

## **GENERAL POLICY <4.1>>**

*Connor Winfield Corp. is committed to establish, document, implement and maintain a quality management system, and continually improve its effectiveness, in conformance with requirements of ISO 9000 (2008) International Standard. The scope of the quality management system includes all crystal, thick-film and PCB based frequency control device design and manufacturing operations, and custom manufacturing services at our Aurora, IL facilities.*

## **PROCEDURAL POLICIES**

### **1. Quality system processes <4.1.a, 4.1.b, 4.1.c>**

- 1.1 Processes needed for the quality management system are identified in this quality manual and in associated operational procedures and work instructions. The documentation defines these quality system processes and their sequence and interaction, and instructs on how to implement and apply them throughout the organization.
- 1.2 Quality system documentation also defines criteria and methods needed to ensure that the operation and control of quality system processes are effective. This usually includes assignment of responsibilities and allocation of resources for the process, instructions on how to carry out (or operate) the process, and definition of methods for monitoring and/or measuring the effectiveness of the process.
- 1.3 Operational Procedure 04-02-01, Document Control, explains in more detail how quality system processes are defined and documented.

### **2. Resources and information <4.1.d>**

- 2.1 The Quality Assurance Manager is responsible for determining resource and information requirements necessary to support the operation and monitoring of quality system processes, and for communicating these requirements to the top management. The top management is responsible for ensuring the availability of necessary resources and information. Section 6.1 of this quality manual, Provision of Resources,

can be prevented with an efficient and verifiable quality control program Authored by a 20 year *ISO 9001:2000 for Small Businesses* Ray Tricker,2005 Small and medium sized companies face many challenges today including the demand by larger customers for ISO 9000 compliance Four years into the current version of ISO 9000 the new edition of this life saving book incorporates the hard won field experience of actually working with the standard Along with a thoroughly updated and customisable generic Quality Manual with audit checklists for developing a complete Quality Management System the book provides valuable advice on Compatibility and Inter Relationship between other Management Standards Basic Requirements to Set Up an Integrated Management System and The Eight Principles of Management among others **Quality**

**Procedures for Hardware and Software** D.J. Smith,J.S. Edge,2012-12-06 How to Use This Book The primary purpose of this book is to assist small companies involved in both hardware and software to devise and evolve their own quality systems There are a number of national and now international standards which outline the activities for which procedures and records need to be specified They are described and compared in Chapter 2 and the subsequent guidance in the book is intended to assist in meeting them Although at first sight the operations of a hardware equipment developer may seem very different from those of a software house the basic requirements of a quality system such as the BS 5750 and ISO 1987 series of documents are the same For this reason the same standard can be called for in both areas and it will be seen in Part 2 that suitable procedures can be derived to meet both types of operation Quality standards BS 5750 AQAP ISO 9000 series distinguish between companies carrying out on the one hand both design and manufacturing fixed functions and on the other hand those who only manufacture to specifications In practice the lesser requirements those applying to manufacture to fixed specifications are common to both levels of standard and the additional controls pertaining to design are added to obtain the higher standard Chapter 2 explains the differences in detail *Apparel Quality Lab Manual* Janace E.
