effect of any figure must be considered to award the mark. If no + or – sign or bracket is provided, assume that the figure is positive.
6. Where indicated, part-marks may be awarded to differentiate between differing qualities of answers from candidates.
7. If candidates provide more than the required number of responses, inspect all responses to give benefit to the candidate. Penalties may be applied for foreign entries if candidates earn full marks on a question (max. -2 per Q).
8. Where penalties are applied, the marks for that section of the question cannot be a final negative.
9. Where method marks are awarded for operation, marker must inspect reasonableness of the answer.
10. Operation means 'check operation'. 'One part correct' means operation and one part correct. Note: check operation must be +, -, x, ÷, or per memo.
11. In calculations, do not award marks for workings if numerator & denominator are swapped – this also applies to ratios.
12. In awarding method marks, ensure that candidates do not get full marks for any item that is incorrect at least in part. Indicate with a □.
13. Be aware of candidates who provide valid alternatives beyond the marking guideline. Note that one comment could contain different aspects.
14. Codes: f = foreign item; p = placement/presentation.

Climate Change, Food Security and Natural Resource Management Mohamed Behnassi, Olaf Pollmann, Himangana Gupta, 2018-11-15 This book contributes to the on going debates on climate change by focusing on the SDGs and exploring linkages between environmental change and food security as well as the relevance and need to consider the management of natural resources especially water soil and forest Compared to relevant existing publications this book covers case studies that capture the everyday realities of the local people and how they react and adapt to similar situations in different geographical settings Each case study presented in this book gives a particular message The strength of this book lies in the fact that it covers the most neglected topics in climate negotiations in spite of the fact that these decide the fate of millions of people around the world especially the developing countries By presenting a collection of case studies from Africa Asia and Europe this book encourages cross continental knowledge sharing The scope of the book ranges from impacts to mitigation and from in field experiments to policy implementation It contributes to the existing knowledge on climate food nexus and connects climate change to sectors it could impact directly All chapters in this book emphasise local ownership of strategy processes effective participation from all levels and high level commitment Besides being relevant for the academicians and scholars working in the field of climate change forest and agriculture it aims to catch interest of the policy makers and practitioners to understand ground realities for appropriate action It is also bound to make an impact on the Non Governmental Organizations around the world and in the three different continents that this book covers considering the

indigenous and local issues highlighted in this book *Business, Peacebuilding, and Regulation* Sean Molloy, 2024-08-26

This book examines the relationship between business based peacebuilding and the opportunities that emerge from the pluralisation of regulation. The core message is notwithstanding the broad range of regulatory initiatives and actors that exist in conflict affected settings the state should assume responsibilities for defining the types of contribution that business can and ought to make to peace. It also demonstrates how the state through different forms and methods of regulation is well placed to engage businesses to do so. It is particularly concerned with the potential for regulation to help address what is identified as a state of optimistic uncertainty in the field of business and peacebuilding. On one level there is a sense of optimism around the types of contributions that businesses can and often do make as agents for peace. On another there are varying degrees of uncertainty surrounding the actual peacebuilding impacts of business activities how businesses are to understand the ways in which to make these contributions and why businesses would do so. Regulation this book will argue can play an important role in bridging the chasm between optimism and uncertainty. This book will be of interest to those engaged not only with business and peacebuilding but also business and human rights business and development and business and the environment. Moreover this book is also of contemporary interest in other ways the aftermath of the Ukrainian conflict as an example will require a concerted effort to rebuild that society after war. Private sector actors could be a powerful vehicle for reconstruction and development and this book examines how regulation can be used to facilitate businesses involvement in peacebuilding efforts.

The Role of Crises in Shaping Financial Systems Małgorzata Iwanicz-Drozdowska, Elżbieta Malinowska-Misiąg, Piotr Mielus, Paweł Smaga, Bartosz Witkowski, 2022-10-18. The Role of Crises in Shaping Financial Systems. From the Global Financial Crisis to COVID 19 underscores the role of crises as turning points for the financial sector and its interactions with the real economy. It sheds new light on the financial industry through the lens of three recent crises the global financial crisis the sovereign debt crisis and the COVID 19 pandemic. The book provides in depth insight into the financial systems in European Economic Area countries accentuating the role of crises in shaping the condition and development of the financial arena. The authors pay special attention to the differences between old and new Europe i.e. countries that joined the EU in 2004 or later. It explores the implications of recent turbulences for financial institutions financial markets and public finance and their relationship with the economy. The book examines low or negative interest rates non standard monetary policy fiscal stimulus dense safety nets regulatory inflation weak profitability of the financial sector and the sovereign bank nexus. Post crisis developments are assessed comprehensively and empirically from both macro and microeconomic perspectives to help readers understand the nature of policy measures and their socio economic implications. The authors outline their predictions for the future of financial systems focusing on the structural changes and legacy of the COVID 19 crisis and global financial interlinkages. The book adopts both theoretical and practical approaches to explore the key issues and as such will appeal to academics and students of financial economics and

international finance as well as policymakers and financial regulators *Ecological Restoration Law* Afshin Akhtar-Khavari, Benjamin J. Richardson, 2019-01-25 Ecological restoration is as essential as sustainable development for the health of the biosphere Restoration however has been a low priority of most countries environmental laws which tend to focus narrowly on rehabilitation of small discrete sites rather than the more ambitious recovery of entire ecosystems and landscapes Through critical theoretical perspectives and topical case studies this book s diverse contributors explore a more ambitious agenda for ecological restoration law Not only do they investigate current laws and other governance mechanisms they also consider the philosophical and methodological bases for the law to take ecological restoration more seriously Through exploration of themes relating to time space geography semiotics social justice and scientific knowledge this book offers innovative and critical insights into ecological restoration law *Informal Sector Innovations* Mammo Muchie, Saradindu Bhaduri, Angathevar Baskaran, Fayaz Sheikh, 2017-10-02 It is well documented that the space of informal economic activity is rising across the globe This rise has been particularly significant in the least developed and developing countries especially after the onset of neo liberal policies and withdrawal of welfare state There has also been a shift in academic thinking on informal sector with attempts being made to understand the contribution of informal sector in generating employment and economic growth rather than focusing solely on exploitative labour conditions in these economic activities Indeed with the retreat of welfare state and the introduction of contract labour in the formal sector many issues related to occupational hazards and improper labour conditions do not remain unique to the informal sectors of the economy particularly in less developed countries This volume addresses a specific concern the issue of knowledge generation and innovative activities which lies at the core of sustained competitive advantage of these activities The chapters in this book were originally published in the African Journal of Science Technology Innovation and Development **Smart Cities, Energy and Climate** Oleg Golubchikov, Komali Yenneti, 2024-07-10 Collective insight of key thought leaders in the field to clarify and reshape the vision of smart cities Smart Cities Energy and Climate Governing Cities for a Low Carbon Future is a seminal work that draws together representative insights and case studies on post carbon urbanism across a variety of fields from smart energy grids to active buildings sustainable mobility and urban design Another objective is to foster an understanding of how digitally enhanced smart city solutions can assist energy transitions and what new developments and challenges they bring in areas ranging from urban governance to energy security Key topics covered in this book include Recent developments in urban planning building design and smart technologies Urban scale digital platforms and innovation for clean energy systems energy efficiency and net zero policies Socio technical and political relationships in climate neutral cities and smart cities Context rich situated perspectives from Europe Africa and Asia Cities Energy and Climate Governing Cities for a Low Carbon Future serves as a primary reference for scholars students and policy makers interested in the conceptual technical economic and political challenges associated with the transition towards a smart and sustainable urban
