Inclusive Physical Activity

A Lifetime of Opportunities provides practitioners with practical strategies and hands on applications for physical activity programming to include all people

In doing so it bridges the gap between school based and community based programs to help people with differences in ability become and remain physically active throughout their lives

This book has many unique features in addition to the life span approach

The authors use an ability based noncategorical approach that is on the cutting edge

This book prepares practitioners to do the following

- Prepare and plan individualized physical activity programs for four major content areas movement skills and sports games design health related fitness and adventure and outdoor recreation
- Develop strategies and techniques to increase awareness of varying abilities foster more positive attitudes of peers and increase advocacy efforts aimed at inclusive physical activity
- Overcome barriers associated with inclusive programming

Throughout the authors emphasize how to modify instruction and provide activity alternatives for differing abilities via their FAMME functional approach to modifying movement experiences model

This unique model provides a conceptual framework and a four step process for accommodating all participants in physical activity

Assessment considerations across the life span are integrated in the planning process and each skill component such as eye hand coordination strength attention span is presented in chart form with information on influencing factors and a number of effective modifications to accommodate
