

Using your VAX as a vacuum cleaner

assembly

Place the dust bag in the recovery bucket, sliding the connector into the top edge of the bag.

Fit the filter into the hole in the recovery bucket, pushing a quarter turn clockwise to lock it in place.

Place the circular mounted filter into the top of the recovery bucket, with the filter face pointing downwards, making sure it fits snugly.

Fit the motor unit on top of the filter, and lock it quickly onto the opening clip by pressing down firmly on the thumb-ridge.

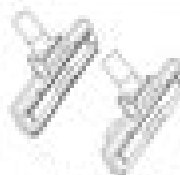

Now connect the suction control cable to the hose and use the opening clip on your device. Plug it into the motor unit. The red push button on the front of the handle will glow. Switch on.

The suction regulator goes on the hose grip where you'll adjust suction.
