to European bestseller analysing versions in French German Castilian Dutch and English It addresses questions on how to study medieval literature from a European perspective moving beyond national canons and reading Maline's bodily mutability as a metaphor for how the romance itself moves and transforms across borders It also analyses key changes to the romance's content form and material presentation including its images and traces how the people who produced and consumed this romance shaped its international transmission and spread The author shows how Maline's character is adapted within each local context while also uncovering previously unknown connections between the different branches of this multilingual tradition Moving beyond established paradigms of separate national traditions manuscript versus print and medieval versus Renaissance literature the book integrates literary analysis with art historical and book historical approaches
