Southam-Gerow, 2019-05-28 Exposure therapy is highly effective for treating anxiety disorders in children and adolescents yet implementation with youth and their parents entails unique challenges Packed with clinical examples this concise book provides practical developmentally savvy guidelines for conducting therapeutic exposure with 5 to 18 year olds At each stage of the process it addresses clinicians most common questions and concerns Coverage includes how to build a strong initial assessment develop a fear ladder individualize exposure exercises for different problem areas including phobia social anxiety worry separation anxiety and panic and monitor progress Also discussed is when and how to integrate exposure with relaxation and cognitive strategies *The 18th Variation* John van den Berg, 2015-05-09 Based on real events in South Africa When Anneke Mouton is left for dead after a sadistic sexual assault her art teacher Karl Ryneveld becomes the prime suspect He is out on bail after all awaiting trial for sexually molesting two of Anneke's schoolmates The people of his town are already suspicious about Karl's free thinking liberalism and when the police search his house they find a stash of photos and a painting of Anneke all of them showing the 18 year old blonde in the nude Karl manages to evade the police and the following day his abandoned car is found at the Berg River with a suicide note The police investigation grinds to a halt but Karl's daughter Roxana cannot believe that her father was a murderer Nor does Sean Dumont who writes an unfinished memoir about Karl Years later Sean Roxy and the author roll back in town and Karl's infamous painting of Anneke is seen with a fresh set of eyes Unexpectedly the truth is uncovered
